umoven Minimalist Wallet with Money Clip and RFID Blocking - Model 003 User Manual

INTRODUCTION

Thank you for choosing the umoven Minimalist Wallet. This manual provides essential information for the proper setup, operation, and maintenance of your new wallet. Designed for efficiency and security, this wallet combines high-quality materials with advanced features to protect your personal information.

The umoven wallet features a water-resistant PU leather cover and a premium aluminum wallet chamber. It includes a smooth eject pop-up mechanism for cards, an inner magnet for secure closure, and RFID blocking functionality to safeguard your credit cards, debit cards, and driving license from unauthorized scanning devices.

PACKAGE CONTENTS

- umoven Minimalist Wallet x 1
- Screwdriver x 1
- Extra Screws (for money clip adjustment) x 1 bag

SETUP

Inserting Cards into the Aluminum Chamber

The aluminum chamber is designed to hold 6-8 cards, depending on card thickness. Gently slide your cards into the top opening of the aluminum chamber until they are securely seated.

Using the Leather Cover Card Slots

The leather cover provides additional storage: 3-4 card slots, including one ID window. Insert frequently used cards or your ID into these slots for easy access.

Attaching/Adjusting the Money Clip

The wallet comes with a metal money clip for carrying cash. If you need to adjust its tightness or remove it, use the provided screwdriver to loosen or tighten the two screws securing the clip to the wallet's frame.

OPERATING INSTRUCTIONS

Quick Card Access

To access cards from the aluminum chamber, simply slide the side button. The cards will pop up in a stepped manner, allowing you to easily select the desired card.

ID Card Holder Slot

The dedicated ID card holder slot allows you to swipe your ID, work card, or access card without removing it from the wallet, offering convenience for daily use.

RFID Blocking Functionality

The built-in RFID blocking technology shields your credit cards, debit cards, and driving license from unknown scanning devices, protecting your personal information and financial security.

Magnetic Closure

The inner magnet in the PU cover ensures the wallet remains securely closed, preventing accidental opening and keeping your contents safe.

Lanyard Connection Holes

Two small holes are designed on both sides of the wallet, allowing you to attach a lanyard or wallet chain for double protection against loss.

MAINTENANCE

To ensure the longevity of your umoven wallet, avoid prolonged exposure to direct sunlight or extreme temperatures, which can affect the PU leather and internal mechanisms. Clean the leather surface with a soft, damp cloth. Do not use harsh chemicals. For the aluminum chamber, a dry cloth is sufficient.

TROUBLESHOOTING

Cards Not Ejecting Properly

- Do not force the trigger mechanism.
- Use the provided screwdriver to slightly loosen the screws on the aluminum casing.
- Carefully open the casing and remove any stuck cards.
- If the issue persists, please contact customer support for a replacement.

Cards Not Fitting or Falling Out

- Ensure your cards are of standard size. Overfilling the chamber can cause cards to stick, while too few or undersized cards may fall out.
- If the issue persists, please contact customer support for assistance.

SPECIFICATIONS

Feature	Detail
Product Dimensions	0.55 x 3.1 x 4.25 inches
