Hasbro Gaming G0126

Hasbro Gaming Atomix Brainteaser Puzzle Sphere Instruction Manual

Model: G0126

PRODUCT OVERVIEW

The Hasbro Gaming Atomix is an engaging 3D puzzle designed for individuals aged 7 and up. Its unique spherical design features colorful beads that can be manipulated by twisting and turning sections of the orb. The primary objective is to align all same-colored beads into their respective concentric circles, forming four distinct color rings.

Key Features:

- **Spherical Brainteaser Game:** An addictive 3D puzzle where you twist, turn, and slide beads to solve.
- **Twist, Match, Solve:** Players manipulate the sphere to shift colorful beads between three different paths, aiming to line up all same-colored beads in their own circles.
- **Solo Play or Challenge:** Suitable for single-player engagement or competitive play with friends and family.
- **Fidget Toy Functionality:** Features smooth, sliding beads and a textured orb, providing a soothing tactile experience.
- **Eye-Popping Design:** Modern color palette with vivid pearlescent beads against a black textured sphere.
- **Portable Travel Game:** Approximately the size of an orange, making it ideal for travel.

SETUP

The Atomix Brainteaser Puzzle Sphere comes pre-assembled and ready for immediate use. No batteries or additional components are required.

1. Remove the Atomix sphere from its packaging.
2. To begin play, gently scramble the colored beads by twisting the sections of the sphere. Ensure the beads are thoroughly mixed across the different paths.

OPERATING INSTRUCTIONS (HOW TO PLAY)

The goal of the Atomix game is to align all the beads of the same color into their designated concentric circles. The sphere features multiple paths and twisting mechanisms to achieve this.

Basic Mechanics:

- The Atomix sphere is composed of several segments that can be twisted relative to each other.
- Beads can be moved along three different types of paths:

- **Four Rings:** Beads are arranged in distinct circular paths.
 - **Continuous Spiral:** Beads follow a continuous spiraling path around the sphere.
 - **Separate Tracks:** Beads move along individual, distinct tracks.
- To move beads, twist the sections of the sphere to create open pathways, then slide the beads along these paths.

Objective:

Your objective is to sort all the beads so that each of the four concentric circles contains beads of a single, matching color. This requires strategic twisting and sliding of the beads.

The Atomix puzzle sphere requires minimal maintenance to ensure its longevity and smooth operation.

- **Cleaning:** To clean the sphere, wipe it gently with a soft, dry cloth. Avoid using abrasive cleaners or solvents, as these may damage the surface or the beads.
- **Storage:** Store the Atomix in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation.

TROUBLESHOOTING

If you encounter any difficulties while operating your Atomix puzzle sphere, consider the following common issues and solutions:

Problem	Possible Cause	Solution
Sphere sections are difficult to twist.	Beads may be misaligned or obstructing the twisting mechanism.	Ensure all beads are fully seated within their tracks before attempting to twist a section. Gently adjust the beads to clear the path.
Beads do not slide smoothly.	Dust or debris may be present in the tracks, or beads are not properly aligned.	Wipe the sphere clean with a soft, dry cloth. Verify that the twisting sections are correctly aligned to allow beads to pass freely.
Difficulty solving the puzzle.	The puzzle requires strategic thinking and patience.	Review the "Operating Instructions" section and the provided video for tips on manipulating the beads. Practice different twisting and sliding techniques. The puzzle is designed to be challenging.
