Instruction Manual

INTRODUCTION

Thank you for choosing the WENKO Loft Bamboo Coat Rack. This stylish and functional coat rack is designed to provide an organized solution for your entryway, hallway, or living space. Featuring a modern industrial design with a black steel frame and four natural bamboo hooks, it offers both durability and aesthetic appeal. This manual provides essential information for the safe assembly, proper use, and maintenance of your new coat rack.

Please read these instructions carefully before assembly and retain them for future reference.

1. SETUP AND ASSEMBLY

The WENKO Loft Bamboo Coat Rack requires assembly. Please ensure all components are present before beginning. It is recommended to assemble the unit on a soft, clean surface to prevent scratches.

1.1 Package Contents

- Metal tubes (various lengths)
- Bamboo hooks (4 pieces)
- Bamboo feet (4 pieces)
- Screws and connecting hardware
- Allen key (if required)
- Assembly instructions (pictorial)

Note: Components may be marked with numbered stickers for easier identification during assembly. Remove these stickers carefully after assembly is complete.

1.2 Assembly Steps

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the included pictorial instructions to identify each part.
2. **Assemble the Main Vertical Rods:** Connect the metal tubes that form the main vertical structure. Pay close attention to the orientation of the tubes, especially where holes are present for connecting other parts. Some tubes

may have flattened or recessed areas for screw heads; ensure these are correctly aligned.

3. **Attach the Lower Square Frame:** Connect the shorter metal tubes to form the square base frame at the bottom of the coat rack. This frame provides stability and connects the main vertical rods. Ensure all connections are secure but do not overtighten screws until the entire frame is assembled.
4. **Install Bamboo Feet:** Screw the bamboo feet into the bottom ends of the vertical metal rods. These feet may be adjustable to compensate for uneven floors.
5. **Attach Bamboo Hooks:** Secure the four bamboo hooks to the upper section of the vertical rods. Ensure they are firmly attached.
6. **Final Tightening:** Once all parts are assembled, carefully tighten all screws. Avoid excessive force to prevent damage to the components.

3. MAINTENANCE AND CARE

Regular cleaning and proper care will help maintain the appearance and longevity of your WENKO Loft Bamboo Coat Rack.

- **Cleaning the Metal Frame:** Wipe the black steel frame with a soft, damp cloth. For stubborn marks, a mild soap solution can be used, followed by wiping with a clean, dry cloth. Avoid abrasive cleaners or harsh chemicals.
- **Cleaning the Bamboo Parts:** The bamboo hooks and feet can be cleaned with a damp cloth. Dry immediately to prevent moisture absorption. Do not use excessive water or harsh cleaning agents on bamboo.
- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Direct Sunlight and Moisture:** Prolonged exposure to direct sunlight or high humidity can affect the bamboo and metal finish.

4. TROUBLESHOOTING

If you encounter any issues with your coat rack, please refer to the following common solutions:
