INTRODUCTION

This manual provides instructions for the safe and effective use of your CARGADOR ESP 8V power supply charger. This charger is specifically designed as a replacement for the Pro-Form Power Sensitive 7.0 Exercise Bike, model PFIVEX87214.0. Please read this manual thoroughly before use and retain it for future reference.

PRODUCT OVERVIEW

Image 1: The CARGADOR ESP 8V power supply charger. This image displays the charger unit with its attached cable and a standard European plug. The charger is black and compact, designed for compatibility with specific exercise bike models.

SETUP

1. **Verify Compatibility:** Before connecting, ensure your device model precisely matches the advertised compatibility: *Pro-Form Power Sensitive 7.0 Exercise Bike, model PFIVEX87214.0*. Using this charger with an incompatible device may cause damage.
2. **Unpack the Charger:** Carefully remove the charger from its packaging. Inspect the charger and cable for any visible damage. Do not use if damaged.
3. **Connect to Device:** Locate the power input port on your Pro-Form Power Sensitive 7.0 Exercise Bike. Insert the charger's output connector firmly into this port.
4. **Connect to Power Outlet:** Plug the charger's Dutch/European plug into a standard, functional wall power outlet (220-240V AC).
5. **Power On:** Once connected, your exercise bike should receive power. Refer to your exercise bike's manual for specific power-on procedures.

OPERATION

The CARGADOR ESP 8V power supply charger is designed for continuous power delivery to your compatible exercise bike. It does not feature a charging indicator as it provides constant power rather than charging an internal battery.

- Ensure all connections are secure before operating your exercise bike.
- Disconnect the charger from the wall outlet when not in use for extended periods.
- Do not cover the charger during operation to allow for proper ventilation.

MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your charger.

- **Cleaning:** Disconnect the charger from the power outlet and the device before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or abrasive materials.
- **Cable Care:** Avoid bending, twisting, or crimping the power cable excessively. Do not place heavy objects on the cable. Store the cable loosely coiled to prevent damage.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and moisture when not in use.
- **Inspection:** Periodically inspect the charger and cable for any signs of wear, cuts, or damage. If damage is observed, discontinue use immediately and replace the charger.

TROUBLESHOOTING

If you encounter issues with your charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not receiving power.	Charger not properly plugged into wall outlet.	Ensure the charger is securely plugged into a functional wall outlet. Test the outlet with another device.
Device not receiving power.	Charger output connector not fully inserted into the device.	Verify the charger's connector is firmly seated in the exercise bike's power port.
Device not receiving power.	Incompatible device model.	Confirm your exercise bike is the Pro-Form Power Sensitive 7.0, model PFIVEX87214.0. This charger is not compatible with other models.
Charger or cable is damaged.	Physical damage to the charger unit or cable.	Discontinue use immediately. Do not attempt to repair. Replace the charger.

If the problem persists after attempting these solutions, please contact CARGADOR ESP customer support for further assistance.
