Kela 20673-CN

Kela TIO 20673-CN Stand Mirror LED Light

USER MANUAL

Introduction

Thank you for choosing the Kela TIO 20673-CN Stand Mirror LED Light. This manual provides essential information for the safe and efficient use of your new mirror. Please read these instructions carefully before assembly and operation, and retain them for future reference.

Product Overview

The Kela TIO 20673-CN is a stylish and functional stand mirror featuring integrated LED lighting. Designed for everyday use, it offers both standard (1x) and magnified (10x) views, making it ideal for various grooming and cosmetic applications. Its chrome-plated metal construction ensures durability and a sleek aesthetic.

Key Features:

- Integrated LED lighting for optimal illumination.
- Dual-sided mirror with 1x and 10x magnification.
- Durable chrome-plated metal construction.
- Tabletop mount design for versatile placement.

- Compact size: approximately 13 cm (diameter) x 33 cm (height).
 - Weight: 0.94 kg.
-

Package Contents

Please check the package for the following items:

- 1x Kela TIO 20673-CN Stand Mirror (Mirror head, stand, base)
 - 1x Assembly screw
 - *Note: 4x AAA batteries are required and not included.*
-

Setup and Assembly

The Kela TIO 20673-CN Stand Mirror requires minimal assembly. Follow these steps:

1. Carefully unpack all components from the packaging.
2. Place the mirror base on a stable, flat surface.
3. Insert the stand pole into the central hole of the base.
4. Secure the stand pole to the base using the provided screw, tightening it from the underside of the base.
5. Attach the mirror head to the top of the stand pole. Ensure it is securely seated.
6. Insert 4x AAA batteries (not included) into the battery compartment located on the back of the mirror head. Ensure correct polarity.

Operating Instructions

Using the LED Light:

The mirror features an integrated LED light for enhanced visibility. To operate the light:

- Locate the power switch on the side of the mirror head.
- Slide the switch to the "ON" position to activate the LED light.
- Slide the switch to the "OFF" position to turn off the LED light.

Figure 3: Detailed view of the power switch on the mirror's edge and the underside of the base.

Using Magnification:

The mirror head is dual-sided. One side provides a standard 1x reflection, while the other offers 10x magnification. To switch between magnifications, simply rotate the mirror head on its axis.

Maintenance

- **Cleaning:** Wipe the mirror surface with a soft, lint-free cloth. For stubborn spots, use a mild glass cleaner applied to the cloth, not directly to the mirror. Avoid abrasive cleaners.
- **Chrome Finish:** Clean the chrome-plated parts with a soft, damp cloth. Do not use harsh chemicals or abrasive materials, as they may damage the finish.
- **Battery Replacement:** When the LED light dims or stops working, replace all 4x AAA batteries. Ensure the mirror is

turned off before replacing batteries.

- **Storage:** Store the mirror in a dry place, away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
LED light does not turn on.	◦ Batteries are dead or incorrectly inserted. ◦ Power switch is in the "OFF" position.	◦ Replace with new AAA batteries, ensuring correct polarity. ◦ Slide the power switch to the "ON" position.
Mirror appears unstable.	◦ Assembly screw is loose. ◦ Mirror is on an uneven surface.	◦ Tighten the assembly screw at the base. ◦ Place the mirror on a flat, stable surface.
