Lisowod An1 Outdoor Projector

Lisowod An1 Outdoor Projector User Manual

MODEL: AN1 OUTDOOR PROJECTOR

Brand: Lisowod

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Lisowod An1 Outdoor Projector. Designed for both indoor and outdoor use, this portable projector features a unique two-way charging detachable battery, electric focus, dual-band WiFi, and Bluetooth connectivity, delivering a native 1080P Full HD experience with support for 4K content.

Please read this manual thoroughly before using the product to ensure proper operation and to maximize its lifespan.

WHAT'S IN THE BOX

Verify that all components are present in the packaging:

- Mini outdoor & home use projector machine
- External rechargeable battery base
- Remote control
- HDMI Cable
- DC power cord
- User Manual
- Extra battery base (available via after-sale service)

SETUP GUIDE

1. Powering On and Charging

The An1 projector features a high-capacity removable battery that supports two-way charging. For initial use, it is recommended to fully charge the battery.

1. Connect the DC power cord to the projector and a power outlet.
2. The battery can be charged while attached to the projector or separately.
3. For optimal battery life, use the included DC power supply or a Type-C power supply with 20V or above.

OPERATING INSTRUCTIONS

1. Electric Focus Adjustment

The An1 features motorized electric focus for quick and precise image clarity. Use the remote control to adjust the focus.

- Press and hold the "F+" or "F-" buttons on the remote control.
- Adjust until the projected image is clear and sharp.

Advanced Electric Focus

More stable & convenient & easier

Image: The Lisowod An1 Projector demonstrating its advanced electric focus feature, which allows for easy and stable clarity adjustment via remote control, unlike manual focus systems.

2. Connectivity Options

The projector offers versatile connectivity for various devices.

Wireless Connection (WiFi & Bluetooth)

- **WiFi:** Supports 2.4G and 5G dual-band WiFi for stable and fast wireless screen mirroring from iOS/Android smartphones/tablets/Windows 10 systems.
- **Bluetooth:** Equipped with bi-directional Bluetooth 5.2. Connect Bluetooth headphones, speakers, or AirPods for audio output. The projector can also function as a standalone Bluetooth speaker.

Latest Bidirectional Bluetooth Connection

Not just a projector, also your powerful speaker

Multiple Devices Compatible

USB 1 / USB 2				
Headphone Jack				
Type-C Input Port				

Image: The Lisowod An1 Projector showcasing its latest bidirectional Bluetooth connection, allowing it to function as a powerful speaker, and its compatibility with multiple devices including iPads, iPhones, PCs, TV sticks, PS5, and external speakers.

Wired Connection

The projector includes 2 USB ports, 1 HDMI port, and 1 Audio 3.5mm port.

- **HDMI:** Connect TV Sticks (Fire TV Stick, Roku Stick), laptops, PCs, DVD players, PS4, PS5, TV Boxes, X-Box, etc.
- **USB:** Play content directly from a USB stick.
- **Audio 3.5mm:** Connect external wired audio devices.

Note: Due to HDCP copyright limitations, direct streaming of Netflix or Amazon Prime from a smartphone is not supported. Use a Fire TV Stick, laptop, or PC. The projector does not support Dolby audio; please disable Dolby or change the sound mode to stereo on your connected device.

3. Brightness and Zoom Adjustment

- **Brightness:** The projector features 10-level brightness adjustment modes. Adjust according to your viewing environment for optimal clarity and energy efficiency.

- **Zoom:** Utilize the 75%-100% zoom function to adjust the image size without physically moving the projector or compromising image quality.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector.

1. Cleaning

- The An1 features a sealed optical engine dustproof design, which effectively isolates 98% of dust.
- Regularly wipe the exterior of the projector with a soft, dry cloth.
- For the lens, use a specialized lens cleaning cloth and solution to avoid scratches.

Eye's Protection & 75%-100%Zoom Function

Not limited by space

Image: The Lisowod An1 Projector highlighting its dust-proof lens and smart touch design, which contribute to its durability and resistance against black spots caused by dust accumulation.

GIF: An illustration of the Lisowod An1 Projector's internal components, including the sealed optical engine, high transmittance lens, closed cover design, turbo cooling fan, and audio decoding technology, all designed for enhanced performance and longevity.

2. Battery Care

- To prolong battery life, fully charge the battery before initial use.
- Avoid completely draining the battery frequently.
- Store the projector in a cool, dry place when not in use for extended periods.

3. Lamp Life

The projector lamp has a lifespan of up to 150,000 hours, significantly extended by the dustproof design.

TROUBLESHOOTING

If you encounter issues with your Lisowod An1 projector, refer to the following common solutions:

- **No Picture:**
 - Ensure the power cord is securely connected and the projector is turned on.
 - Check the input source (HDMI, USB, WiFi) and ensure it is correctly selected.
 - Verify that the connected device (laptop, TV stick) is powered on and outputting a signal.
 - Adjust the electric focus to ensure the image is not simply out of focus.
- **No Sound:**
 - Check the projector's volume level and ensure it is not muted.
 - If using an external audio device, ensure it is properly connected and powered on.
 - If connected via HDMI, ensure the audio output settings on your source device are correct.
 - Remember the projector does not support Dolby audio; disable it on your source device if experiencing no sound.
- **Connectivity Issues (WiFi/Bluetooth):**
 - Ensure the projector and your device are within range.
 - Restart both the projector and the connecting device.
 - For WiFi, ensure the correct network and password are entered. Try switching between 2.4G and 5G bands.
 - For Bluetooth, ensure the device is in pairing mode and no other devices are interfering.
- **Image Quality Issues (Blurry, Distorted, Dim):**
 - Adjust the electric focus.
 - Check the projection distance and angle. Ensure the projector is perpendicular to the screen.
 - Adjust the brightness settings.
 - Ensure the lens is clean.

For further assistance, please refer to the Warranty and Support section.

WARRANTY AND SUPPORT

Lisowod is committed to providing high-quality products and excellent customer service.

Warranty Information

- The Lisowod An1 battery-powered projector comes with a**36-month maintenance period**.
- Lisowod offers a **3-year warranty** for the An1 projectors.
- An additional battery replacement service is available through after-sales channels.

Image: Lisowod Warranty details, including 36-month warranty, 24-hour professional customer support, and free replacement services.

Customer Support

For any product problems, technical support, or to inquire about free replacement parts (like battery, projector screen, storage bag), please contact our support team:

- **Email:** Support_us@Lisowod.com
- **Service:** 24-hour standby after-sales and technical support service.
- Please provide your order number when contacting for technical support.

ADDITIONAL INFORMATION

Diffuse Imaging Technology

The An1 projector utilizes professional diffuse reflection technology. This technology evenly distributes light across the

projection screen, resulting in a softer image with more natural colors. This helps protect your eyes from harmful blue light and provides a more comfortable viewing experience, especially during extended use.
