1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the Moongiantgo Automatic Soy and Nut Milk Maker. Retain this manual for future reference.

General Safety Precautions

- Always ensure the appliance is placed on a stable, flat, heat-resistant surface.
- Do not immerse the main unit (motor base) in water or other liquids.
- Keep out of reach of children and pets.
- Do not operate the appliance with a damaged cord or plug. If damaged, contact customer support.
- Avoid touching moving parts during operation.
- Do not open the lid during operation, especially when blending or heating.
- Use only the accessories provided or recommended by the manufacturer.
- Unplug the appliance from the power outlet when not in use, before cleaning, or before assembling/disassembling parts.
- Do not use the appliance outdoors.
- Ensure the voltage rating of the appliance matches your local power supply.

Electrical Safety

- This appliance operates on 110V.
- Do not overload electrical outlets.
- Do not allow the power cord to hang over the edge of a table or counter, or touch hot surfaces.
- If the appliance malfunctions, unplug it immediately and do not attempt to repair it yourself.

2. PRODUCT OVERVIEW

The Moongiantgo Automatic Soy and Nut Milk Maker is a versatile 8-in-1 appliance designed for preparing various plant-based milks, juices, porridges, and more. It features a user-friendly interface, powerful stainless steel blades, and an automatic self-cleaning function.

Key Features

- **8-in-1 Functionality:** Capable of making nut milk, soy milk, rice paste, porridge, juice, and boiling water.
- **Large Capacity:** 1.1 Liters (approximately 37.2 oz) suitable for family use.
- **Durable Blades:** Equipped with 4 sharp food-grade 304 stainless steel blades and a 23000 RPM motor for efficient grinding.
- **User-Friendly Interface:** Simple controls for easy operation.
- **Automatic Self-Cleaning:** A dedicated 3-minute cleaning cycle for convenience.

Components Included

- 1 x Moongiantgo Automatic Soy and Nut Milk Maker
- 1 x Strainer
- 1 x Power Cord
- 1 x Measuring Cup
- 1 x Instruction & Recipe Book

WHAT'S IN THE PACKAGE

Figure 2.1: Contents of the product package, showing the main unit, strainer, measuring cup, power cord, and instruction manual.

3. INITIAL SETUP

Before first use, ensure all packaging materials are removed and the appliance is clean.

1. **Unpack:** Carefully remove the soy and nut milk maker and all accessories from the packaging.
2. **Clean:** Wash the interior of the pitcher and the lid with warm, soapy water. Rinse thoroughly and dry. Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.
3. **Placement:** Place the appliance on a dry, stable, and level surface away from heat sources and direct sunlight.
4. **Power Connection:** Connect the power cord to the appliance and then plug it into a 110V electrical outlet. Ensure the coupler is properly connected to prevent the power cord from falling out during operation.

SIMPLE AND EASY TO USE

Press any button during working and the machine will pause

Figure 3.1: Proper connection of the power cord to the appliance.

4. OPERATING INSTRUCTIONS

The Moongiantgo Soy and Nut Milk Maker offers 8 preset functions for various preparations. Follow these general steps for operation.

General Operation Steps

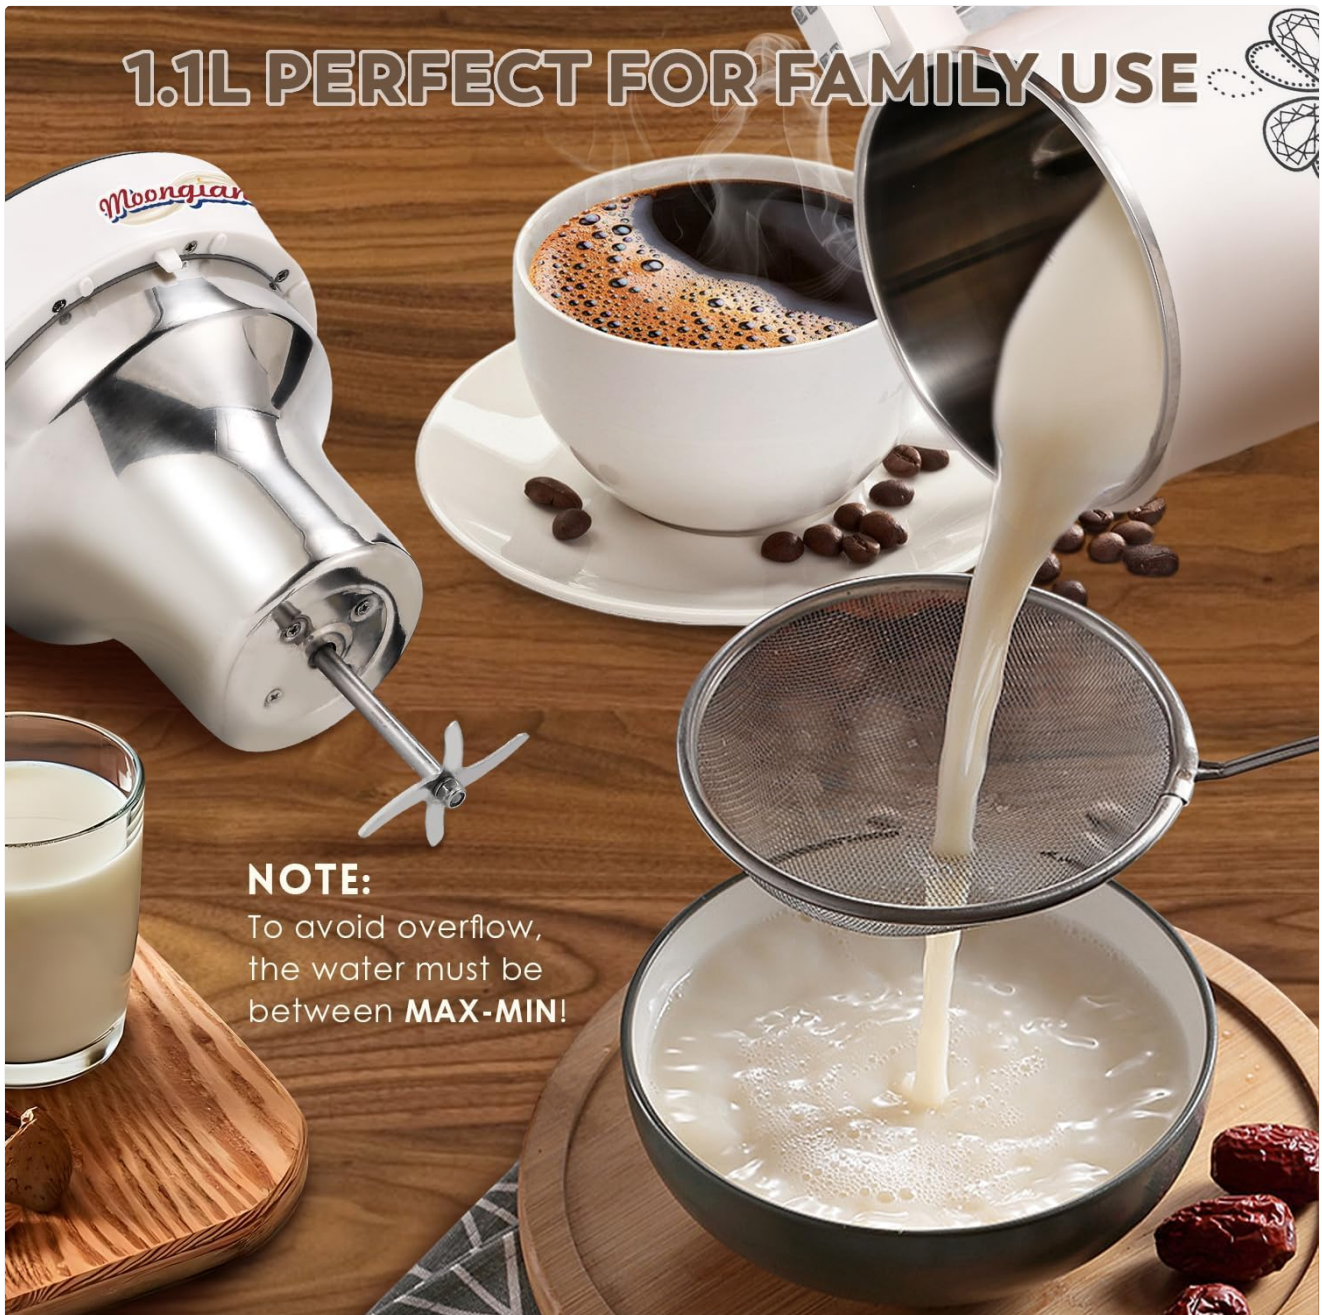

1. **Add Ingredients:** Place your desired dry or soaked ingredients (e.g., soybeans, almonds, fruits) into the pitcher.
2. **Add Water:** Pour water into the pitcher. Ensure the water level is between the 'MIN' and 'MAX' lines indicated inside the pitcher to prevent overflow or underfilling.
3. **Secure Lid:** Close the lid firmly.
4. **Select Function:** Press the desired function button on the control panel. The machine has options like 'Dried Bean', 'Soaked Bean', 'Green Bean', 'Healthy Paste', 'Dessert', 'Mix Congee', and 'Blender Wash'.

5. **Start:** The machine will begin its cycle. Heating functions incorporate intermittent stirring. If the machine stops stirring, it is heating up, not malfunctioning.
6. **Completion:** The machine will beep when the selected program is finished.
7. **Serve:** Carefully pour out the prepared beverage. For smoother results, especially with soy or nut milk, use the provided strainer.
8. **Customize:** Add sugar, maple syrup, or other flavorings to taste after preparation.

1.1L PERFECT FOR FAMILY USE

NOTE:

To avoid overflow, the water must be between **MAX-MIN!**

Figure 4.2: Pouring and straining freshly made soy milk.

Specific Preparations

- **Soy Milk:** For best results, use the 'Dried Bean' or 'Soaked Bean' function depending on your preparation. Refer to the included recipe book for specific bean-to-water ratios.
- **Almond Milk:** It is recommended to soak almonds overnight before processing for optimal texture and flavor. Use the appropriate function as per the recipe book.
- **Juice/Cold Beverages:** For cold beverages like juice or milkshakes, add fruits and water, then select a blending function if available, or a 'Dessert' function if it offers cold blending.

5. CLEANING AND MAINTENANCE

Regular cleaning ensures the longevity and hygienic operation of your appliance.

Automatic Self-Cleaning

1. **Immediate Cleaning:** It is crucial to clean the machine immediately after each use to prevent residue from sticking.
2. **Add Water:** Fill the pitcher with clean water up to the 'MAX-MIN' lines.
3. **Select Function:** Select the 'Blender Wash' function on the control panel.
4. **Start:** The cleaning cycle will run for approximately 3 minutes.
5. **Completion:** The machine will beep to indicate the cleaning is complete.
6. **Rinse:** Empty the water and rinse the interior thoroughly.

Figure 5.1: The automatic self-cleaning function in progress.

Manual Cleaning Tips

- **Stubborn Residue:** If residue sticks to the inner wall after automatic cleaning, add hot water and let it soak for 10 minutes before scrubbing gently with a non-abrasive sponge or brush.
- **Exterior:** Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners or immerse the unit.
- **Lid and Blades:** Ensure the lid and areas around the blades are thoroughly cleaned after each use.
- **Storage:** Store the appliance in a dry, clean place when not in use.

6. TROUBLESHOOTING

If you encounter issues with your Moongiantgo Soy and Nut Milk Maker, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Machine does not turn on.	Power cord not properly connected; No power from outlet.	Ensure the power cord is securely plugged into both the machine and a working 110V outlet. Check the circuit breaker.
Machine stops during operation.	Lid not properly closed; Overheating; Intermittent stirring (normal for heating cycles).	Ensure the lid is securely closed. Allow the machine to cool down if it has been running for an extended period. Note that intermittent stirring is part of normal operation for heating functions.
Overflow during operation.	Water level above 'MAX' line.	Always ensure water is filled between the 'MIN' and 'MAX' lines. Reduce the amount of ingredients or water.
Poor blending/grinding results.	Insufficient soaking of ingredients; Too many ingredients; Blades are dull or obstructed.	Soak hard ingredients like almonds or soybeans overnight. Do not exceed the recommended ingredient capacity. Ensure blades are clear of obstructions.
Residue sticks to the inner wall.	Not cleaned immediately after use.	Run the 'Blender Wash' function immediately after use. For stubborn residue, add hot water and soak for 10 minutes before scrubbing.

7. PRODUCT SPECIFICATIONS

Feature	Specification
Brand	Moongiantgo
Model	B0C3TR59DN
Color	White
Capacity	1.1 Liters (approx. 37.2 oz)
