## Maintenance and Care

To ensure the longevity and appearance of your SEDETA L Shaped Gaming Desk, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Spills:** Immediately clean up any spills to prevent staining or damage to the engineered wood.
- **Heat and Moisture:** Avoid placing hot items directly on the desk surface. Use coasters for drinks to prevent moisture rings.
- **Stability:** Periodically check and tighten all screws and connections to maintain desk stability.
- **Electrical Components:** Keep the power outlet and LED lights dry. Do not attempt to repair electrical components yourself.

## Troubleshooting

Here are some common issues and their potential solutions:

- **Desk feels wobbly:** Ensure all screws are securely tightened. Verify that the desk is assembled correctly according to the instructions, paying close attention to the orientation of all parts.
- **LED lights not working or missing:** Check all connections of the LED strip to the power source and controller. If the lights were missing upon arrival, contact customer service for assistance.
- **Power outlet not charging devices:** Ensure the power outlet's on-off switch is in the 'ON' position. Verify that the desk's main power cord is securely plugged into a working wall outlet. If issues persist, try charging devices directly from a wall outlet to rule out device-specific problems.
- **Difficulty with assembly:** Review the assembly manual carefully. Some parts may have specific orientations. If a hole does not align, double-check the part's position before attempting to modify the desk.
