- **Dusting:** Regularly dust the model with a soft brush or a can of compressed air to remove accumulated dust.
- **Cleaning:** For more thorough cleaning, gently wipe the blocks with a slightly damp cloth. Avoid harsh chemicals or abrasive materials.
- **Storage:** If disassembling or storing, keep all pieces in a sealed container to prevent loss and protect them from dust.

7. Troubleshooting

Missing Pieces:

If you believe you have missing pieces, first double-check the packaging and your workspace. Due to their small size, pieces can be easily overlooked. If pieces are genuinely missing from a new, sealed kit, please refer to the warranty and support section for assistance.

Difficulty Assembling:

Review the instruction manual carefully. Sometimes a small detail or orientation of a block can be missed. Ensure you are using the correct blocks for each step, as similar-looking pieces may exist.
