1. Setup Instructions

1.1 Download the App

To begin, download the dedicated application. The ANTELA Smart Plug is compatible with the**"Smart Life"** App or **"Tuya"** App. Search for either app in your smartphone's app store (Google Play Store for Android or Apple App Store for iOS) and install it.

1.2 Connect to Wi-Fi

1. Plug the ANTELA Smart Plug into a standard wall outlet.
2. Open the installed app and register or log in to your account.
3. Ensure your smartphone is connected to a**2.4 GHz Wi-Fi network**. *Note: 5 GHz Wi-Fi networks are not supported.*
4. In the app, tap the "+" icon (usually in the top right corner) to add a new device.
5. Select "Electrical Outlet" or "Smart Plug" from the device list.

6. Follow the on-screen instructions to connect the smart plug to your Wi-Fi network. This typically involves confirming the Wi-Fi network and entering the password.

1.3 Resetting the Smart Plug

If the smart plug fails to connect or you need to re-pair it, you can reset it:

- Press and hold the LED switch button on the smart plug for **5 to 10 seconds**.
- The LED light will begin to flash, indicating that the device is in pairing mode and ready for connection.

2. Operating Instructions

2.1 App Remote Control

Once successfully paired, you can control your smart plug from anywhere using the app. Turn connected devices on or off, check their status, and manage settings directly from your smartphone.

2.2 Voice Control

The ANTELA Smart Plug is compatible with Amazon Alexa and Google Home. Link your smart plug to your voice assistant for hands-free control.

1. Open the Alexa or Google Home app.
2. Navigate to the "Skills & Games" (Alexa) or "Works with Google" (Google Home) section.
3. Search for and enable the "Smart Life" or "Tuya" skill/service.
4. Link your app account with the voice assistant.
5. Discover devices. You can now use voice commands like:*"Alexa, turn on the lamp"* or *"Hey Google, turn off the coffee machine."*

2.3 Schedule and Timer Functions

Automate your devices by setting schedules and timers. This feature helps save energy and adds convenience to your daily life.

- In the app, select your smart plug.
- Tap on the "Schedule" or "Timer" option.
- Set specific times for your devices to turn on or off automatically. For example, schedule a lamp to turn on at 8:30 AM and off at 9:30 PM.

2.5 Family Sharing

Share control of your smart plug with family members through the app, allowing multiple users to manage connected devices.

- In the app, select the smart plug you wish to share.
- Look for the "Share Device" or "Family Management" option.
- Add family members by entering their account details.

Remote Control

You can control this smart plug anywhere or anytime

3. Maintenance

- Keep the smart plug clean and dry. Avoid exposure to water or excessive humidity.
- Do not attempt to disassemble or repair the device yourself. Contact customer support if issues arise.
- Ensure the plug is securely inserted into the outlet and that connected devices do not exceed the maximum load capacity (16A, 3680W).

4. Troubleshooting

4.1 Device Not Connecting to Wi-Fi

- **Check Wi-Fi Band:** Ensure your router is broadcasting a 2.4 GHz Wi-Fi signal and your phone is connected to it during setup. The smart plug does not support 5 GHz networks.
- **Wi-Fi Signal Strength:** Make sure the smart plug is within range of your Wi-Fi router.
- **Reset the Plug:** Press and hold the button on the smart plug for 5-10 seconds until the LED flashes rapidly, then try pairing again.
- **Router Settings:** Check your router's settings for any restrictions on new devices or MAC address filtering.

4.2 Voice Control Not Working

- **App Linkage:** Confirm that your Smart Life/Tuya account is correctly linked to your Alexa or Google Home app.
- **Device Discovery:** Ask your voice assistant to "discover devices" after linking the account.
- **Correct Commands:** Use the exact device names you set in the Smart Life/Tuya app when giving voice commands.

4.3 Schedule/Timer Not Activating

- **Check App Settings:** Verify that the schedule or timer is correctly set and enabled within the Smart Life/Tuya app.
- **Internet Connection:** Ensure the smart plug has a stable internet connection for schedules to synchronize.
