RONGJI 7-inch GPS Navigation System User Manual

INTRODUCTION

This manual provides essential information for the proper setup, operation, and maintenance of your RONGJI 7-inch GPS Navigation System. Please read these instructions carefully before using the device to ensure optimal performance and safety.

Drive easier and safer

Easy to operate and fully functional

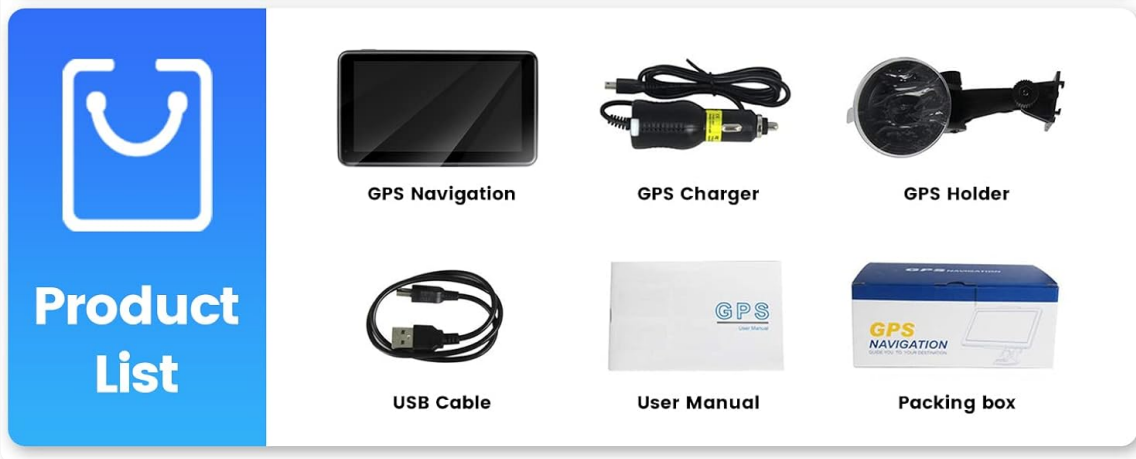

The RONGJI 7-inch GPS Navigation System provides clear, turn-by-turn directions for an easier and safer driving experience.

WHAT'S IN THE BOX

Verify that all items are present in the package:

- 256M+8GB GPS Navigator
- Car USB Charger
- Suction Cup Mount
- USB Cable
- User Manual (this document)

All components included in the RONGJI GPS Navigation System package.

PRODUCT FEATURES

The RONGJI 7-inch GPS Navigation System offers a range of features designed for efficient and safe navigation:

- **2.5D Curved Screen:** Provides a wider viewing angle, clear display, and improved light transmission, ensuring visibility even in direct sunlight. The screen corner is protected by a plastic cover.
- **Professional Navigation System:** Designed for cars, trucks, motorhomes, and RVs.
- **Customizable Routes:** Tailor routes based on vehicle weight, length, height, and width to avoid restricted roads.
- **Intelligent Route Planning:** Offers fast and economical route options.
- **Search Options:** Supports postcode, address, coordinates, favorites, and Points of Interest (POI) search (e.g., gas stations, rest areas).
- **Real-time Information:** Displays current speed and estimated time of arrival (ETA).
- **Lifetime Map Updates:** Pre-installed with the latest North America maps (US, Canada, Mexico) with 2D/3D display. Free lifetime map updates are available.

- **Multiple Navigation Modes:** Supports truck, car, bus, pedestrian, cab, bicycle, and emergency modes.
- **Accurate Offline GPS:** Operates based on an active GPS signal without requiring an internet connection or phone pairing.

Voice Broadcast

Pol / ZIP / Draw route

Overview of the multifunctional capabilities of the GPS navigation system.

SETUP

1. Mounting the Device

Attach the suction cup mount to a clean, smooth surface on your dashboard or windshield. Ensure the device is securely fastened and does not obstruct your view of the road.

2. Power Connection

Connect the GPS navigator to your vehicle's power outlet using the provided Car USB Charger and USB Cable. The device will power on automatically or can be turned on using the ON/OFF button.

3. Initial Language and Time Zone Setup

Upon first use or after a reset, you may need to set the program language and time zone. Navigate through the settings menu to adjust these preferences.

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

1. Basic Navigation

- **Destination:** Tap 'Destination' to enter your desired location using address, postcode, coordinates, or POI.
- **Route Options:** After setting a destination, review and adjust route preferences (e.g., fastest, shortest, avoid tolls).
- **Show Map:** View the current map and your position.

2. Customizing Routes for Commercial Vehicles

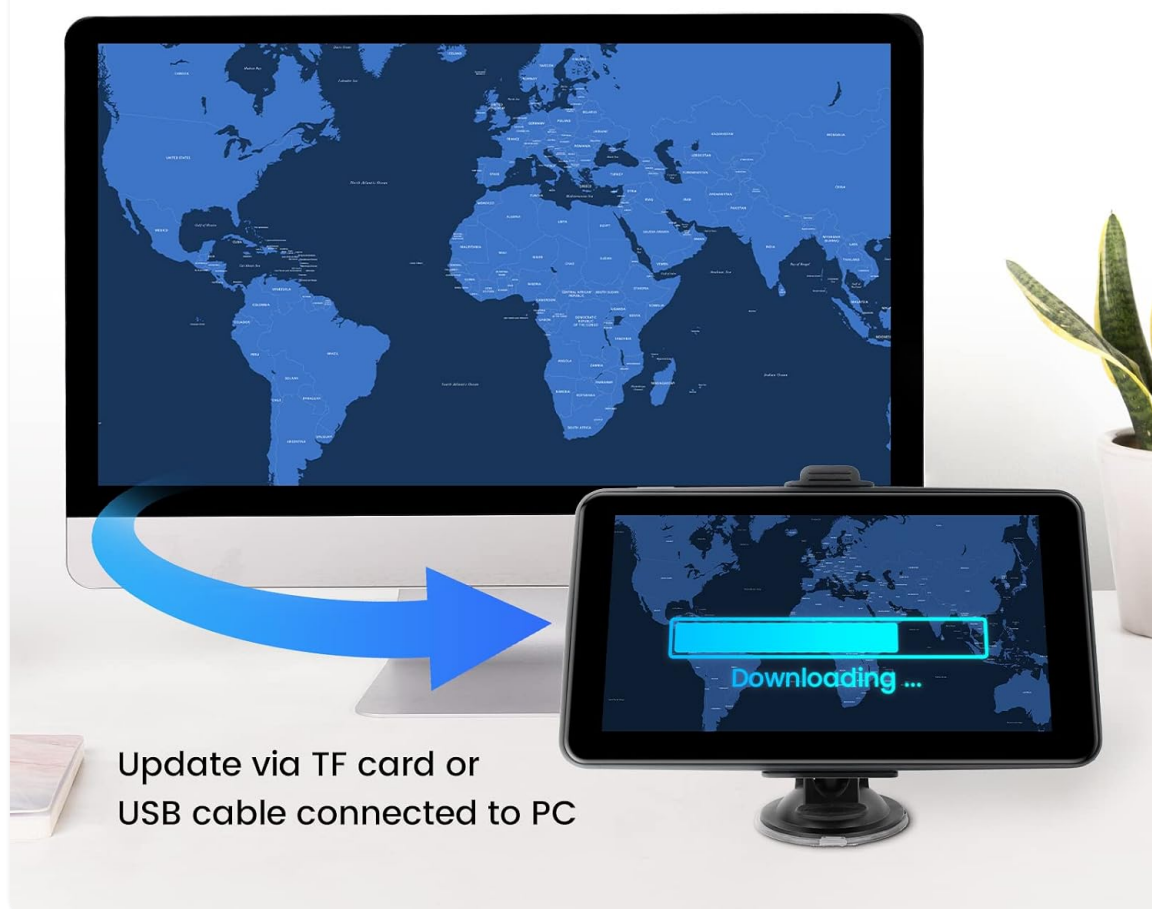

For truck drivers, access the 'User Profiles' or 'Vehicle Settings' within the navigation menu to input your vehicle's specific dimensions (weight, length, height, width). This ensures the system plans routes that avoid roads with restrictions.

3. Map Updates

Your RONGJI GPS Navigation System comes with free lifetime map updates. To update maps:

1. Connect the device to a computer using the USB cable.
2. Follow the instructions in the map download manual (included) to download and install the latest maps via TF card or direct USB connection.

2023 Latest Maps Free Update for Lifetime

Update via TF card or
USB cable connected to PC

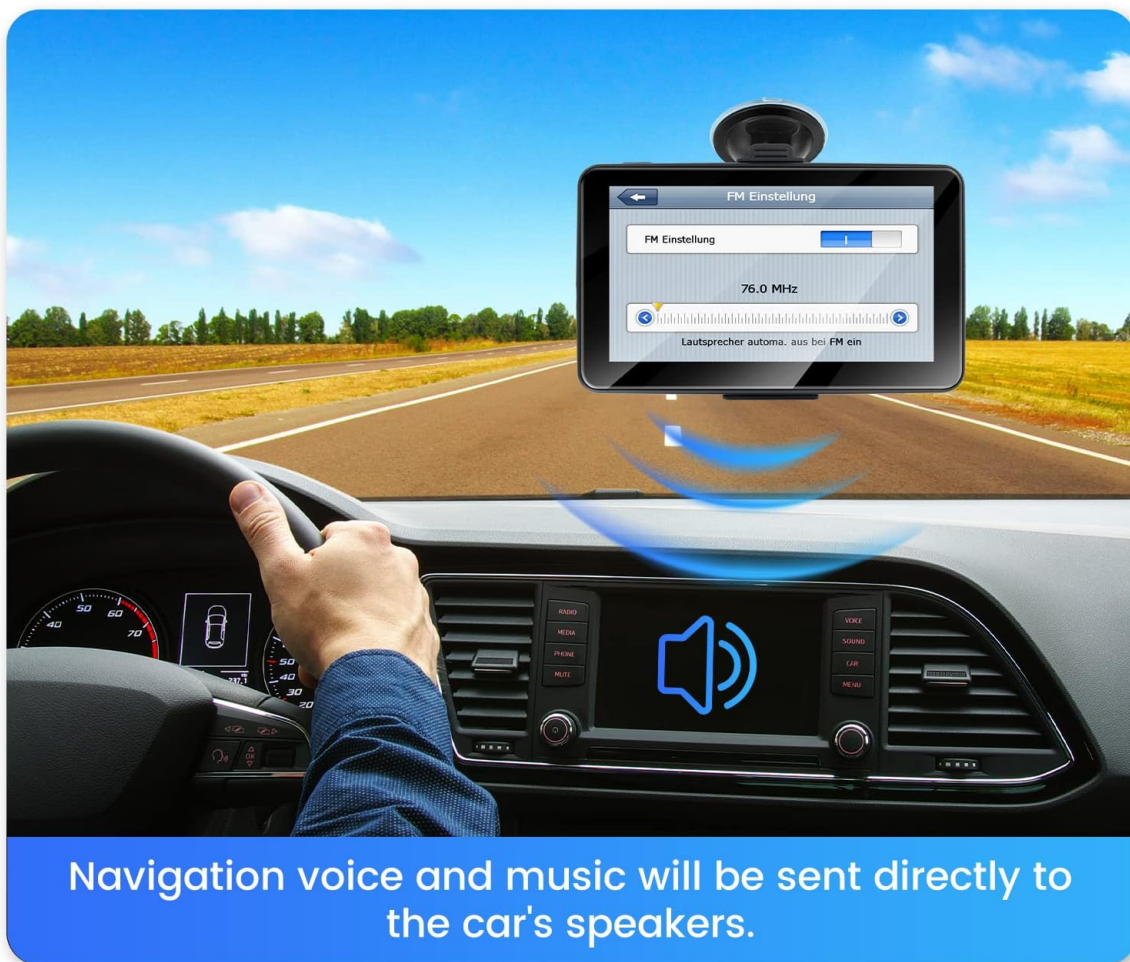

The GPS system supports free lifetime map updates via TF card or USB connection to a PC.

4. Voice Guidance and Alerts

The system provides clear voice guidance for turn-by-turn directions. It also includes light alerts and speed camera warnings to enhance driving awareness.

5. FM Transmit Function

The FM Transmit feature allows you to broadcast navigation voice and music from your GPS device to your car's speakers via an FM radio frequency. Access this feature in the device settings.

Use the FM Transmit function to send audio from the GPS to your vehicle's speakers.

6. Vehicle Model Options

Select the appropriate vehicle type (e.g., car, truck, bus, bicycle, pedestrian) in the settings to optimize navigation for your mode of transport.

7 Vehicle Model Options

The GPS system supports various navigation modes for different vehicle types.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and device exterior. Avoid abrasive cleaners or solvents.
- **Storage:** When not in use, store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Map Updates:** Regularly check for and install map updates to ensure the most accurate navigation data. Refer to the 'Operating Instructions' section for details.

TROUBLESHOOTING

No Satellite Signal

If the satellite signal cannot be acquired, it may be due to a weak signal area. Move the GPS Navigation system to an open area with a clear view of the sky and keep it stationary for

approximately 3 minutes to allow it to acquire a signal.

Incorrect Time Display

If the time displayed is incorrect, ensure that 'Daylight Savings' is correctly enabled or disabled in the 'Time Zone' settings. If issues persist, manually adjust the GMT offset or disable 'Use Auto Time Zone' and set the time manually.

Navigation Inaccuracies for Commercial Vehicles

Ensure that your vehicle's specific dimensions (weight, length, height, width) are accurately entered into the navigation system's 'User Profiles' or 'Vehicle Settings'. Incorrect settings can lead to inappropriate route suggestions.

SPECIFICATIONS

Feature	Specification
Item Weight	1.2 pounds
Package Dimensions	8.43 x 5.59 x 3.7 inches
Batteries	2 Lithium Ion batteries required (included)
Display Size	7 Inches
Battery Life	20 years (estimated)
Voice Command	Touchscreen interface
