

Aroepurt Google Pixel 6 Pro (IMDH-ZBW)

Aroepurt Google Pixel 6 Pro Phone Case User Manual

Model: Google Pixel 6 Pro (IMDH-ZBW)

1. INTRODUCTION

Thank you for choosing the Aroepurt Phone Case for your Google Pixel 6 Pro. This case is designed to provide robust protection for your device, combining a durable PC hard back panel with a soft silicone frame and four-corner shock airbags. It also features a unique colorful reflect light design, an adhesive metal finger ring for enhanced grip and stand functionality, and comes with a tempered glass screen protector for comprehensive device safety. This manual will guide you through the installation, operation, and maintenance of your new phone case.

2. PACKAGE CONTENTS

- 1 x Aroepurt Phone Case for Google Pixel 6 Pro
- 1 x Tempered Glass Screen Protector
- 1 x Adhesive Metal Finger Ring (pre-attached or separate)

Image: Overview of the Aroepurt Google Pixel 6 Pro Phone Case package contents, including the case, tempered glass screen protector, and the adhesive metal finger ring.

3. FEATURES

- **Frosted Surface:** Provides a delicate feel and comfortable grip.
- **Colorful Reflect Light Design:** Different angles will produce unique color reflection effects.
- **2-in-1 Hybrid Protection:** Combines a durable PC hard back panel with a soft silicone frame for comprehensive defense.
- **Four Corners Shock Airbags:** Enhanced corner protection to absorb impacts and prevent damage from drops.
- **Advanced Back Panel Construction:** Features a combination of 4 layers: solid PC, ultra-high definition pattern layer, special process layer, and a clear, scratch-resistant surface layer.
- **Raised Edges:** Case is designed to be higher than the camera and screen, providing better flat surface protection against scratches and direct impacts.

- **Adhesive Metal Finger Ring Support:** Offers a secure grip, functions as a 360-degree rotating kickstand, and is compatible with magnetic car mounts.

Shockproof

4. SETUP & INSTALLATION

4.1. Case Installation

1. Ensure your Google Pixel 6 Pro is clean and free of dust or debris.
2. Align the phone with the case, starting with the top edge.
3. Gently press the phone into the case, ensuring all corners and edges are securely seated within the silicone frame.
4. Verify that all ports, buttons, and camera cutouts align correctly with your phone.

4.2. Tempered Glass Screen Protector Installation

1. Clean your phone screen thoroughly using an alcohol wipe, then dry it with a microfiber cloth. Ensure no dust particles remain.
2. Carefully peel off the protective film from the adhesive side of the tempered glass.
3. Align the screen protector with your phone's screen, paying attention to the edges and cutouts (camera, sensors).
4. Once aligned, gently lower the screen protector onto the screen. It will adhere automatically.

5. If there are any bubbles, gently push them towards the edges using a soft cloth or a squeegee (not included).

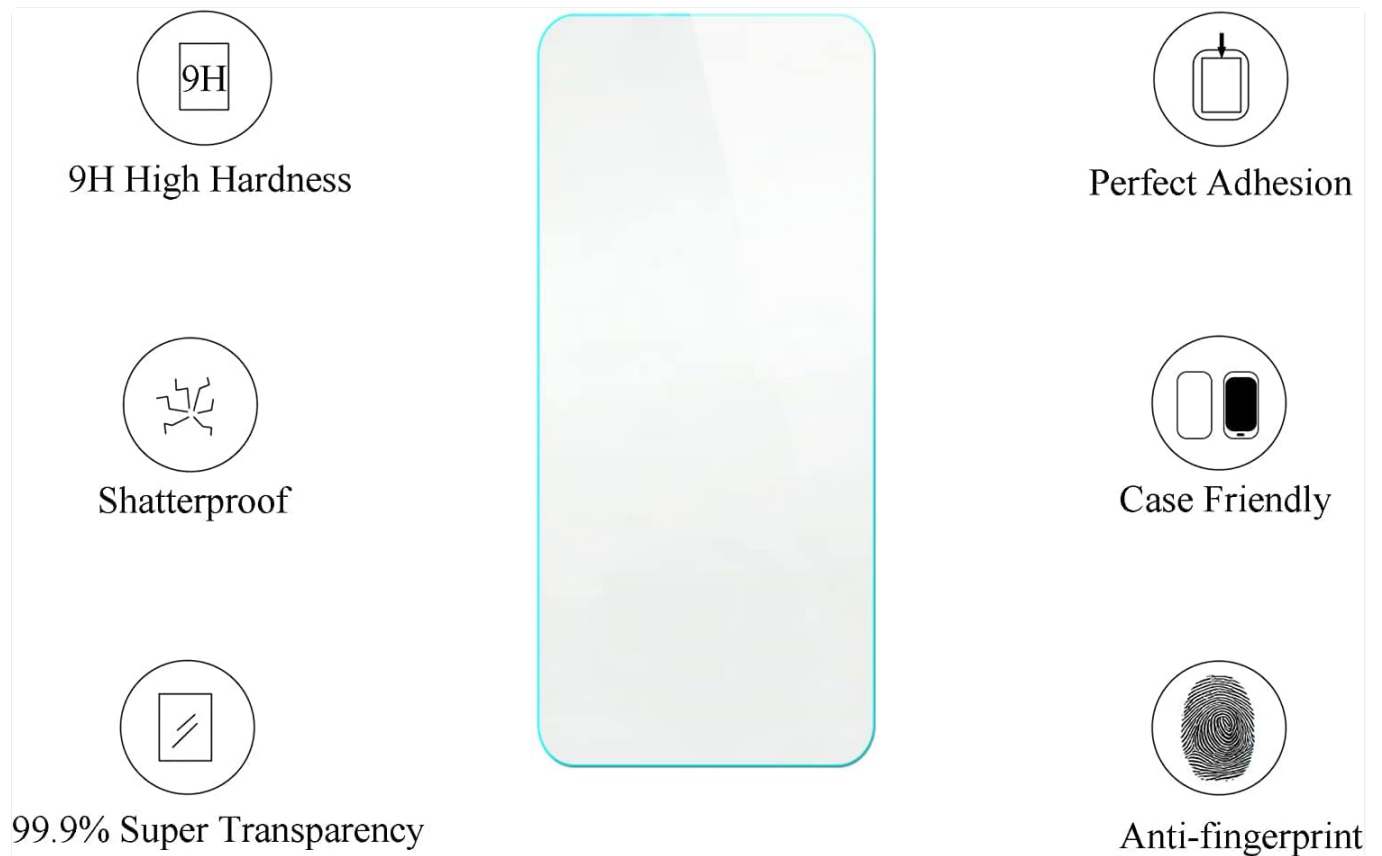

Image: Visual representation of the tempered glass screen protector's key features, including 9H High Hardness, Perfect Adhesion, Shatterproof, Case Friendly, 99.9% Super Transparency, and Anti-fingerprint properties.

Scratch Proof

Scratch proof screen effectively avoids sharp objects scratching or abrasion

Image: Demonstration of the screen protector's scratch-proof capability, showing it effectively resisting scratches from sharp objects.

4.3. Finger Ring Stand Installation (if separate)

1. If the finger ring is not pre-attached, choose a desired flat position on the back of your phone case.
2. Clean the chosen area on the case to ensure good adhesion.
3. Peel off the protective film from the adhesive side of the finger ring.
4. Press the finger ring firmly onto the case for at least 30 seconds. Allow a few hours for the adhesive to fully cure before heavy use.

5. OPERATION

5.1. Using the Finger Ring Stand

- **Enhanced Grip:** Slide your finger through the ring for a more secure hold, reducing the risk of accidental drops.
- **Kickstand Function:** Rotate the ring to your desired angle (up to 360 degrees) and prop your phone up on a flat

surface for hands-free viewing of videos or video calls.

- **One-Hand Operation:** The finger ring allows you to comfortably reach more spots on your screen with one hand.

One-Hand Operation

Touch more spots on the screen

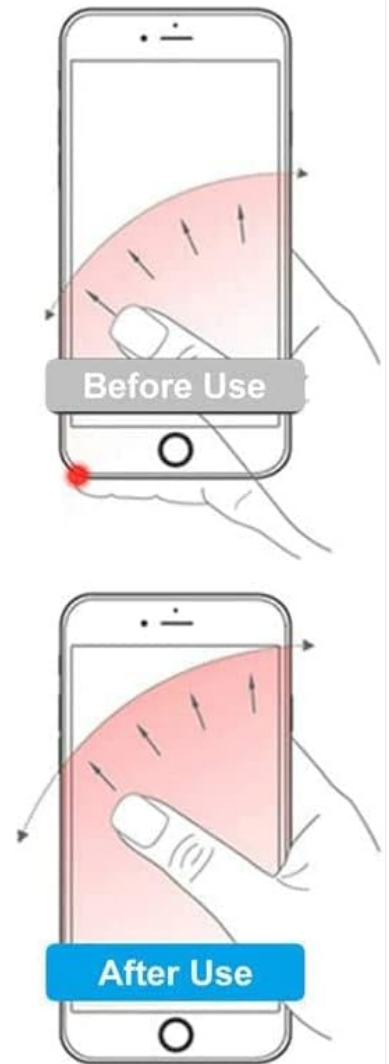

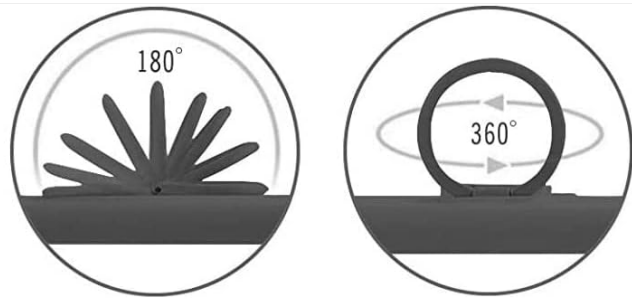

Image: Illustration demonstrating how the finger ring facilitates easier one-hand operation by allowing the thumb to reach more areas of the screen.

5.2. Magnetic Car Mount Compatibility

The integrated metal plate within the finger ring allows for direct attachment to magnetic car mounts (not included). Simply place the back of your phone case onto a compatible magnetic car mount for secure navigation or hands-free calling while driving.

Note: This case does not support wireless charging due to the metal finger ring. Please remove the case for wireless charging or use a wired charger.

SUPPORT MAGNETIC CAR MOUNT

Support multi-angle stand.
not support wireless charging.

Image: Visual showing the finger ring's compatibility with magnetic car mounts, along with illustrations of its 180-degree and 360-degree rotation capabilities.

6. MAINTENANCE

- **Cleaning the Case:** Use a soft, damp cloth to wipe down the case. For tougher stains, a mild soap solution can be used. Avoid harsh chemicals or abrasive materials that could damage the finish.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector. For smudges, a screen cleaner spray designed for electronics can be applied to the cloth (not directly to the screen).
- **Avoid Extreme Temperatures:** Do not expose the case or screen protector to extreme heat or cold, as this may affect their material integrity and performance.
- **Regular Inspection:** Periodically check the case for any signs of wear or damage. If the case is significantly damaged, consider replacing it to ensure optimal protection for your device.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Buttons are hard to press or misaligned.	Case not fully seated or slight manufacturing variation.	Remove the case and re-install, ensuring all edges are properly aligned. Gently press around the buttons to ensure a snug fit.
Screen protector has bubbles after installation.	Dust particles trapped underneath or uneven application.	Gently lift the nearest edge of the screen protector and use a dust removal sticker (if available) to remove particles. Reapply slowly, pushing bubbles towards the edges with a soft cloth.
Finger ring adhesive is not holding.	Surface not clean or insufficient curing time.	Ensure the surface was clean and dry before application. Apply firm pressure for at least 30 seconds and allow several hours for the adhesive to fully bond before putting stress on the ring.
Case appears loose on the phone.	Incorrect model case or slight material stretching over time.	Verify the case model matches your phone. If the case has stretched significantly, consider replacing it for optimal fit and protection.

8. SPECIFICATIONS
