1. INTRODUCTION

This manual provides instructions for the proper setup, operation, and maintenance of your DAVITU replacement remote control for Daikin air conditioning units. Please read this manual thoroughly before use to ensure optimal performance and longevity of your remote control.

2. SETUP

2.1 Battery Installation

The remote control requires two AAA batteries (not included). Follow these steps to install the batteries:

1. Locate the battery compartment cover on the back of the remote control.
2. Slide the cover downwards to open the compartment.
3. Insert two new AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Slide the battery compartment cover back into place until it clicks securely.

Note: Ensure batteries are inserted with correct polarity. Incorrect installation may prevent the remote from functioning. Remove batteries if the remote will not be used for an extended period to prevent leakage.

3. OPERATING INSTRUCTIONS

This section details the functions of each button on your remote control.

- **TIMER SELECT Button:** Used to navigate and confirm timer settings.

3.2 Setting the Timer

To set the ON or OFF timer:

1. Press the **TIMER ON** or **TIMER OFF** button. The timer indicator will flash on the remote's display.
2. Use the **SELECT** button (up/down arrows) to adjust the desired time.
3. Press the **TIMER ON** or **TIMER OFF** button again to confirm the setting.
4. To cancel a set timer, press the **CANCEL** button.

4. MAINTENANCE

4.1 Battery Replacement

Replace batteries when the remote control's display becomes dim or the remote fails to operate the air conditioner unit. Refer to Section 2.1 for detailed battery installation instructions.

4.2 Cleaning

Wipe the remote control with a soft, dry cloth. Do not use liquid cleaners, abrasive materials, or chemical sprays, as these may damage the remote's surface or internal components.

5. TROUBLESHOOTING

- **Remote not responding:**
 - Check if the batteries are correctly installed with the proper polarity.
 - Replace old batteries with new ones.
 - Ensure there are no obstructions between the remote control and the air conditioner's receiver.
 - Confirm the remote is pointed directly at the air conditioner unit.
- **Limited range:**
 - Replace batteries if they are low.
 - Ensure no strong light sources (e.g., direct sunlight, fluorescent lights) are interfering with the remote's signal.
