

## AIRTOK KQ-31

# AIRTOK KQ-31 H13 HEPA Air Purifier User Manual

Model: KQ-31

## 1. INTRODUCTION

The AIRTOK KQ-31 Air Purifier is designed to improve indoor air quality by filtering out various airborne particles. It features a 360-degree air intake system, a multi-layer H13 HEPA filtration system, and an aromatherapy function. This manual provides essential information for the safe and effective use of your air purifier.

### Key Features:

- **360° Air Intake:** Circulates and purifies air in all directions, suitable for rooms up to 35m<sup>2</sup> (355 sq ft).

- **H13 HEPA 4-in-1 Filtration:** Effectively removes 99.97% of dust, pollen, smoke, and pet odors.
- **Quiet Operation:** Operates at a low noise level of 25 dB in Sleep mode.
- **Energy Efficient:** Consumes 5W in 'Cozy' fan speed mode.
- **Aromatherapy Function:** Includes a sponge for adding essential oils (not included).
- **Three Fan Speeds:** Sleep, Cozy, and Turbo modes.

## 2. PACKAGE CONTENTS

Please check the package for the following items:

- AIRTOK KQ-31 Air Purifier Unit
- H13 HEPA Filter (pre-installed or separately packaged)
- Power Adapter
- Aromatherapy Pads (quantity may vary)
- User Manual

## 3. SETUP

1. **Unpack the Unit:** Carefully remove the air purifier and all accessories from the packaging.
2. **Install/Check Filter:** The power adapter is located inside the air purifier, within the filter. To access it, turn the unit upside down. Rotate the bottom cover counter-clockwise to unlock and remove it. Take out the filter and remove the power adapter. Ensure the filter is unwrapped (if applicable) and correctly placed back into the unit. Replace the bottom cover and rotate clockwise to lock it.
3. **Placement:** Place the air purifier on a flat, stable surface. Ensure there is at least 15 cm (6 inches) of space around all sides for optimal air circulation.
4. **Connect Power:** Plug the power adapter into the air purifier and then into a suitable electrical outlet.

# 4 Layers of Filtration

H13 True HEPA filtration filters removal 99.97% of airborne particles 0.1 microns.

## Effective Activated Carbon Layer

Smoke, odors, fumes, VOCs

## H13 True HEPA Layer

Fine dust, smoke particles, mold spores, pollen, dander, dust mites

## Blue Nano Nylon

Sliver coating deeply purify the air

## Ultra-fine Pre-filter

Dust, lint, fibers, hair, pet fur

## 4. OPERATING INSTRUCTIONS

### Power On/Off:

- To turn the unit **ON** or **OFF**, long press the power touch area on the top panel.

### Fan Speed Selection:

- Once powered on, click the power touch area to cycle through the three fan speeds: **Sleep**, **Cozy**, and **Turbo**.
- The indicator lights (Sleep, Cozy, Turbo) will illuminate to show the currently selected speed.
- **Sleep Mode:** Operates at 25 dB for quiet purification during rest.

# Instructions

Simple design, multifunctional use of touch zone

Image: Visual guide to the touch controls: long press for power, click for fan speed, and flashing lights indicating filter replacement.

## Aromatherapy Function:

- Locate the aromatherapy sponge compartment on the top of the unit.
- Add a few drops of your preferred essential oil (not included) onto the aromatherapy sponge.
- The air purifier's airflow will diffuse the fragrance throughout the room.

# Add Fragrance Design

Clean air and fresh fragrance throughout the room

Add your favorite essential oils to help you relax while cleaning the air.

**12PCS** aroma pad included in the package.

Image: Instructions for using the aromatherapy feature by adding essential oils to the designated sponge area.

## 5. MAINTENANCE

### Filter Replacement:

The air purifier's performance depends on the condition of its filter. It is recommended to replace the filter every 3 to 4 months, or when the three indicator lights on the control panel flash simultaneously.

1. Turn off and unplug the air purifier.
2. Turn the unit upside down and rotate the bottom cover counter-clockwise to unlock and remove it.
3. Carefully remove the old filter.
4. Insert a new AIRTOK KQ-31 replacement filter (ASIN: B0C3CNSRPS) into the unit. Ensure it is seated correctly.
5. Replace the bottom cover and rotate clockwise to lock it.
6. Plug in and power on the unit. Reset the filter indicator by long-pressing the power button for 5 seconds until the lights stop flashing.

# Replacement Filter for KQ-31

**Reminder:** This product KQ-31 exclusive replacement filter **Asin: B0C3CNSRPS**, can be purchased as needed.

## Cleaning:

- Always unplug the air purifier before cleaning.
- Wipe the exterior of the unit with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- The pre-filter layer of the HEPA filter can be gently vacuumed to remove larger dust particles, but the entire filter should not be washed with water.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on	Not plugged in; Power adapter not connected; No power from outlet.	Ensure the power adapter is securely connected to the unit and the wall outlet. Check if the outlet is functional. Verify the adapter was removed from inside the filter during initial setup.

Problem	Possible Cause	Solution
Indicator lights are flashing	Filter needs replacement.	Replace the H13 HEPA filter (ASIN: B0C3CNSRPS) and reset the filter indicator by long-pressing the power button for 5 seconds.
Unusual or loud noise during operation	Filter not installed correctly; Obstruction in fan; Unit on uneven surface.	Check if the filter is properly seated and the bottom cover is securely locked. Ensure no foreign objects are obstructing the air intake or fan. Place the unit on a stable, flat surface.
Reduced airflow or purification effectiveness	Clogged filter; Unit placed too close to walls/objects.	Replace the filter if it's old or visibly dirty. Ensure adequate space around the unit for proper air intake and output.
