

Ayybboo 2007

Ayybboo Dinosaur LED Digital Alarm Clock User Manual

Model: 2007 | Brand: Ayybboo

[Instructions](#) [Maintenance](#) [Setup](#) [Operating](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. SETUP

1.1 Unboxing and Initial Charge

Upon unboxing, ensure all components are present: the Ayybboo Dinosaur LED Digital Alarm Clock and a USB charging cable. The device is powered by a built-in Lithium-ion battery. Before first use, fully charge the alarm clock using the provided USB cable. Connect the Micro DC port on the back of the clock to a standard USB power adapter (not included).

1.2 Placement

Place the alarm clock on a stable, flat surface such as a bedside table, desk, or shelf. Ensure it is away from direct sunlight, excessive heat, or moisture to prevent damage.

2. OPERATING INSTRUCTIONS

2.1 Basic Time Display and Setting

The clock displays time digitally. It supports both 12-hour and 24-hour formats. To set the time and toggle between formats, use the 'Time Setting' button located on the side of the device. Refer to the button layout image below for location.

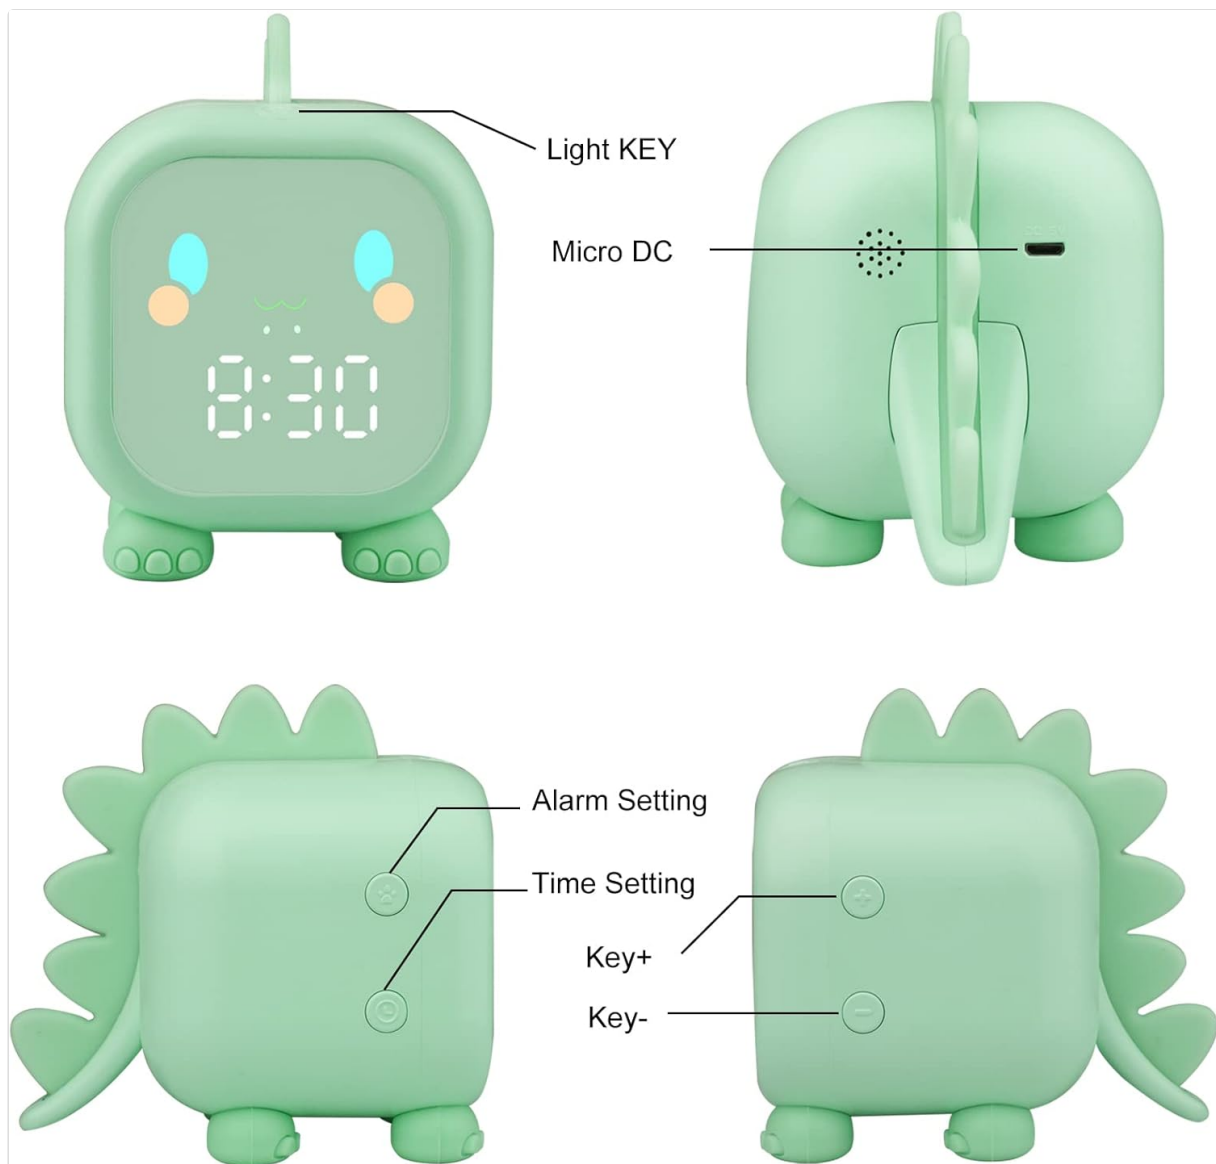

Image 2.1: Side view of the alarm clock with 'Time Setting' button indicated.

2.2 Alarm Setting

The alarm clock allows setting two separate alarms. This feature is useful for different schedules, such as weekdays and weekends. Use the 'Alarm Setting' button to configure alarm times and recurrence (Monday-Friday, Monday-Saturday, or everyday). The clock offers 6 musical ringtones and 5 adjustable volume levels.

GENTLE START TO EACH DAY

With a choice of 6 ring tones and 5 volume levels.

2.3 Snooze Function

When an alarm sounds, press any button (except the alarm off button) to activate the snooze function. This provides an additional 5 minutes of sleep before the alarm sounds again.

2.4 Night Light Functionality

The alarm clock features a timed night light with adjustable colors. The night light can be set to illuminate for 1 to 60 minutes. To activate the night light and change its colors, press the 'Light KEY' button or tap the top of the clock. The night light offers warm light, white light, and various colored light options.

SLEEPING COMPANION

Help your child to sleep better

15 minutes (Darkest/brightest) → 60 minutes (Extinguished)

2.5 Volume Adjustment and Ringtones

The alarm volume can be adjusted through 5 levels. There are 6 different musical ringtones available to choose from. The device also features an English voice output option.

2.6 Countdown Timer

The alarm clock includes a countdown timer function for various activities.

2.7 Temperature Display

The clock can display the room temperature in either Celsius (°C) or Fahrenheit (°F). Use the appropriate button to toggle between these units.

3. MAINTENANCE

3.1 Cleaning

To clean the alarm clock, gently wipe its surface with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the device's finish or internal components.

3.2 Battery Care

The device features an extra-long battery life. To maximize battery longevity, avoid fully discharging the battery frequently. Recharge the device when the low battery indicator appears. Store the device in a cool, dry place if not in use for extended periods.

4. TROUBLESHOOTING

4.1 Device Not Turning On

- Ensure the device is fully charged. Connect it to a power source using the USB cable and allow it to charge for at least 30 minutes before attempting to turn it on.

- Check the USB cable and power adapter for any damage. Try using a different cable or adapter if available.

4.2 Difficulty Setting Time/Alarm

- Refer to the 'Operating Instructions' section for detailed steps on setting time and alarms.
- Ensure you are pressing the correct buttons ('Time Setting' and 'Alarm Setting') and following the sequence outlined in the manual.
- If the device becomes unresponsive, try a soft reset by holding down the main power button for 10 seconds, or allow the battery to fully discharge and then recharge.

4.3 Night Light Not Functioning

- Verify the device is powered on and has sufficient battery charge.
- Press the 'Light KEY' button or tap the top of the clock to activate the night light. Repeated presses or taps should cycle through colors or turn it off.

5. SPECIFICATIONS

Model Number	2007
