NPET YL6323

NPET YL6323 Dog Grooming Kit and Pet Hair Vacuum Dryer User Manual

Model: YL6323

PRODUCT OVERVIEW

The NPET YL6323 Dog Grooming Kit is a 6-in-1 multifunctional system designed for comprehensive pet grooming. It integrates vacuum suction for hair collection and a dryer function, providing a clean and efficient grooming experience for dogs and cats. This kit helps manage pet shedding and maintain a tidy home environment.

Key features include:

- **6-in-1 Multifunctional Kit:** Includes various tools for grooming, vacuuming, and drying.
- **99% Vacuum Suction:** Effectively collects pet hair, minimizing mess.
- **Integrated Dryer:** Offers 3 adjustable temperature levels (40°C to 60°C) for efficient pet hair drying.
- **Wireless Electric Clipper:** Detachable clipper with 4 comfort guard combs (3mm/6mm/9mm/12mm) for various hair lengths.
- **500ml Dustbin:** Large capacity, easy to empty and clean, with a washable HEPA filter.
- **Low Noise Design:** Operates at approximately 60dB to reduce pet anxiety during grooming.

6 Multifunctional In-1 Pet Grooming Kit & Vacuum

Image: Overview of the 6-in-1 multifunctional pet grooming kit components, including slicker comb, grooming comb, pet hair roller, trimmer with guards, and nozzles.

SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all items from the packaging. Verify that all listed components are present.
2. **Assemble Main Unit:** Connect the hose to the main vacuum/dryer unit. Ensure a secure fit.
3. **Charge Clipper:** If using the electric clipper separately, ensure its two AA rechargeable dry batteries are charged before use. Batteries are not included and must be purchased separately.
4. **Attach Grooming Tools:** Select the appropriate grooming tool (e.g., slicker comb, grooming comb, trimmer, nozzle) and attach it securely to the end of the hose or directly to the clipper as needed.

OPERATING INSTRUCTIONS

Using the Vacuum Suction Function

- Power On:** Connect the unit to a power source and turn it on.
- Adjust Suction:** Select the desired suction level. There are 3 adjustable levels.
- Attach Tool:** For deshedding, attach the slicker comb or grooming comb to the hose. For cleaning surfaces, attach one of the nozzle heads (flat or round) or the sticky brush.
- Groom/Clean:** Gently brush your pet's coat or vacuum surfaces to collect loose hair. The vacuum will collect up to 99% of pet hair directly into the dustbin.

Using the Dryer Function

1. **Attach Dryer Nozzle:** Ensure the appropriate dryer nozzle is attached to the hose.
2. **Adjust Temperature:** Select one of the 3 adjustable temperature levels (40°C to 60°C).
3. **Dry Pet:** Direct the airflow towards your pet's coat. The dryer can blow-dry hair in approximately 30 minutes at the highest temperature.

Using the Electric Clipper

1. **Charge Clipper:** Ensure the clipper is charged or has fresh AA rechargeable batteries installed.
2. **Select Guard Comb:** Choose one of the 4 comfort guard combs (3mm, 6mm, 9mm, 12mm) based on the desired hair length and attach it securely to the clipper.
3. **Trim Hair:** Gently trim your pet's hair. The clipper can be used independently or connected to the vacuum hose for hair collection.

MAINTENANCE

1. **Empty Dustbin:** After each grooming session, or when full, empty the 500ml dustbin. The dustbin is designed for easy removal and cleaning.
2. **Clean Dustbin:** Wash the dustbin with water and mild soap if necessary. Ensure it is completely dry before reattaching.
3. **Clean HEPA Filter:** The HEPA filter is washable and reusable. Remove it from the dustbin and rinse under running water. Allow it to air dry completely before reinstallation. Regular cleaning maintains optimal suction performance.
4. **Clean Tools:** Clean all grooming attachments (combs, nozzles, clipper blades) after each use to remove hair and debris. Use a small brush for clipper blades.
5. **Store Properly:** Store the unit and all accessories in a clean, dry place away from direct sunlight and extreme temperatures.

Good Sealing Hair Container

Easy to empty and clean

TROUBLESHOOTING

- **Reduced Suction Power:**
 - Check if the dustbin is full and needs emptying.
 - Ensure the HEPA filter is clean and not clogged.
 - Verify that all hose connections and attachments are secure and free of blockages.
- **Unit Not Turning On:**
 - Ensure the power cord is securely plugged into a working electrical outlet.
 - Check for any tripped circuit breakers.
- **Clipper Not Working:**
 - Ensure the AA rechargeable batteries are properly inserted and charged.
 - Clean any hair or debris from the clipper blades.

- **Pet is Scared by Noise:**

- The unit operates at approximately 60dB, similar to a standard vacuum cleaner. Introduce the device gradually to your pet.
- Start with the lowest suction/dryer setting.
- Use treats and positive reinforcement to help your pet acclimate to the sound.

SPECIFICATIONS

Product Name	Pet Grooming Clippers
Item Model Number	YL6323
Brand	NPET
