

REOLINK RLC-1212A, RLN8-410

REOLINK 12MP PoE IP Camera System User Manual

Models: RLC-1212A Cameras & RLN8-410 NVR

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your REOLINK 12MP PoE IP Camera System. This system includes RLC-1212A bullet cameras and an RLN8-410 Network Video Recorder (NVR) with a 2TB hard drive, designed for comprehensive home security surveillance.

PACKAGE CONTENTS

Verify that all items are present in your package:

- 2x REOLINK RLC-1212A 12MP PoE IP Cameras
- 2x 1-meter Network Cables
- 1x REOLINK RLN8-410 Network Video Recorder (NVR) with 2TB Built-in HDD
- Necessary mounting accessories for cameras

Image: Overview of the REOLINK 12MP PoE IP Camera System, showing two bullet cameras, the NVR unit, and a 2TB hard drive.

SETUP AND INSTALLATION

1. PoE Camera Installation

The RLC-1212A cameras utilize Power over Ethernet (PoE) technology, allowing both power and data transmission through a single network cable. This simplifies installation.

1. **Mounting the Camera:** Choose a suitable outdoor location for optimal surveillance coverage. Securely mount the camera using the provided screws and mounting accessories. Ensure the camera is positioned to capture the desired area.
2. **Connecting the Network Cable:** Connect one end of the network cable to the camera's Ethernet port. Connect the other end of the network cable to an available PoE port on the RLN8-410 NVR.
3. **Cable Management:** Route the network cable securely to protect it from environmental elements and tampering.

Image: A single REOLINK RLC-1212A bullet camera mounted on a wall, showing its design and cable connection.

2. NVR Setup (RLN8-410)

The NVR is the central recording and management unit for your camera system.

1. **Placement:** Place the NVR in a secure, dry, and well-ventilated area.
2. **Connect Cameras:** Connect the PoE cameras to the NVR's PoE ports as described above.
3. **Connect to Monitor:** Connect the NVR to a monitor using an HDMI or VGA cable (not included) to view the live feed and configure settings.
4. **Connect to Network:** Connect the NVR's LAN port to your router using a network cable for internet access and remote viewing capabilities.
5. **Power On:** Connect the NVR to a power source using the provided power adapter. The NVR will power on automatically.

OPERATING INSTRUCTIONS

1. Initial Configuration

Upon first power-up, follow the on-screen wizard on the connected monitor to set up basic NVR settings, including date/time, network configuration, and password creation.

2. Live View and Recording

- **Live View:** Access the live feed from all connected cameras via the NVR's monitor output or through the Reolink App/Client software.
- **24/7 Recording:** The NVR is configured for continuous 24/7 recording to the 2TB hard drive. This ensures constant surveillance coverage.
- **Event Recording:** Configure event-triggered recording based on motion detection, human detection, vehicle detection, or pet detection to save storage space and focus on important events.

3. Smart Detection Features

The RLC-1212A cameras are equipped with intelligent detection capabilities:

- **Human Detection:** Identifies human shapes, reducing false alarms from other movements.
- **Vehicle Detection:** Distinguishes vehicles from other objects.
- **Pet Detection:** Recognizes pets, minimizing unnecessary alerts.

These features can be configured via the NVR interface or the Reolink App/Client to send push notifications or email alerts upon detection.

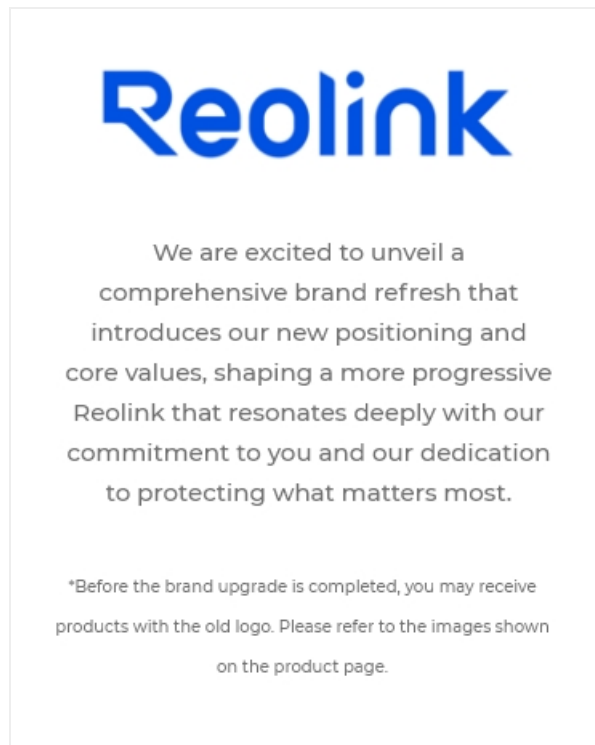

Image: A smartphone screen showing the Reolink app interface with alerts for human, vehicle, and pet detection, alongside a live camera feed.

4. Color Night Vision

The RLC-1212A cameras feature 700lm spotlights, enabling full-color night vision for enhanced clarity in low-light conditions. The cameras can also utilize infrared (IR) light for black and white night vision when spotlights are not desired.

Light up the Night

See Everything in Full Color

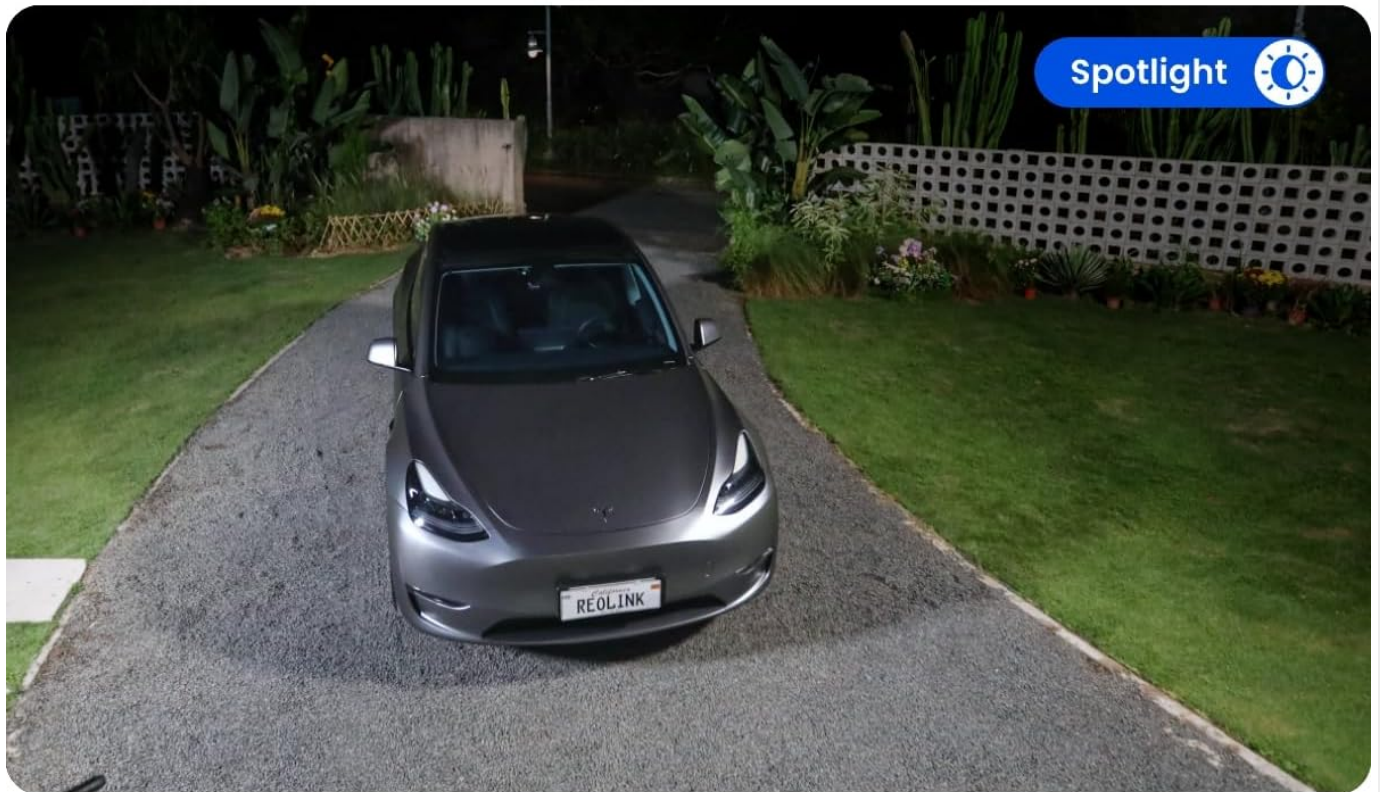

Image: A split image demonstrating the difference between color night vision (top, with spotlight) and infrared night vision (bottom, black and white) for a car in a driveway at night.

5. Remote Access

Access your camera system remotely using the Reolink App (for smartphones/tablets) or Reolink Client software (for computers). This allows you to view live feeds, playback recordings, and manage settings from anywhere with an internet connection.

- **Download App/Client:** Download the official Reolink App from your device's app store or the Reolink Client

software from the official Reolink website.

- **Add Device:** Follow the in-app instructions to add your NVR to the application using its UID or IP address.

Image: A person viewing camera feeds on a smartphone, with a laptop and desktop computer also displaying the Reolink interface, illustrating remote access capabilities.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your security system:

- **Clean Camera Lenses:** Periodically clean camera lenses with a soft, damp cloth to remove dust, dirt, or water spots that may obscure the view.
- **Check Cable Connections:** Ensure all network and power cables are securely connected and free from damage.
- **Firmware Updates:** Regularly check for and install firmware updates for both cameras and the NVR to benefit from new features and security enhancements. These can typically be found on the official Reolink website.
- **Hard Drive Health:** Monitor the NVR's hard drive health through the system settings. Back up important recordings periodically.
- **Environmental Protection:** Ensure cameras are protected from direct, extreme weather conditions where possible, even though they are designed for outdoor use.

TROUBLESHOOTING

If you encounter issues with your REOLINK system, consider the following common troubleshooting steps:

- **No Video Feed:**
 - Check power connections to the NVR and ensure cameras are properly connected to PoE ports.
 - Verify network cable integrity.
 - Restart the NVR.
- **No Remote Access:**
 - Ensure the NVR is connected to the internet. Check your router and network settings.
 - Verify that the Reolink App/Client is updated to the latest version.
 - Check firewall settings on your router that might be blocking access.
- **False Alarms:**
 - Adjust motion detection sensitivity settings in the NVR or app.
 - Utilize human/vehicle/pet detection features to filter out irrelevant movements.
 - Define specific motion detection zones to exclude areas with frequent non-threatening movement (e.g., trees swaying).

- **Poor Night Vision:**
 - Clean the camera lens.
 - Ensure there are no obstructions blocking the camera's view or reflecting IR light back into the lens.
 - Check if the spotlights are enabled and functioning correctly for color night vision.

For further assistance, refer to the official Reolink support website or contact customer service.

SPECIFICATIONS

Key technical specifications for the REOLINK 12MP PoE IP Camera System:

Feature	Specification
Brand	REOLINK
Model Numbers	RLC-1212A (Cameras), RLN8-410 (NVR)
Connectivity Technology	Wired (PoE)
Video Capture Resolution	4032 x 3024 (12MP)
Special Features	Motion Sensor, Night Vision, Human/Vehicle/Pet Detection
Number of Channels (NVR)	8
Memory Storage Capacity (NVR)	2 TB HDD (Built-in)
Power Source	Corded Electric
Operating System (NVR)	Linux-based system, embedded system, or proprietary OS
Recommended Uses	Surveillance
Low Light Technology	Night Color (700lm spotlights)
Frame Rate	30 FPS or higher
Recording Mode	Event, Continuous
Hardware Interface (NVR)	USB 3.0 Type A
Lens Type	Fixed

CUSTOMER SUPPORT

For technical support, warranty information, or further inquiries, please visit the official REOLINK website or contact their customer service department. Keep your product model numbers (RLC-1212A, RLN8-410) and purchase details readily available when seeking support.

RLC-1212A

Med F1.6 stor blenderpning og 12MP ultra-HD, lar RLC-1212A deg nyte feilfrie bilder og videoer. Du kan enkelt se detaljer som er vanskelig se med det blotte

1. Spesifikasjoner

1	Feste
2	Hyttaler
3	Aluminiumsdeksel
4	Spotlight
5	IR-LED-lysdioder
6	HD-linse
7	Dagsslyssensor
8	Innebygd mikrofon

RLC-1212A

S objektívem s velkou clonou F1.6 a 12MP ultra vysokým rozlišením vám RLC-1212A umožní uchytvat si bezchybné obrázky a videa. Můžete snadno zobrazit

1. Specifikace

1	Připojení
2	Reproduktor
3	Kovové hliníkové pouzdro
4	Reflektor
5	IR LED
6	Objektiv s vysokým rozlišením
7	Senzor denního světla
8	Vestavěný mikrofon

スマート12MP Ultra HD PoE
レット型カメラ、人体・車両検知、
カラーナイトビジョン、双方向音声
付き

- ・ 人体・車両検知
- ・ 12MP Ultra HD
- ・ カラーナイトビジョン

Specifications

ビデオとオーディオ	
イメージセンサー	1/2.49" CMOS Sensor
ビデオ解像度	Default: 4512X2512 (12 Megapixels) at 20 frames/sec
レンズ	f=4.0mm; F1.6, with IR-cut filter
ビデオ圧縮	H.265
視野角	- Horizontal 93° - Vertical: 49°
ズームタイプ	Auto-switching with IR-cut filter
ナイトビジョン	30 meters (100ft) (LED: 2pcs/28mil/ 850nm)
カラーナイトビジョン	Spotlight: 1pcs/4-3W/6500K/700 lumens
オーディオ	Two-way audio
電源	
PoE	IEEE 802.3af, 48V Active
直流電源	DC 12.0V@1A, +12W

RLC-1212A 2.8mm IP Camera Specification	
Model	RLC-1212A
Image Sensor	1/2.49" CMOS Sensor
Video Resolution	Default: 4512X2512 (12 Megapixels) at 20 frames/sec
Lens	f=4.0mm; F1.6, with IR-cut filter
Video Format	H.265
Field of View	Horizontal 93°
Zoom Type	Auto-switching with IR-cut filter
Night Vision	30 meters (100ft) (LED: 2pcs/28mil/ 850nm)
Color Night Vision	Spotlight: 1pcs/4-3W/6500K/700 lumens
Audio	Two-way audio
Power	
PoE	IEEE 802.3af, 48V Active
DC Power	DC 12.0V@1A, +12W
Interface	
Network	10/100Mbps
Storage	16GB (max) (SD card, up to 128GB)
Frame Rate	1080p@30fps / 720p@30fps / 1080p@20fps / 720p@20fps
Code Rate	1080p@30fps: 10Mbps / 720p@30fps: 5Mbps
Compression Support	H.265, H.264, MJPEG, MPEG-4, AVI, MP4
Software Features	
OS Support	Windows, Linux, Android, iOS, macOS
Smart Alerts	Motion detection, Sound detection, AI detection, Face detection
Remote Access	Mobile app, Web browser, PC software
Protocols & Standards	HTTP, FTP, SFTP, NFS, SMB, UPnP, RTSP, ONVIF, P2P, etc.
Electrical Data (12VDC)	Power: 12VDC, 1A, 12W
Working Environment	Operating Temperature: -10°C to 55°C (14°F to 131°F)
Storage Environment	Storage Temperature: -20°C to 60°C (-4°F to 140°F)
Size & Weight	Size: 86mm x 51mm x 30mm (3.39" x 2.01" x 1.18")
Weight	Weight: 100g (3.53oz)
Warranty	1 Year (3 years for business)
