WeatherTech 401668

WeatherTech Cargo Trunk Liner

Model: 401668 - For Cadillac Lyriq

Official Instruction Manual

Introduction

The WeatherTech Cargo Trunk Liner is a custom-fit protective mat designed to safeguard the cargo area of your vehicle. Engineered with advanced materials, this liner provides superior protection against spills, dirt, and wear, ensuring your vehicle's interior remains pristine.

This liner is specifically designed for select 2023-2024 Cadillac Lyriq models, fitting behind the 2nd row seating. Its black finish seamlessly integrates with your vehicle's interior.

Setup and Installation

Installation of your WeatherTech Cargo Trunk Liner is straightforward and requires no special tools. Ensure your vehicle's cargo area is clean and free of debris before placement.

1. **Unpack the Liner:** Carefully remove the cargo liner from its packaging. Due to shipping, the liner may be rolled or folded. Allow it to lay flat in a warm environment for a few hours to regain its original shape if necessary.
2. **Clean Cargo Area:** Thoroughly clean the existing cargo area of your Cadillac Lyriq. Remove any dirt, dust, or spills to ensure a proper fit and prevent debris from being trapped underneath.
3. **Position the Liner:** Place the WeatherTech Cargo Trunk Liner into the cargo area of your vehicle, behind the 2nd row seating. Align the liner with the contours of the trunk.
4. **Ensure Proper Fit:** Gently press down on the liner, working from the center outwards, to ensure it settles perfectly into place and conforms to the vehicle's floor. Verify that all edges are flush and the liner does not obstruct any vehicle functions or access points.

Operating and Usage Guidelines

The WeatherTech Cargo Trunk Liner is designed for everyday use and offers robust protection for your vehicle's cargo space. Its textured finish helps to prevent items from shifting during transit.

- **Cargo Protection:** Use the liner to protect your trunk from spills, dirt, mud, snow, and other debris when transporting items such as gardening supplies, sports equipment, groceries, or pet carriers.
- **Temperature Resilience:** The proprietary custom blended TPE material is designed to remain flexible under extreme temperature variations, ensuring consistent performance in various climates.
- **Secure Transport:** The textured surface provides increased friction, helping to keep cargo in place and reduce movement during driving.

Maintenance and Care

Maintaining your WeatherTech Cargo Trunk Liner is simple, ensuring its longevity and continued effectiveness. Regular cleaning will keep it looking new.

- **Routine Cleaning:** For light dirt and dust, simply wipe the liner with a damp cloth or sponge.
- **Deep Cleaning:** For heavier dirt, mud, or spills, remove the liner from the vehicle. Clean it with mild soap and water, or use a dedicated automotive interior cleaner. A soft brush can be used for stubborn grime.
- **Rinsing:** Rinse the liner thoroughly with water to remove all soap residue.
- **Drying:** Allow the liner to air dry completely before placing it back into your vehicle. Do not use harsh chemicals or abrasive cleaners, as these can damage the material.

Troubleshooting

Most issues with the WeatherTech Cargo Trunk Liner are minor and easily resolved. Refer to the following common scenarios:

Problem	Possible Cause	Solution
Liner does not lay flat.	May be due to packaging during shipping.	Allow the liner to sit in a warm environment (e.g., direct sunlight) for several hours to relax the material. Placing heavy, flat objects on affected areas can also help.
Liner shifts during driving.	Improper installation or debris underneath.	Remove the liner, clean the vehicle's cargo area thoroughly, and re-install, ensuring a snug fit. The textured surface is designed to minimize shifting.
Stains or persistent odors.	Accumulated spills or organic matter.	Perform a deep clean using mild soap and water. For odors, a baking soda paste can be applied, left for a few hours, then rinsed off. Ensure thorough drying.

Product Specifications

Brand: WeatherTech

Model Number: 401668

Manufacturer Part Number: 401668

Compatible Vehicle: Cadillac Lyriq (2023-2024 models)

Coverage Area: Behind 2nd Row Seating

Color: Black

Material: Proprietary Custom Blended TPE (Thermoplastic Elastomer)

Features: Wear-resistant, flexible under temperature extremes, textured finish to prevent shifting, raised lip to contain spills.

Country of Origin: USA

UPC: 787765797818

ASIN: B0C3DL3D9K

Warranty Information

WeatherTech products are backed by a limited lifetime warranty against defects in materials and workmanship. This warranty covers normal wear and tear and is valid for the original purchaser.

For specific details regarding warranty claims, exclusions, or to register your product, please refer to the official WeatherTech website or contact their customer service directly. Keep your proof of purchase for warranty validation.

Note: Warranty terms are subject to change by the manufacturer. Always refer to the most current warranty information provided by WeatherTech.

Customer Support

Should you have any questions, require assistance with installation, or need to report an issue with your WeatherTech Cargo Trunk Liner, please contact WeatherTech customer support.

WeatherTech Official Website: www.weathertech.com

Customer Service Phone: Refer to the official website for the most current contact numbers.

When contacting support, please have your product model number (401668) and purchase details readily available to expedite assistance.
