Sunneday HC-200

Sunneday HC-200 Titan Mobile Hose Reel Instruction Manual

Model: HC-200

INTRODUCTION

The Sunneday HC-200 Titan Mobile Hose Reel is engineered for durability and heavy-duty use in various outdoor environments. It features a high-strength anodized, rust-free aluminum frame, brass fittings, and a cast-aluminum crank for reliable operation. Designed for maneuverability, this hose reel is equipped with 7-inch solid flat-free wheels, allowing for easy transport across different terrains. The unit includes accessible connections and a hose guide mechanism to ensure smooth and organized hose winding. It is capable of holding up to 200 feet of 5/8-inch garden hose.

SAFETY INFORMATION

- Read and understand all instructions before operating the hose reel.
- Always wear appropriate safety gear, such as gloves, when handling hoses or assembling the unit.
- Keep children and pets away from the hose reel during operation and assembly.
- Ensure the hose reel is placed on a stable, level surface to prevent tipping.
- Do not exceed the maximum hose capacity of 200 feet of 5/8-inch hose.
- Inspect the hose reel and all connections for damage before each use. Do not use if damaged.
- Turn off the water supply and relieve pressure before disconnecting hoses or performing maintenance.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Main Aluminum Frame Components
- Hose Reel Drum Assembly
- Crank Handle
- 7-inch Flat-Free Wheels (2)

- Hose Guide Mechanism
- Metal Tool Basket
- 5-foot Lead Line
- Assembly Hardware (bolts, nuts, washers)

ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your Sunneday HC-200 Titan Mobile Hose Reel:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Check against the package contents list to ensure nothing is missing.
2. **Attach Wheels:** Secure the two 7-inch flat-free wheels to the main frame axles using the provided hardware. Ensure they are firmly attached but can rotate freely.
3. **Assemble Frame:** Connect the various aluminum frame sections as indicated in the diagrams. Use the appropriate bolts and nuts, tightening them securely.
4. **Mount Hose Reel Drum:** Position the hose reel drum assembly within the main frame. Align the central axle of the drum with the designated mounting points on the frame and secure it with the provided hardware.
5. **Install Crank Handle:** Attach the cast-aluminum crank handle to the side of the hose reel drum. Ensure it is oriented correctly for comfortable winding and securely fastened.
6. **Attach Hose Guide:** Mount the hose guide mechanism to the upper part of the frame, above the reel drum. This mechanism helps distribute the hose evenly during winding.
7. **Install Tool Basket:** Secure the metal tool basket to the handle section of the frame. This basket provides convenient storage for nozzles, gloves, or other small gardening tools.

8. **Connect Lead Line:** Attach one end of the included 5-foot lead line to the inlet connection on the hose reel drum. Connect the other end of the lead line to your outdoor water faucet.
9. **Attach Garden Hose:** Connect your garden hose (up to 200 ft of 5/8-inch) to the outlet connection on the hose reel drum. Ensure all connections are tight to prevent leaks.

OPERATING INSTRUCTIONS

To use your Sunneday HC-200 Titan Mobile Hose Reel:

- **Unwinding the Hose:** Pull the desired length of hose from the reel. The flat-free wheels allow you to easily move the cart to your desired location.
- **Winding the Hose:** After use, turn off the water supply and relieve any pressure in the hose. Begin turning the crank handle clockwise to rewind the hose onto the drum. The integrated hose guide will assist in layering the hose evenly across the reel.
- **Using the Tool Basket:** Utilize the metal tool basket for convenient storage of your watering accessories, such as nozzles, sprayers, or quick connectors.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your hose reel:

- **Cleaning:** Periodically clean the aluminum frame and reel drum with a damp cloth to remove dirt and debris. Avoid abrasive cleaners that could damage the finish.
- **Connection Checks:** Regularly inspect all hose connections (lead line to faucet, lead line to reel, garden hose to reel) for tightness and signs of wear. Replace worn washers or fittings as needed to prevent leaks.
- **Winter Storage:** Before freezing temperatures, drain all water from the hose and reel. Store the hose reel in a dry, protected area to prevent damage from frost.
- **Lubrication:** The moving parts, such as the crank mechanism and hose guide, are designed for low maintenance. If any resistance is felt, a small amount of silicone-based lubricant can be applied to pivot points.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Water leaks from connections	Loose connections, worn washers, damaged hose/fittings	Tighten all connections. Replace worn rubber washers. Inspect hoses and fittings for cracks or damage and replace if necessary.
Difficulty winding hose	Hose kinked, excessive water pressure, debris in mechanism	Ensure hose is not kinked. Turn off water supply and relieve pressure before winding. Check hose guide and reel for obstructions.
Hose not winding evenly	Hose guide obstructed, manual winding technique	Clear any debris from the hose guide. Ensure the hose guide is properly installed. Guide the hose manually if needed during winding.
Wheels not rolling smoothly	Debris in wheel mechanism, loose axle	Remove any debris from around the wheels and axles. Check that the wheels are securely fastened to the frame.

SPECIFICATIONS

Feature	Detail
Model Number	HC-200
Material	Aluminum (frame), Brass/Aluminum (connections)
Hose Capacity	Up to 200 ft. of 5/8 in. hose
Wheels	7 in. solid flat-free tires
Lead Line Included	5 ft.
Item Weight	32 pounds

WARRANTY AND SUPPORT

The Sunneday HC-200 Titan Mobile Hose Reel is backed by a **Limited Lifetime Warranty**. This warranty covers defects in materials and workmanship under normal use. For specific details regarding warranty coverage, claims, or technical support, please refer to the warranty documentation included with your product or contact Sunneday customer service.

For assistance with assembly, operation, or troubleshooting, please contact Sunneday customer support through their official channels. Keep your purchase receipt as proof of purchase for warranty claims.
