Herture PG02YGW

Herture 40-50 Gallon Fish Tank Stand Instruction Manual

Model: PG02YGW

PRODUCT OVERVIEW

The Herture 40-50 Gallon Fish Tank Stand (Model PG02YGW) is a heavy-duty metal frame aquarium stand designed to provide stable support and convenient storage for your aquatic environment. It features a spacious tabletop suitable for 40-50 gallon fish tanks, with additional compartments for accessories and smaller tanks. Constructed from high-quality particleboard and metal, this stand offers durability and a modern aesthetic.

SETUP AND ASSEMBLY

This fish tank stand requires assembly. It is recommended to follow the included accessory kit and instructions carefully. Assembly typically takes approximately 1.5 hours. Ensure all components are present before beginning.

Components Checklist:

- Fish Tank Stand Panels (Particleboard)
- Metal Frame Components
- Accessory Kit (Screws, fasteners, tools if provided)
- Instruction Manual

Assembly Steps:

1. Unpack all components and verify against the parts list in the manual.
2. Assemble the main metal frame structure according to the diagrams.
3. Attach the particleboard panels for the tabletop, cabinet, and shelves.
4. Install the cabinet door and any internal adjustable shelves.
5. Attach the adjustable feet to the bottom of the stand.
6. Ensure all screws are tightened securely, but do not overtighten.
7. Place the stand on a level surface. Use the adjustable feet to fine-tune stability and levelness.

OPERATING INSTRUCTIONS

Once assembled and leveled, the Herture Fish Tank Stand is ready for use. It is designed to safely support fish tanks within its specified capacity.

Tank Placement:

- Place your 40-50 gallon fish tank centrally on the top surface of the stand. Ensure the tank's weight is evenly distributed.
- The bottom right compartment is suitable for holding 5-10 gallon small fish tanks, allowing for a multi-tank

setup.

- The stand's tabletop has a maximum static load capacity of 850 lbs (386 kg). The bottom shelf has a maximum static load capacity of 110 lbs (50 kg). Do not exceed these limits.

Storage Utilization:

- The cabinet on the left side provides enclosed storage for various aquarium supplies such as fish food, nets, disinfectants, and water conditioners.
- The internal shelf within the cabinet can be removed to accommodate larger items like canister filters or CO2 hoses.
- A round hole is present at the back of the stand to facilitate cable management for aquarium equipment. Ensure power cords are long enough to reach outlets from the hidden compartments.

MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your Herture Fish Tank Stand.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, which can damage the finish.
- **Spills:** Although the stand is designed to be water-resistant, promptly wipe up any water spills from the tank to prevent long-term damage to the particleboard.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight and secure, especially after moving the stand or placing a new tank.
- **Levelness:** Re-check the stand's levelness periodically, especially if the floor is uneven or if the stand has been moved. Adjust the feet as necessary.

TROUBLESHOOTING

If you encounter any issues with your Herture Fish Tank Stand, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Stand wobbles or is not level.	Uneven floor surface; feet not properly adjusted.	Adjust the individual leveling feet at the bottom of the stand until it is stable and level. Use a spirit level for accuracy.
Difficulty during assembly.	Incorrect screw type used; misaligned holes; components oriented incorrectly.	Refer to the instruction manual's diagrams. Ensure you are using the correct screws for each step. Do not force screws; if a screw strips, it may indicate misalignment or incorrect part.
Aquarium equipment cords are too short for hidden compartments.	Standard cord length may not reach outlets from inside the cabinet.	Plan for longer power cords or use an extension cord (ensure it is rated for aquarium use and properly secured) to reach the power source.

SPECIFICATIONS

Attribute	Detail
Model	PG02YGW
Color	White
Material	Particleboard, Metal
Product Dimensions (L x W x H)	40.55" x 18.89" x 31.49" (103 x 48 x 80 cm)
Product Weight	60 lb (27 kg)
Max. Static Load Capacity (Top)	850 lb (386 kg)
Max. Static Load Capacity (Bottom Shelf)	110 lb (50 kg)
Suitable Tank Size	40-50 Gallon (top), 5-10 Gallon (bottom compartment)
Assembly Required	Yes
