## 1. INTRODUCTION

This manual provides instructions for the proper installation, operation, and maintenance of your ForeverPRO W11382898 Dryer Filter. This filter is designed to replace specific dryer filters in various Whirlpool dryer models, ensuring efficient lint collection and optimal dryer performance. Please read this manual thoroughly before installation and keep it for future reference.

## 2. SAFETY INFORMATION

Always prioritize safety when working with appliances. Follow these guidelines:

- **Disconnect Power:** Always unplug the dryer from the power outlet before attempting any installation, removal, or maintenance of the filter.
- **Handle with Care:** The filter may have sharp edges or components. Handle it carefully to avoid injury.
- **Proper Fit:** Ensure the filter is correctly seated and secured in the dryer to prevent lint bypass and potential fire hazards.
- **Keep Away from Children:** Store replacement parts out of reach of children.
- **Consult Professional:** If you are unsure about any step, consult a qualified appliance technician.

## 3. PACKAGE CONTENTS

Your package should contain the following item:

- One (1) ForeverPRO W11382898 Dryer Filter

Image 1: Front view of the ForeverPRO W11382898 Dryer Filter. This image shows the filter screen and the main frame.

Image 2: Back view of the ForeverPRO W11382898 Dryer Filter, showing the handle and structural supports.

#### 4. COMPATIBILITY

The ForeverPRO W11382898 Dryer Filter is designed to be compatible with various Whirlpool dryer models. It replaces part numbers W10345281, W10716908, W10716911, W10878816, and W11368867.

Known compatible Whirlpool dryer models include, but are not limited to:

- WHD3090GW0

- WHD5090GW0
- YWHD3090GW0
- YWHD5090GW0

This filter is also compatible with certain models from other brands under the Whirlpool family, such as Maytag, KitchenAid, Jenn-Air, Amana, Magic Chef, Admiral, and Roper. Always verify your dryer's specific part number for accurate compatibility.

## 5. SETUP AND INSTALLATION

---

Follow these steps to replace your dryer filter:

1. **Disconnect Power:** Unplug the dryer from the electrical outlet to prevent electric shock.
2. **Locate Filter:** Open the dryer door and locate the existing lint filter. It is typically found in the dryer door opening or on the top panel.
3. **Remove Old Filter:** Grasp the handle of the old filter and pull it straight out. Note its orientation for proper installation of the new filter.
4. **Inspect Filter Housing:** While the filter is out, inspect the filter housing for any accumulated lint or debris. Clean if necessary.
5. **Insert New Filter:** Carefully slide the ForeverPRO W11382898 filter into the filter housing. Ensure it slides in smoothly and seats completely. Do not force the filter.
6. **Verify Seating:** The filter should sit flush with the dryer opening or panel. A properly seated filter prevents lint from bypassing the screen and accumulating in the dryer's exhaust system.
7. **Restore Power:** Plug the dryer back into the electrical outlet.

*Note: Refer to your dryer's specific user manual for detailed instructions on filter removal and installation, as procedures may vary slightly by model.*

## 6. OPERATION

---

The dryer filter is an essential component for safe and efficient dryer operation. Its primary function is to capture lint and debris from your laundry, preventing it from entering the dryer's exhaust system and reducing the risk of fire.

- **Before Each Load:** Always ensure the filter is clean and properly installed before starting a drying cycle.
- **During Operation:** The filter works continuously to collect lint. Reduced airflow or longer drying times can indicate a clogged filter.

## 7. MAINTENANCE

---

Regular maintenance of your dryer filter is crucial for optimal performance and safety.

### 7.1. Cleaning the Filter

1. **After Every Load:** Remove the filter and pull off any accumulated lint from the screen. Dispose of the lint properly.
2. **Periodic Deep Cleaning (Monthly or as needed):**
  - Remove the filter from the dryer.
  - Gently scrub the filter screen with a soft brush and warm, soapy water to remove any fabric softener residue or stubborn lint that may not come off by hand.
  - Rinse the filter thoroughly under running water until all soap residue is gone.
  - Allow the filter to air dry completely before reinserting it into the dryer. Ensure it is fully dry to prevent moisture issues.

### 7.2. When to Replace

Replace your dryer filter if you observe any of the following:

- **Damage:** Cracks, tears, or holes in the screen or frame.
- **Reduced Airflow:** Even after cleaning, if drying times are consistently longer or the dryer feels unusually hot, the filter may be compromised.
- **Excessive Lint Bypass:** If lint is consistently found outside the filter area within the dryer.

## 8. TROUBLESHOOTING

---

This section addresses common issues related to the dryer filter.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Dryer takes too long to dry clothes.	Clogged lint filter.	Clean the lint filter thoroughly. Perform a deep clean if necessary. Ensure the filter is properly seated.
Lint visible outside the filter area.	Filter not seated correctly or damaged filter.	Ensure the filter is fully inserted and flush. Inspect the filter for any tears or holes; replace if damaged.
Burning smell during dryer operation.	Excessive lint buildup in the dryer or exhaust vent.	Immediately stop the dryer and unplug it. Clean the lint filter. Inspect and clean the dryer's exhaust vent system. If the smell persists, contact a qualified technician.

## 9. SPECIFICATIONS

<b>Model Number</b>	W11382898
<b>Manufacturer Part Number</b>	FP-W11382898
<b>Brand</b>	ForeverPRO
<b>Item Weight</b>	8 ounces
<b>Product Dimensions</b>	9 x 6 x 4 inches
<b>Included Components</b>	Filter

## 10. WARRANTY

This ForeverPRO W11382898 Dryer Filter is covered by a **1-Year Manufacturer Warranty**. This warranty covers defects in materials and workmanship under normal use. Please retain your proof of purchase for warranty claims. For specific terms and conditions, please contact the manufacturer or seller.

## 11. CUSTOMER SUPPORT

If you have any questions regarding the installation, operation, or maintenance of your ForeverPRO W11382898 Dryer Filter, or if you encounter any issues not covered in this manual, please contact the seller or manufacturer for assistance. Provide your product model number and purchase details when seeking support.
