## SETUP INSTRUCTIONS

Follow these steps to correctly set up your OIVO PS5 Stand and Cooling Station:

- 1. Select the Correct Panel:** Identify your PS5 console version (Original, Slim, or Pro). Choose the corresponding customized panel from the package. The stand includes separate panels for the original PS5 and for the PS5 Slim/Pro models.
- 2. Place the PS5 Console:** Carefully align your PS5 console with the chosen panel on the cooling station. Ensure it sits securely in the vertical position.
- 3. Secure the Console:** Use the provided fixed screw to firmly attach the PS5 console to the base of the stand. This ensures stability and prevents accidental tipping.
- 4. Connect Power:** Connect the included Type-C cable from the stand to the front USB-C port of your PS5 console. This powers the cooling fan and charging functions.
- 5. Attach Headset Holder:** If desired, attach the headset holder to the designated slot on the console stand.

## MAINTENANCE

- Cleaning:** Use a soft, dry cloth to wipe down the stand and charging docks. Avoid using abrasive cleaners or solvents.
- Airflow:** Ensure the fan vents on the stand and your PS5 console are clear of dust and obstructions for optimal cooling performance.
- Cable Management:** Keep cables neatly organized to prevent damage and maintain a tidy setup.

## TROUBLESHOOTING

- Cooling Fan Not Working:**

- Ensure the Type-C power cable is securely connected to both the stand and the PS5 console's front USB-C

port.

- Press the fan control touch button to cycle through speeds or turn it on.
- Verify that the PS5 console's 'Supply Power to USB Ports' setting is set to 'Always' if you want cooling in Rest Mode.

- **Controllers Not Charging:**

- Ensure controllers are correctly seated in the charging docks. The LED indicator should turn red.
- Check the Type-C power cable connection.
- Confirm the PS5 console's 'Supply Power to USB Ports' setting is set to 'Always' for charging in Rest Mode.

- **Console Not Stable:**

- Ensure the correct customized panel for your PS5 model is used.
- Verify the fixed screw is securely tightened to the console base.
