Setup

Unpacking and Assembly

1. Carefully remove all components from the packaging.
2. Place the lamp base on a stable, flat surface.
3. Ensure all connections are secure.
4. Plug the power cord into a standard electrical outlet.

Initial Placement

Position the lamp in your desired workspace or reading area. Ensure there is sufficient space around the base for wireless charging and access to the USB port.

Operating Instructions

Powering On/Off and Brightness Control

Figure 2: Touch Control Button. This image illustrates the location of the touch-sensitive power and control button on the lamp's base.

- **Power On/Off:** Lightly touch the circular power button on the lamp base to turn the lamp on or off.
- **Adjust Brightness:** With the lamp on, repeatedly touch the power button to cycle through the three brightness levels (Low, Medium, High).

Color Temperature Adjustment

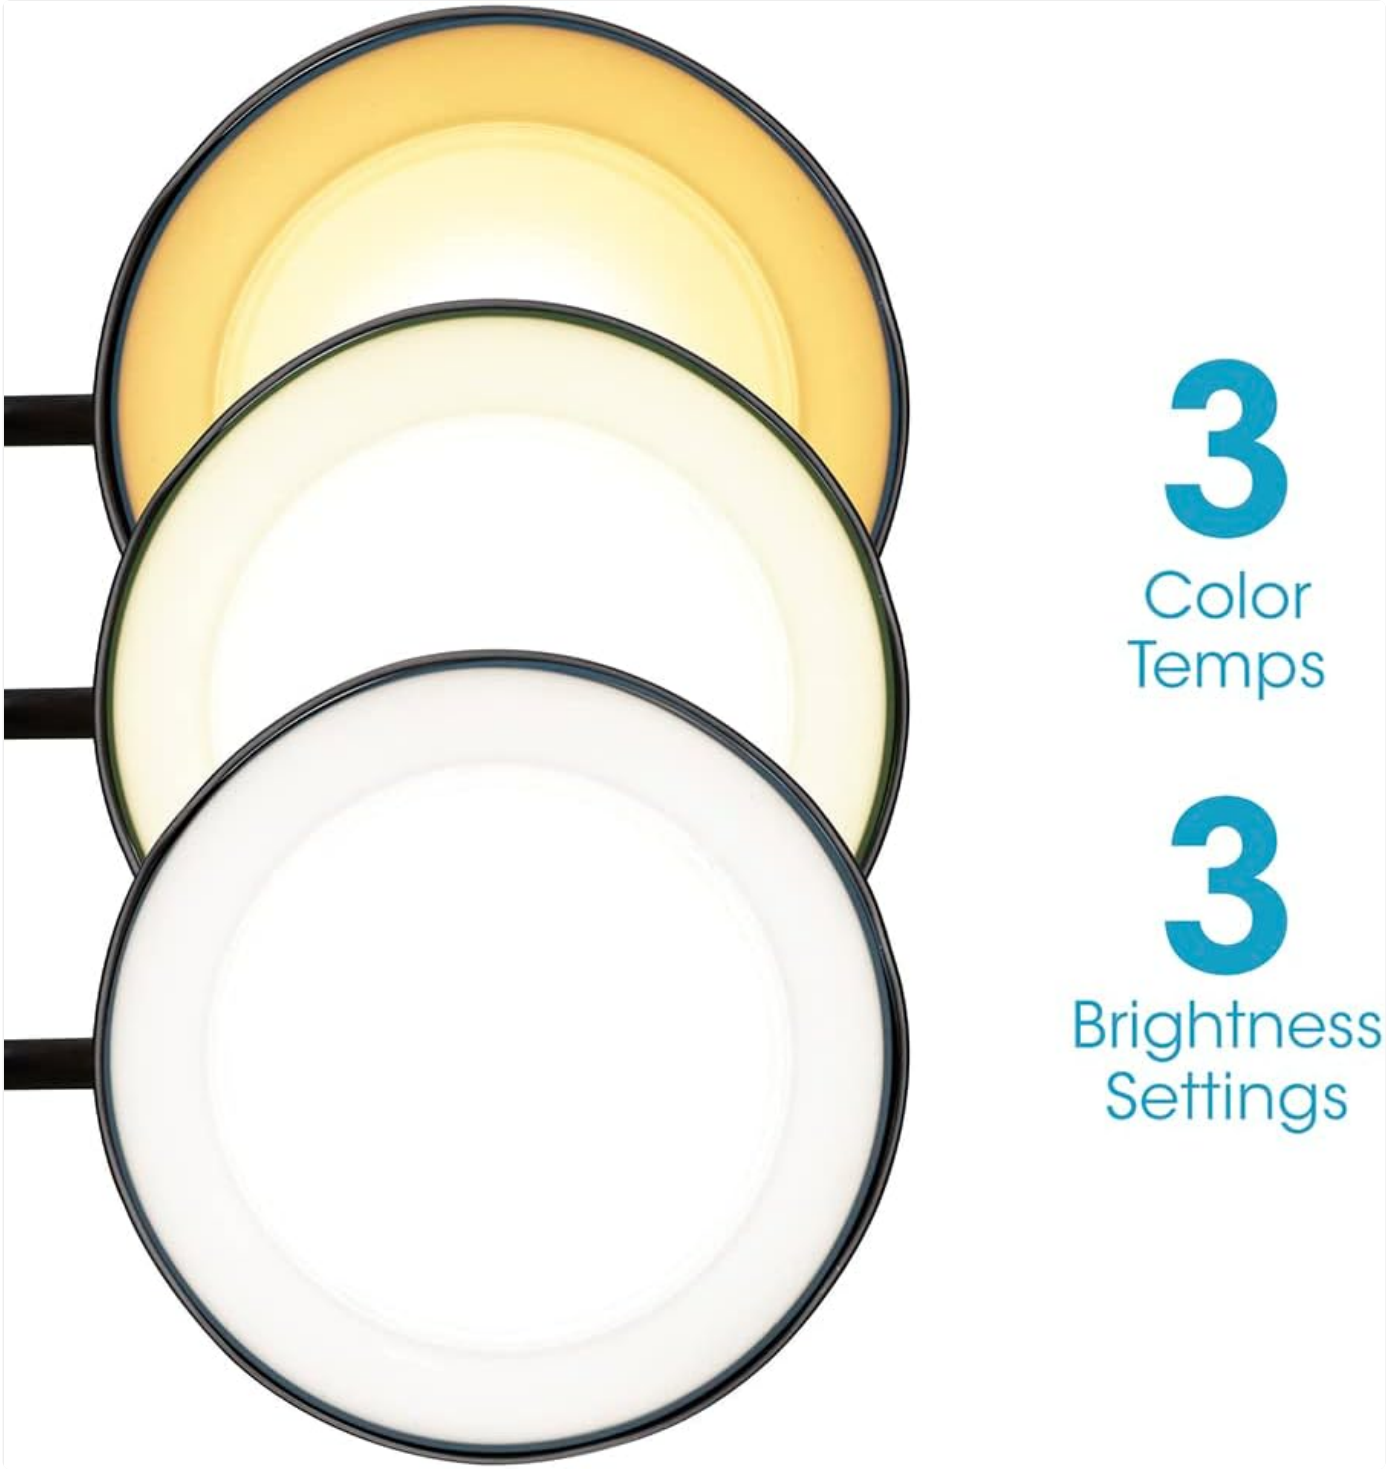

Figure 3: Color Temperature Options. This image visually represents the three distinct color temperature settings available on the lamp.

To change the color temperature, press and hold the power button for approximately 2 seconds. The lamp will cycle through the three available color temperatures (Warm White, Bright White, and ClearSun® Natural Daylight). Release the button when your desired color temperature is reached.

Adjusting Lamp Position

Figure 4: Multi-Position Shade Adjustment. This diagram illustrates the flexibility of the lamp's shade, which can be tilted and swiveled to direct light.

- **Height Adjustment:** Gently slide the adjustable pole to raise or lower the lamp height between 21 and 25 inches.
- **Shade Adjustment:** The lamp shade can be tilted up, down, and swiveled side to side to direct light precisely where needed.

Charging Devices

Wireless Charging (Qi-Compatible Devices)

Figure 5: Wireless Charging Pad. This image demonstrates a smartphone being wirelessly charged on the lamp's base, highlighting the Qi charging capability.

1. Place your Qi-compatible device (e.g., smartphone) directly onto the wireless charging pad located on the lamp base.
2. Ensure the device is centered on the pad for optimal charging.
3. A charging indicator on your device will confirm that charging has begun.

USB Charging

Figure 6: USB Charging Port. This image shows the USB port on the lamp's base, ready for connecting a charging cable.

1. Locate the 5V, 2.1A USB port on the side of the lamp base.
2. Connect your device's USB charging cable to the port.
3. Connect the other end of the cable to your device to begin charging.

Maintenance

- **Cleaning:** Disconnect the lamp from the power source before cleaning. Use a soft, dry cloth to wipe down the lamp. Do not use abrasive cleaners or solvents.
- **LED Care:** The LEDs in this lamp are designed for long-term use and are not replaceable. Do not attempt to open the lamp head.
- **Storage:** If storing the lamp for an extended period, ensure it is clean and dry. Store in a cool, dry place away from direct sunlight.

Troubleshooting

Problem	Possible Cause	Solution
Lamp does not turn on.	Not plugged in; power outlet issue; defective unit.	Ensure the power cord is securely plugged into a working electrical outlet. Test the outlet with another device. If the issue persists, contact customer support.
Wireless charging not working.	Device not Qi-compatible; device not centered; foreign objects on pad; phone case too thick.	Verify your device is Qi-compatible. Reposition the device to ensure it is centered on the charging pad. Remove any foreign objects (e.g., metal, cards) from the charging pad. Remove thick phone cases that may interfere with charging.
USB charging not working.	Cable issue; device issue.	Try a different USB cable. Ensure the device is properly connected. Test charging another device.
Light flickers or dims unexpectedly.	Unstable power supply; internal component issue.	Ensure the lamp is plugged into a stable power source. If the problem continues, contact customer support.
