# Bburago Maisto 1:18 Ferrari 296 GTB Assetto Fiorano Die-Cast Model Instruction Manual

Model Number: 18-16017-00000022

## INTRODUCTION

This manual provides essential information for the Bburago Maisto 1:18 scale Ferrari 296 GTB Assetto Fiorano die-cast model. This highly detailed replica is designed for collectors and enthusiasts, featuring intricate details and functional components. Please read this manual thoroughly to ensure proper handling and care of your model.

## SAFETY INFORMATION

**WARNING: CHOKING HAZARD - Small Parts.** This product contains small parts and is not suitable for children under 3 years of age. Adult supervision is recommended during handling to prevent accidental ingestion of small components.

## UNBOXING AND INITIAL SETUP

Carefully remove the model from its packaging. The model is secured within a collector's box designed to protect it during transit. Exercise caution to avoid damaging delicate parts during removal.

Once unboxed, place the model on a stable, flat surface. Inspect the model for any visible damage that may have occurred during shipping. If any damage is found, contact customer support.

## OPERATING FEATURES

This die-cast model features several interactive components designed to replicate the real vehicle's functionality. Handle these parts gently to prevent damage.

- Opening Doors:** The driver and passenger doors can be carefully opened to reveal the detailed interior.
- Opening Hood:** The front hood can be lifted to expose the front storage compartment or internal components.
- Opening Engine Cover:** The rear engine cover can be opened to showcase the detailed engine compartment.
- Steering Function:** The front wheels are connected to the steering wheel, allowing for full function steering. Gently turn the steering wheel to observe the front wheels pivot.
- All-Wheel Suspension:** The model features all-wheel suspension, allowing for slight compression of the wheels when gentle pressure is applied.

## MAINTENANCE AND CARE

To preserve the appearance and functionality of your die-cast model, follow these care instructions:

- **Cleaning:** Use a soft, dry cloth to gently wipe the model. For stubborn dust, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or solvents, as these can damage the paint finish.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause paint fading.
- **Handling:** Always handle the model by its main body. Avoid gripping delicate parts such as mirrors, antennas, or spoilers, as these can break easily.

## TROUBLESHOOTING

---

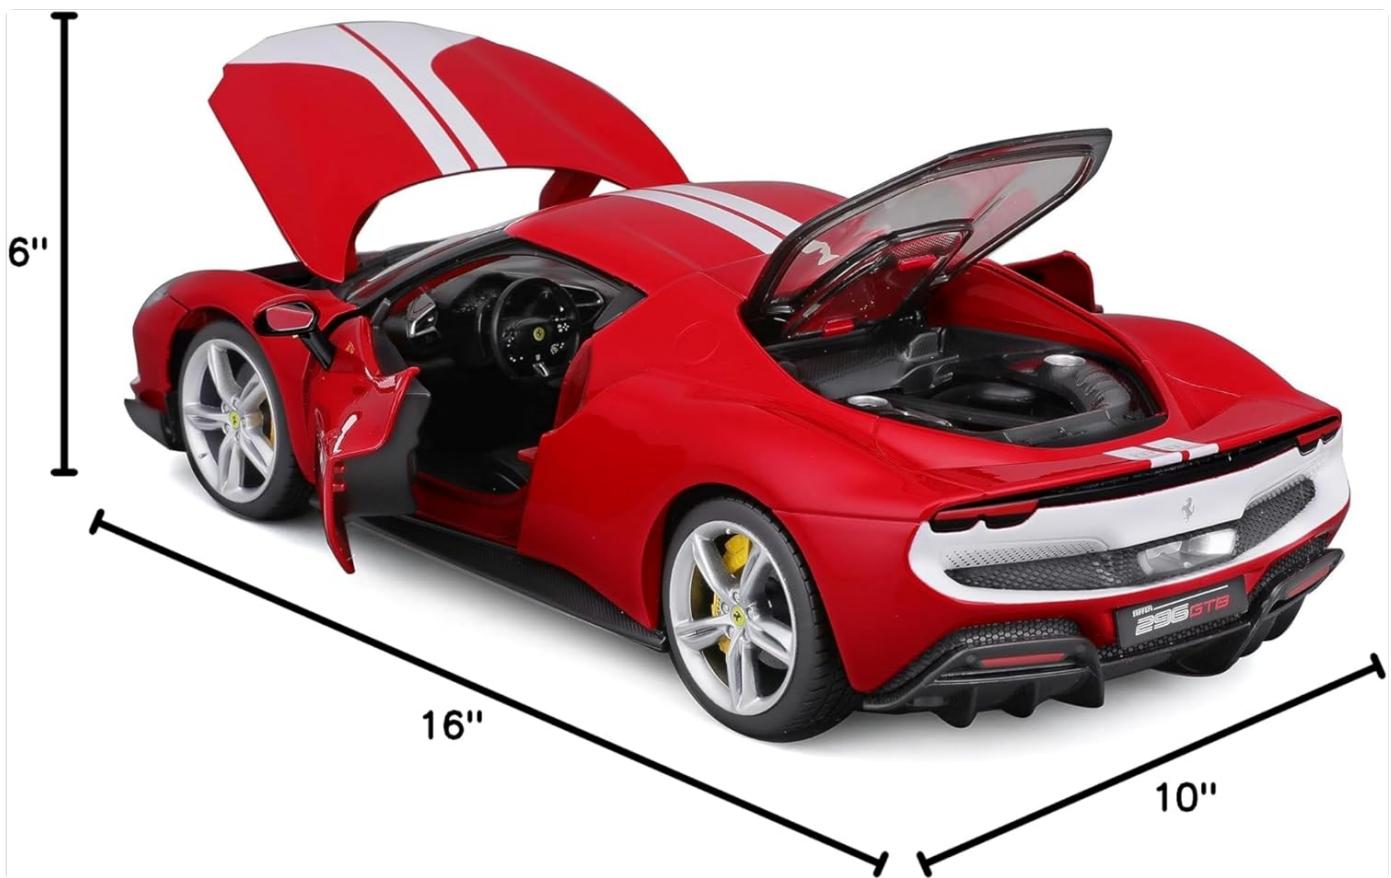

If you encounter any issues with your model, consider the following:

- **Stiff Moving Parts:** If doors, hood, or engine cover feel stiff, apply very gentle, consistent pressure. Do not force them open or closed. Avoid applying lubricants, as they may damage the plastic or paint.
- **Loose Parts:** Due to the intricate nature of die-cast models, small parts may occasionally become loose. If a part detaches, it can often be reattached using a small amount of model-safe adhesive. Ensure the adhesive is suitable for both metal and plastic.
- **Paint Imperfections:** Minor paint imperfections are rare but can occur during manufacturing. These are typically cosmetic and do not affect the model's functionality.
