- Be cautious of sharp edges and nailhead details during handling and assembly.
- Do not exceed the maximum weight capacity of 1000 pounds.
- Ensure all parts are intact and accounted for before assembly.
- Do not use power tools for assembly unless specifically instructed, as this may overtighten or damage components.

- Footboard (1)

- Wooden Slats (Multiple, quantity varies by size)

SETUP AND ASSEMBLY

Assembly typically requires two people and can be completed within 30 minutes. Follow these steps carefully:

2. **Attach Side Rails to Headboard:** Connect the side rails to the headboard using the provided bolts and an Allen wrench. Do not fully tighten bolts until all connections are made.
3. **Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard. Ensure all connections are secure and then fully tighten all bolts.
4. **Install Center Support Legs:** Attach the center support legs to the central support beam. These legs provide additional stability and weight distribution.
5. **Place Wooden Slats:** Lay the wooden slats across the bed frame. The slats are designed with Velcro fastening to keep them securely in place and eliminate noise. Ensure each slat is properly seated.
