XZL Y22

XZL Karaoke Machine User Manual

Model: Y22

Product Overview

The XZL Karaoke Machine (Model Y22) is a versatile and portable audio system designed for entertainment, recording, and streaming. It features a wireless karaoke microphone that integrates with a Bluetooth base speaker, offering a cinema-like surround sound experience. The system supports duet mode and includes a built-in sound card for enhanced audio quality and various sound effects.

Safety Information

Please read all safety instructions carefully before using the device. Keep this manual for future reference.

- Do not expose the device to water or excessive moisture.
- Avoid extreme temperatures and direct sunlight.

- Do not attempt to disassemble or repair the device yourself. Refer all servicing to qualified personnel.
- Use only the provided charging cable and power adapter.
- Keep out of reach of children.
- Ensure proper ventilation when in use.

What's in the Box

Verify that all components are present upon unboxing:

- Wireless Karaoke Microphone Unit
- Bluetooth Base Speaker Unit
- UHF Receiver (for microphone to base communication)
- USB-C Charging Cable
- User Manual (this document)

Parts Identification

Product Details

Image: Detailed diagram showing the microphone operation panel, microphone interfaces (TF Card Slot, 3.5mm Jack, USB-C Charging/Recording/Streaming Port), base buttons, USB-C charging port, microphone charging slot, UHF receiver, and DC 5V input.

Microphone Unit:

- **Microphone Operation Panel:** Controls for functions, scenes, volume, reverb, and sound effects.
- **TF Card Slot:** For playing music from a memory card.
- **3.5mm Jack:** Audio output for headphones or external speakers.

- **USB-C Charging/Recording/Streaming Port:** For charging the microphone, connecting to a computer for recording, or live streaming.

Base Speaker Unit:

- **Base Buttons:** Controls for power, Bluetooth pairing, and ambient light.
- **USB-C Charging Port:** For charging the base speaker.
- **Microphone Charging Slot:** Docking area for charging the microphone unit.

UHF Receiver:

- Connects the microphone wirelessly to other audio equipment.
- **DC 5V Port:** Power input for the UHF receiver.

Setup Guide

1. Charging the Device

Before first use, fully charge both the microphone and the base speaker.

1. Connect the USB-C charging cable to the USB-C port on the microphone unit and a 5V USB power adapter (not included).
2. Connect the USB-C charging cable to the USB-C port on the base speaker unit and a 5V USB power adapter.
3. Alternatively, dock the microphone into the charging slot on the base speaker to charge both simultaneously (ensure the base speaker is powered and connected to power).
4. Charging indicators will show charging status (refer to device for specific light patterns).

2. Powering On/Off

1. **Microphone:** Press and hold the power button on the microphone operation panel for 3 seconds to turn on or off.
2. **Base Speaker:** Press and hold the power button on the base speaker for 3 seconds to turn on or off.

3. Wireless Pairing (Microphone to Base Speaker)

The microphone and base speaker are typically pre-paired. If they do not connect automatically:

1. Ensure both units are powered on and within close proximity.
2. The microphone will automatically attempt to connect to the base speaker via UHF. A successful connection will be indicated by a specific light or sound cue (refer to device for details).

Image: Illustration demonstrating the long-distance wireless pairing capability between the microphone and the base speaker, providing extended sound coverage.

4. Bluetooth Pairing (Base Speaker to External Device)

To play music from your smartphone, tablet, or laptop:

1. Turn on the base speaker. It will automatically enter Bluetooth pairing mode (indicated by a flashing blue light).
2. On your external device, go to Bluetooth settings and search for "XZL Y22" or similar.

3. Select the device to pair. Once connected, the blue light on the base speaker will become solid.
4. You can now play music through the base speaker.

Operating Instructions

Basic Karaoke Function

1. Ensure the microphone and base speaker are powered on and paired.
2. Connect the base speaker to your music source via Bluetooth.
3. Play your desired karaoke track.
4. Sing into the microphone. Adjust microphone volume and music volume using the controls on the microphone panel.

Image: Depicts five usage scenarios: Karaoke Microphone, Wireless Microphone, Streaming/Recording, Bluetooth Speaker, and a family using the microphone and base together.

Duet Mode

The XZL Karaoke Machine supports duet mode, allowing two microphones to be used simultaneously for singing together. (Note: This feature requires a second compatible XZL microphone, sold separately).

1. Power on both XZL microphones.

2. Ensure both microphones are paired to the same base speaker (or two base speakers paired via TWS if supported).
3. Follow the specific instructions for TWS (True Wireless Stereo) pairing if using two base speakers (refer to the device's quick start guide for TWS pairing steps).

Image: Two individuals singing into separate XZL microphones, demonstrating the Duet Mode feature with changeable ambient lighting on the base speakers.

Adjusting Sound Effects and Scenes

The microphone panel offers various controls to customize your sound:

- **Adjustable Reverb:** Use the "Reverb" control on the microphone panel to add echo or spaciousness to your voice.
- **Sound Scenes:** Cycle through "Host", "Professional", "Master", and "KTV" modes using the "Scenes" button to optimize sound for different environments or vocal styles.
- **Sound Effects:** Activate fun sound effects like "Laughing", "Cheering", and "Embarrassing" using dedicated buttons.
- **Magic Voices:** Transform your voice into "Female", "Male", or "Child" voices for entertainment.

Image: A woman singing into the XZL microphone, with text overlays indicating features like Adjustable Reverb, 4 Sound Scenes (Host, Professional, Master, KTV), 3 Sound Effects (Laughing, Cheering, Embarrassing), and 3 Magic Voices (Female, Male, Child).

Recording and Streaming

The microphone's built-in sound card allows for direct recording and live streaming:

1. Connect the microphone's USB-C port to your computer or smartphone.
2. *Note: For iOS/Android devices, a Lightning/USB-C to 3.5mm adapter may be required (sold separately).*
3. Use your preferred recording or streaming software/app. The microphone will be recognized as an audio input device.
4. You can also insert a TF card into the microphone's TF card slot for direct recording onto the card.

Separate or Combined Use

The XZL Karaoke Machine offers flexible usage options:

- **Microphone + Base:** Use both units together for a full karaoke experience with amplified sound.
- **Microphone Only:** The microphone can be used independently as a wireless microphone for other PA systems or recording setups (via UHF receiver).
- **Base Only (Bluetooth Speaker):** The base unit functions as a standalone Bluetooth speaker for playing music from your devices.

Image: Illustrates the flexibility of using the microphone and base speaker together, the microphone alone, or the base speaker alone as a Bluetooth speaker.

Ambient Light Control

The base speaker features changeable ambient lighting. Press the dedicated light button on the base to cycle through different light modes or turn them off.

Maintenance

Cleaning

- Wipe the device with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.
- Ensure the device is powered off and unplugged before cleaning.

Storage

- Store the device in a cool, dry place away from direct sunlight.
- If storing for an extended period, charge the battery to about 50% every few months to prolong battery life.

Battery Care

- Avoid fully discharging the battery frequently.
- Do not expose the battery to high temperatures.
- If the battery performance significantly degrades, contact customer support for assistance.

Troubleshooting

Problem	Possible Cause	Solution
No sound from microphone	Microphone not powered on; Microphone not paired with base; Microphone volume too low; Battery low.	Ensure microphone is on; Re-pair microphone with base; Increase microphone volume; Charge microphone battery.
No sound from base speaker	Base speaker not powered on; Base speaker not paired via Bluetooth; Music volume too low; Battery low.	Ensure base speaker is on; Re-pair Bluetooth; Increase music volume on device and base; Charge base speaker battery.
Cannot pair Bluetooth	Base speaker not in pairing mode; Device too far; Interference; Already connected to another device.	Ensure base speaker is flashing blue; Move device closer; Turn off other Bluetooth devices; Disconnect from other devices.
Poor sound quality / Distortion	Volume too high; Microphone too close to speaker; Low battery; Environmental interference.	Reduce volume; Maintain distance between mic and speaker; Charge batteries; Move away from sources of interference.

Specifications

Feature	Detail
