YABER V8

YABER V8 Projector User Manual

Model: V8

Brand: YABER

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your YABER V8 Projector. Please read this manual thoroughly before using the product to ensure proper operation and to extend its lifespan. The YABER V8 Projector offers advanced features including WiFi 6, Bluetooth 5.2, native 1080P resolution with 4K support, and a large projection screen capability.

2. WHAT'S IN THE BOX

Verify that all the following items are included in your package:

- YABER V8 Projector
- Carrying Bag
- Remote Control
- HDMI Cable
- AV Cable
- Power Cord
- Cleaning Kit
- User Manual (this document)

3. SETUP

3.1 Power Connection

1. Connect the power cord to the projector's power input port.

2. Plug the other end of the power cord into a standard electrical outlet.

3. Press the power button on the projector or remote control to turn on the device.

3.2 Initial Placement and Focus

1. Place the projector on a stable, flat surface, or mount it according to your preference. Ensure the projection path is clear.

2. Adjust the distance between the projector and the screen to achieve your desired screen size (up to 200 inches).

3. Rotate the focus ring on the projector lens until the projected image appears sharp and clear.

3.3 Connecting Devices

The YABER V8 Projector supports various connectivity options:

- **HDMI:** Connect gaming consoles (e.g., PS5), TV sticks, laptops, or other HDMI-enabled devices using the provided HDMI cable.
- **USB:** Insert USB drives for media playback.
- **AV:** Use the AV cable for older devices with composite video output.
- **WiFi 6:** For wireless screen mirroring from iOS/Android devices and faster streaming.
- **Bluetooth 5.2:** For connecting external audio devices like speakers or headphones.

4. OPERATING INSTRUCTIONS

4.1 Wireless Screen Mirroring (iOS & Android)

The YABER V8 supports wireless screen mirroring via WiFi 6 for both iOS and Android devices, ensuring a smooth and stable connection.

1. Ensure your projector and mobile device are connected to the same WiFi network (preferably a WiFi 6 router for optimal performance).

2. On the projector's main menu, select the "Screen Mirroring" option.

3. For iOS devices: Open Control Center, tap "Screen Mirroring" and select the projector from the list.

4. For Android devices: Go to your device's screen cast/wireless display settings (names may vary, e.g., Smart View, Cast, Wireless Display) and select the projector.

4.2 Keystone Correction (4D/4P)

The YABER V8 features innovative 4D/4P keystone correction to easily adjust distorted images, ensuring a perfectly rectangular projection even if the projector is not perfectly aligned with the screen.

1. Navigate to the "Keystone Correction" setting in the projector's menu.
2. Use the remote control to adjust the four corners (4P) or the horizontal/vertical angles (4D) of the image until it is perfectly rectangular.

Image: A person watching a movie projected onto a wall, demonstrating the four-point keystone correction feature. The image shows how the projector can adjust the corners of the projection to create a perfectly rectangular picture from various angles.

4.3 Zoom Function

Adjust the screen size without moving the projector using the 50% zoom function.

1. Access the "Zoom" setting in the projector's menu.
2. Use the navigation buttons on the remote to decrease the image size as needed.

Image: An illustration comparing the projection size of the YABER C450 Upgraded (200 inches) versus other projectors (100 inches) at the same throw distance, highlighting the YABER's superior throw ratio and larger screen capability.

4.4 App Control

Control your YABER V8 Projector using a dedicated app on your smartphone, which also functions as a remote and mouse.

1. Download the official YABER app from your device's app store.
2. Ensure your smartphone and projector are connected to the same WiFi network.
3. Open the app and follow the on-screen instructions to pair with your projector.

4.5 Bluetooth Audio Connection

Connect external Bluetooth speakers, headphones, or AirPods for an enhanced audio experience.

1. Turn on your Bluetooth audio device and set it to pairing mode.
2. On the projector, navigate to the "Bluetooth Settings" menu.
3. Select your device from the list of available devices to pair.

Image: A projector casting an image onto a screen, with a Bluetooth icon indicating its updated Bluetooth 5.2 capability for connecting to external audio devices, alongside its built-in 5W Hi-Fi speaker.

5. MAINTENANCE

5.1 Cleaning the Projector

- **Lens:** Use the provided cleaning cloth or a professional lens cleaning solution and cloth. Do not use abrasive cleaners.
- **Body:** Wipe the projector's exterior with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by a dry one.
- **Vents:** Regularly check and clean the air vents to ensure proper airflow and prevent overheating. Use a soft brush or compressed air.

5.2 Lamp Life

The YABER V8 Projector utilizes an LED light source with an extended lamp life of up to 160,000 hours. This significantly reduces the need for lamp replacement under normal usage conditions.

YABER BASIC Chip Upgraded Again

19000 Lumens brightness & 4K Support!
Use it in Dark room, Dusk outdoor,
Daylight room!

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No Power	Power cord not connected; Power outlet issue.	Ensure power cord is securely plugged in. Try a different outlet.
No Image	Input source not selected; Cable connection loose; Device not powered on.	Select correct input source (HDMI, USB, etc.). Check all cable connections. Ensure connected device is powered on.
Blurry Image	Focus not adjusted; Keystone not corrected.	Adjust the focus ring on the lens. Use 4D/4P keystone correction to square the image.
No Sound	Volume too low; Muted; External audio device not connected.	Increase volume. Check if muted. Ensure Bluetooth audio device is properly paired or internal speakers are selected.

Problem	Possible Cause	Solution
WiFi Connection Issues	Incorrect password; Router too far; Network interference.	Verify WiFi password. Move projector closer to router. Reduce interference from other devices.
