## ZNOAV juicer

# ZNOAV 600W Juicer Machine User Manual

MODEL: JUICER

Your guide to fresh, healthy juices with ease.

### Product Overview

The ZNOAV 600W Juicer Machine is designed for efficient and convenient juicing of fruits and vegetables. Featuring a powerful motor and multiple speed settings, it extracts high yields of fresh juice quickly. Its user-friendly design ensures easy assembly, operation, and cleaning.

Figure 1: ZNOAV 600W Juicer Machine with a variety of fruits and a filled juice cup.

#### Key Features:

- **600W High-speed Power:** Processes fruits and vegetables quickly, delivering fresh juice in seconds.
- **3 Speed Settings:** Adaptable for various produce types, from soft fruits (Speed I: 12000-18000 rpm) to hard vegetables (Speed II: 18000-27000 rpm). '0' setting for pause.
- **High Juice Yield:** Equipped with a 304 stainless steel high-density filter and anti-corrosion multi-head blade for efficient juice extraction.
- **3.5-inch Wide Chute:** Accommodates whole fruits and vegetables, reducing preparation time.
- **Easy to Clean:** All removable parts are dishwasher safe, and the base unit can be cleaned with a damp towel and brush.
- **BPA-Free Materials:** Food-grade stainless steel cutter head and filter, with BPA-free lid and juice cup for safety.
- **Safety Design:** Features a safety lock to ensure secure operation and prevent leaks during high-speed juicing.

## Setup Instructions

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify all components are present: motor base, filter basket, juicer cover, food pusher, juice cup, and pulp container.
2. **Assemble Filter Basket:** Place the stainless steel filter basket securely onto the motor base. Ensure it clicks into place.
3. **Attach Juicer Cover:** Position the juicer cover over the filter basket and motor base. Align the cover properly and secure it with the safety locking bar. The juicer will not operate unless the locking bar is correctly engaged.
4. **Position Containers:** Place the juice cup under the juice spout and the pulp container at the back of the unit, aligning it with the pulp ejection chute.
5. **Insert Food Pusher:** Insert the food pusher into the wide chute opening.
6. **Connect Power:** Plug the power cord into a grounded electrical outlet.

## SECURITY LOCK CLAMP

Keep the Lid Completely Closed

## ANTI-DRIP DESIGN

Not leak juice during use

## 2 GRADES BUTTONS

Suitable for soft & hard foods

Figure 2: Detail of the security lock clamp and anti-drip spout, essential for proper setup and operation.

### Operating Instructions

1. **Prepare Ingredients:** Wash fruits and vegetables thoroughly. For the 3.5-inch wide chute, small apples can be juiced whole. Larger items may need to be cut into smaller pieces to fit the chute. Remove large seeds (e.g., peach pits) and hard peels (e.g., pineapple skin).
2. **Select Speed Setting:** Turn the control knob to the desired speed:

- **Speed I (Low):** 12000-18000 rpm, ideal for soft fruits like oranges, grapes, and strawberries.
  - **Speed II (High):** 18000-27000 rpm, suitable for harder produce such as carrots, apples, and pineapples.
3. **Begin Juicing:** With the motor running, gradually feed ingredients into the wide chute using the food pusher. Apply gentle, steady pressure. Do not force ingredients down.
  4. **Monitor Juice and Pulp:** Fresh juice will flow into the juice cup, and pulp will collect in the pulp container. Ensure both containers do not overflow.
  5. **Pause Operation:** To temporarily stop juicing, turn the control knob to '0'.

# HIGH JUICE YIELD FILTER

Figure 4: The high-density filter and multi-head blade ensure maximum juice extraction.

## Cleaning and Maintenance

Regular cleaning is essential to maintain the performance and longevity of your ZNOAV Juicer Machine.

1. **Unplug:** Always unplug the juicer from the power outlet before cleaning.
2. **Disassemble:** Unlock the safety bar and carefully remove the juicer cover, filter basket, juice cup, and pulp

container.

- Clean Removable Parts:** All removable parts (filter basket, juicer cover, food pusher, juice cup, pulp container) are dishwasher safe. For manual cleaning, rinse them under running water and use a brush (if provided) to remove any pulp residue from the filter mesh.
- Clean Motor Base:** Wipe the motor base with a damp cloth. Do not immerse the motor base in water or any other liquid.
- Dry and Store:** Ensure all parts are completely dry before reassembling or storing the juicer.

## Troubleshooting

If you encounter issues with your juicer, please refer to the following common solutions:

- **Juicer Does Not Turn On:**

- Ensure the power cord is securely plugged into a working electrical outlet.
- Check that the safety lock bar is fully engaged and the juicer cover is properly aligned and locked. The juicer has a safety mechanism that prevents operation if not correctly assembled.

- **Low Juice Yield or Excessive Pulp:**

- Ensure you are using the correct speed setting for the type of produce. Use Speed II for harder fruits and vegetables.
- Feed ingredients slowly and apply gentle, consistent pressure with the food pusher.
- Clean the filter basket thoroughly. Clogged mesh can reduce juice extraction efficiency.

- **Unit Stops During Operation:**

- The juicer may have overheated due to continuous use or processing very hard ingredients. Turn off the unit, unplug it, and allow it to cool down for at least 15-20 minutes before resuming.
- Check for blockages in the chute or filter basket. Clear any obstructions.

## Product Specifications

Feature	Detail
Brand	ZNOAV
Model Name	juicer
Color	grey
Product Dimensions	10"D x 10"W x 10"H
Item Weight	6.18 pounds
Maximum Power	800 Watts

Number of Speeds	3
Blade Material	Stainless Steel
Is Dishwasher Safe	Yes (removable parts)
Special Feature	Powerful Motor
UPC	740207776574

## Warranty and Support

ZNOAV juicers are UL certified for product quality and safety, ensuring confidence in your purchase.

- **After-Sales Guarantee:** We provide a 12-month after-sales guarantee service.
- **Online Service:** 24-hour online service is available to assist with any questions or concerns.

For further assistance, please refer to the contact information provided with your product packaging or visit the official ZNOAV website.
