# HOLEWOR Biometric Pistol Safe User Manual

Model: 4d92d714-cbaf-455d-b424-f5dbc9ecabab

## 1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your HOLEWOR Biometric Pistol Safe. Please read this manual thoroughly before operating the safe and retain it for future reference. This safe is designed to provide secure storage for firearms and valuables, featuring quick biometric access and robust construction.

## 2. IMPORTANT SAFETY INFORMATION

**WARNING: Firearm owners are responsible for storing firearms safely and securely to prevent unauthorized access, especially by children. Failure to do so can result in serious injury or death.**

- Always store firearms unloaded and separate from ammunition.
- Keep the safe locked at all times when not in use.
- Do not store the safe keys inside the safe. Keep them in a secure, separate location.
- Ensure children cannot access the safe or its contents.
- Familiarize yourself with all local and federal laws regarding firearm storage.

This image illustrates the importance of securing firearms away from children. The HOLEWOR safe is shown stored discreetly in a drawer, preventing unauthorized access.

### 3. PACKAGE CONTENTS

---

Verify that all items listed below are included in your package:

- HOLEWOR Biometric Pistol Safe
- 2 x Backup Keys
- 1 x Steel Security Cable (40.16 inches)
- 4 x AAA Batteries
- 1 x Screwdriver Tool
- 1 x Gun Clean Cloth
- User Manual (this document)

### 4. PRODUCT FEATURES

---

- **Compact & Portable Design:** Measuring 11.4"D x 7.1"W x 2.5"H and weighing 4.65 lbs, this safe is designed for easy transport and discreet placement. It can hold one handgun and clips.
- **Biometric Quick Access:** Features a fingerprint sensor for access within 1 second. Stores up to 100 unique fingerprints.
- **Multiple Access Methods:** In addition to biometric access, the safe includes two backup keys for manual entry.
- **Robust Security:** Constructed from alloy steel with an anti-theft alarm feature. Includes a 40.16-inch steel security cable for anchoring.
- **Internal LED Light:** A blue LED light automatically illuminates the interior for approximately 10 seconds when the lid is opened, aiding visibility in low-light conditions.
- **Protective Interior:** The interior is lined with soft foam to protect contents from scratches and damage.

The HOLEWOR Biometric Pistol Safe, showcasing its sleek black design and illuminated fingerprint sensor.

## Soft Foam To Protect Your Gun

The interior of the safe features soft foam padding, ensuring that stored items are protected from impact and scratches.

## 5. SETUP GUIDE

---

### 5.1. Installing Batteries

1. Locate the battery compartment, typically on the underside or rear of the safe.
2. Use the provided screwdriver tool to open the battery compartment cover.
3. Insert 4 AAA batteries, ensuring correct polarity (+/-).
4. Replace the cover and secure it with the screw.

### 5.2. Registering Fingerprints

The safe can store up to 100 unique fingerprints. It is recommended to register multiple fingers and different angles for each finger for optimal recognition.

1. With the safe open, press and hold the programming button (refer to the diagram in the quick start guide for exact location, usually inside the safe near the battery compartment) until the indicator light flashes.
2. Place the finger you wish to register firmly on the fingerprint sensor. Lift and repeat several times from different angles until the indicator light confirms successful registration (e.g., a solid green light or a specific beep pattern).
3. Repeat the process for any additional fingers or users.
4. Test the registered fingerprints to ensure they unlock the safe reliably.

# Biometric Quick Access

**<1s**

Biometric Identification

**≤100**

Fingerprints

**>98%**

Recognition Rate

A user registering a fingerprint on the biometric sensor for quick access. The internal blue LED light is visible.

The biometric sensor allows for one-touch unlock, supporting up to 100 unique fingerprints for multiple users or varied finger positions.

### 5.3. Using Backup Keys

The safe comes with two backup keys for manual access. These are crucial in case of battery depletion or biometric system malfunction.

1. Locate the keyhole, typically discreetly placed on the front or side of the safe.
2. Insert one of the backup keys and turn it to unlock the safe.
3. Keep backup keys in a secure location, separate from the safe.

The safe can be opened using one of the two provided mechanical backup keys, offering an alternative access method.

## 6. OPERATING INSTRUCTIONS

### 6.1. Opening the Safe

- **Biometric Access:** Place a registered finger firmly on the fingerprint sensor. The safe will unlock within 1 second, and the lid will open.
- **Key Access:** Insert a backup key into the keyhole and turn it to unlock.

### 6.2. Closing and Locking the Safe

To close and lock the safe, simply lower the lid until it clicks securely into place. The safe will automatically lock.

### **6.3. Securing the Safe with the Steel Cable**

The included 40.16-inch steel security cable allows you to anchor the safe to a fixed object, preventing theft of the entire unit.

1. Locate the cable attachment point on the safe (refer to product diagrams).
2. Loop the steel cable around a secure, immovable object (e.g., car seat frame, bed frame, desk leg).
3. Thread one end of the cable through the attachment point on the safe and secure it as per the cable's locking mechanism.

# Solid & Security

The HOLEWOR safe secured under a car seat using the included 40.16-inch steel security cable, demonstrating its anti-theft capability.

## 7. PLACEMENT AND USAGE SCENARIOS

The compact design of the HOLEWOR Biometric Pistol Safe allows for versatile placement in various environments:

- **Vehicle:** Easily fits under car seats, in trunks, or glove compartments.
- **Home:** Ideal for nightstands, bedside tables, drawers, closets, or under sofas/beds.
- **Travel:** Portable enough to be carried in backpacks or suitcases for secure transport of valuables.

# Small for Travel

- 11.4 x 7.1 x 2.5 inches
- 4.65 Pounds

The safe's compact size makes it suitable for travel, easily fitting into luggage for secure transport.

## **HOLEWOR Portable Gun Safe**

The HOLEWOR safe is designed for portability, fitting conveniently into a backpack for secure carrying.

### **Under Bed**

The safe can be discreetly placed under a bed, providing quick access while remaining out of sight.

### **Under Sofa**

Another discreet placement option is under a sofa, keeping the safe accessible yet hidden.

## On Closet

The safe can be stored on a shelf within a closet, offering secure storage within a private space.

## In The Car

For vehicle use, the safe can fit into a car's glove compartment, providing secure storage on the go.

## Secure Your Valuables on Business Trips in Hotel

The safe can be used to secure valuables like credit cards and cash during business trips or hotel stays.

## 8. MAINTENANCE

- **Cleaning:** Use the provided gun clean cloth or a soft, dry cloth to wipe the exterior of the safe. Avoid abrasive

cleaners or solvents.

- **Battery Replacement:** Replace batteries promptly when the low battery indicator appears (if applicable) or if the safe exhibits slow response times. Always use 4 new AAA alkaline batteries.
- **Fingerprint Sensor Care:** Keep the fingerprint sensor clean and dry for optimal performance.

## 9. TROUBLESHOOTING

- **Safe does not open with fingerprint:**
  - Ensure your finger is clean and dry.
  - Try different angles or other registered fingers.
  - Check battery level; replace batteries if low.
  - Use the backup key for access.
- **Safe does not respond:**
  - Batteries may be depleted. Replace all 4 AAA batteries.
  - Use the backup key for immediate access.
- **Difficulty registering fingerprints:**
  - Ensure your finger is clean and dry.
  - Apply firm, consistent pressure to the sensor.
  - Try registering the same finger multiple times from slightly different angles.

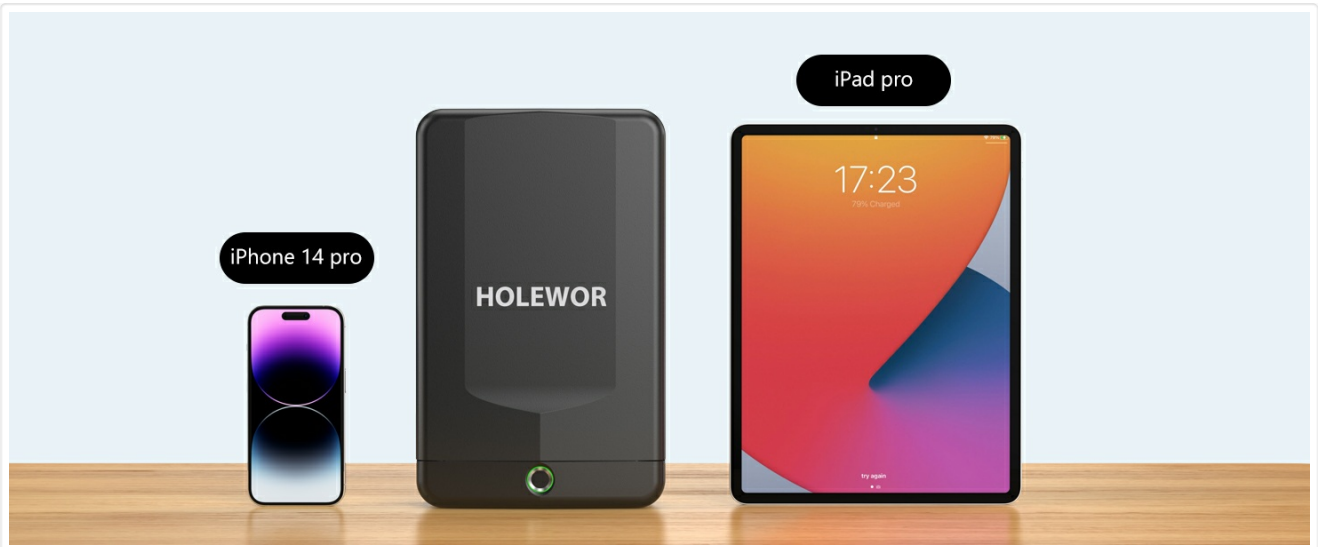

## 10. SPECIFICATIONS
