Cisily HMJ-PS

Cisily Black Sponge Holder for Kitchen Sink Instruction Manual

Model: HMJ-PS | Brand: Cisily

PRODUCT OVERVIEW

The Cisily Black Sponge Holder is a versatile and rustproof kitchen sink caddy designed to organize your cleaning essentials. Crafted from premium 304 stainless steel, it features a rotatable spout for efficient drainage, adjustable dividers for customized storage, and an upgraded brush holder. Its compact design helps save countertop space while keeping your sink area tidy and dry.

SETUP

Unboxing and Initial Inspection

Upon receiving your Cisily Sponge Holder, carefully remove it from its packaging. Inspect all components to ensure they are intact and free from damage. The unit is designed for free installation, meaning it requires no complex assembly.

Placement

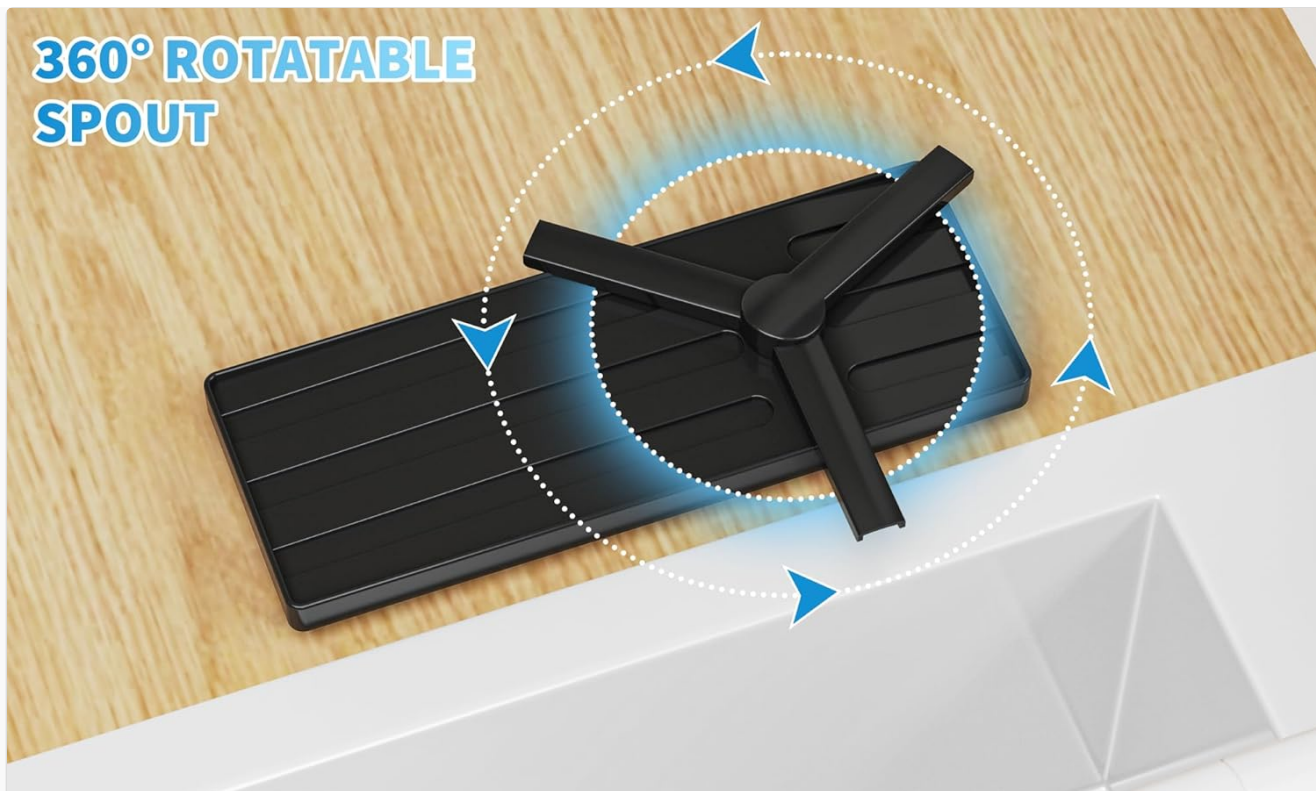

Place the sponge holder on your kitchen countertop next to the sink. Ensure the rotatable spout is positioned directly over the sink basin to allow for proper water drainage. The compact size (9.25"x3.97"x6.37") makes it suitable for limited spaces.

FEATURES AND COMPONENTS

Rotatable Spout

360° ROTATABLE SPOUT

The innovative rotatable spout can swivel in three directions, ensuring that any water dripping from your sponges or brushes is directed straight into the sink. This feature prevents water accumulation on your countertop, reducing the need for frequent cleaning of a drip tray.

Video demonstrating the efficient drainage of the Cisily Sponge Holder with its rotatable spout.

Removable Brush Holder

REMOVABLE BRUSH HOLDER

Fearless Even With Longer Brushes

An extra upgraded brush holder is included, capable of holding up to four small and large-sized brushes. This removable component allows for flexible organization and easy cleaning.

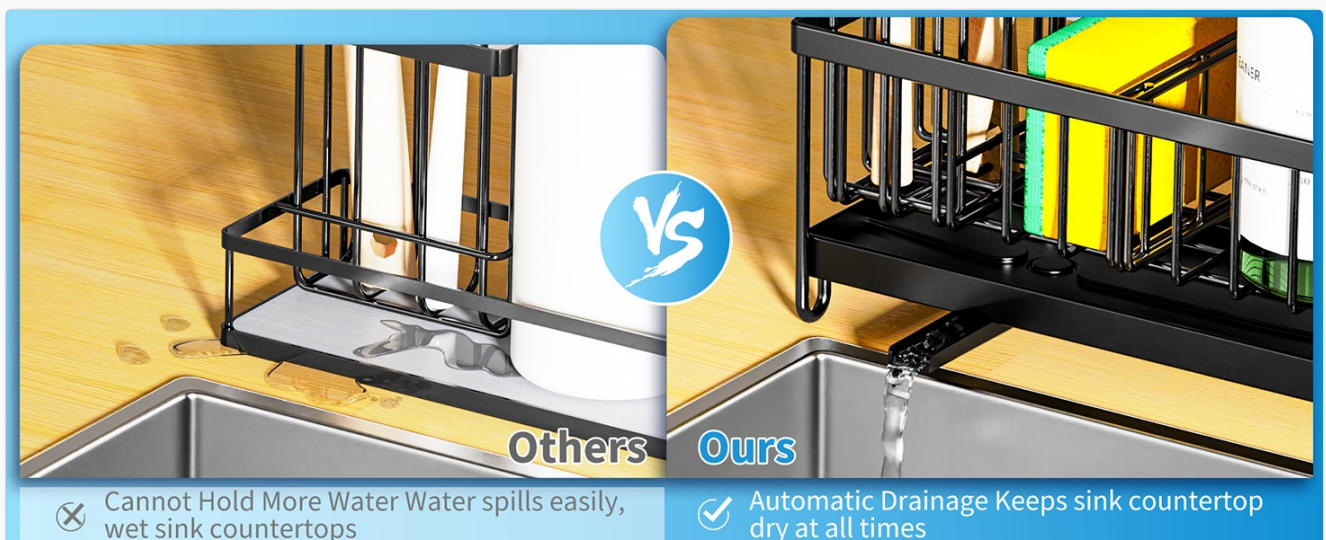

Adjustable Dividers

ADJUSTABLE DIVIDERS

The ergonomic divider design provides three separate storage spaces. These dividers can be adjusted to accommodate different items, maximizing space utilization and keeping your kitchen organized.

Premium Sturdy Material

Cannot Hold More Water Water spills easily, wet sink countertops

Ours

Automatic Drainage Keeps sink countertop dry at all times

Constructed from rustproof 304 stainless steel, the Cisily kitchen sink organizer is built for durability and longevity. This material effectively prevents rust and deformation, ensuring a long-lasting product.

OPERATING INSTRUCTIONS

Organizing Your Sink Area

Utilize the designated compartments to store your dish soap bottle, sponges, and various brushes. The high brush holder is ideal for longer cleaning tools, keeping them upright and accessible. Arrange items according to your preference using the adjustable dividers.

After use, place wet sponges and brushes into their respective compartments. The design ensures that excess water drains directly into the sink via the rotatable spout, keeping your countertop dry and free from water stains.

MAINTENANCE AND CARE

Cleaning Instructions

To clean the Cisily Sponge Holder, simply rinse it under a running tap. The stainless steel material allows for easy cleaning and prevents the buildup of grime. For deeper cleaning, the removable components can be detached and washed separately.

Rust Prevention

The product is made from rustproof 304 stainless steel, ensuring long-term resistance to corrosion and rust, even with constant exposure to water. Regular rinsing will help maintain its pristine condition.

TROUBLESHOOTING

Issue	Solution
Water accumulating on countertop	Ensure the rotatable spout is correctly positioned directly over the sink basin. Adjust its direction as needed.

Issue	Solution
Caddy appears unstable	Ensure the caddy is placed on a flat, stable surface. Check that all four feet are evenly supported.
Items do not fit properly	Adjust the removable dividers to create larger or smaller compartments as required for your items.

SPECIFICATIONS

Feature	Detail
