TecTake Vivara

User Manual: tectake® Garden Gazebo 3x6m

Model: Vivara (404816)

INTRODUCTION

Thank you for choosing the tectake® Garden Gazebo. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new gazebo. Please read these instructions carefully before use and retain them for future reference.

This 3x6 meter gazebo is designed for temporary outdoor use, offering protection from sun and light rain. It features a robust steel frame, a waterproof and UV-resistant canopy, and five removable side panels with windows for flexible configuration.

SAFETY INSTRUCTIONS

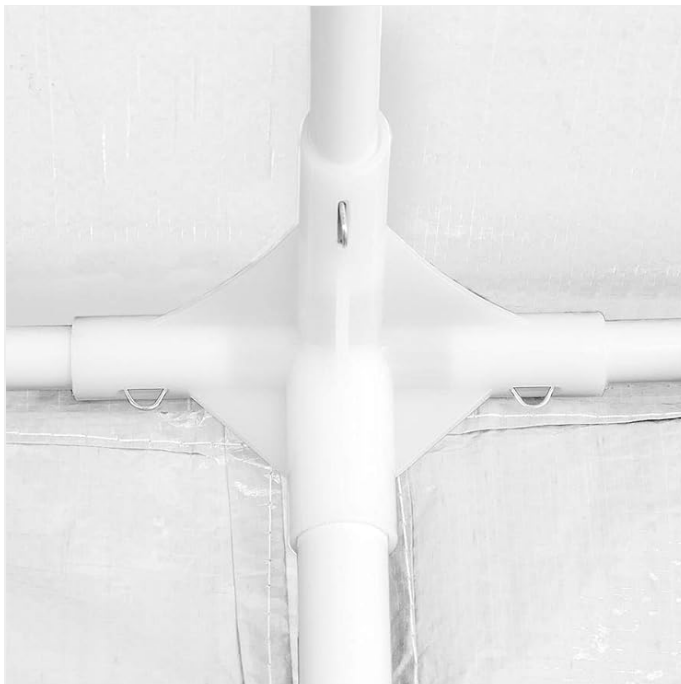

- Always assemble the gazebo on a flat, stable surface.
- Ensure all connections are securely fastened before use.
- Do not use the gazebo in strong winds, heavy rain, or snow. Disassemble and store it in adverse weather conditions to prevent damage and injury.
- Keep children and pets away from the assembly area.
- Do not hang heavy objects from the frame.
- Avoid open flames or heat sources near the canopy material.
- Regularly check all components for wear and tear. Replace damaged parts immediately.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly.

- Steel Frame Poles (various lengths)
- Connectors
- Canopy Tarp (Waterproof, UV-resistant)
- 5 Removable Side Panels with Windows

- 6 Guy Ropes
- 12 Ground Pegs
- Assembly Instructions (this manual)

This image displays the six guy ropes and twelve ground pegs included with the gazebo, essential for securing the structure.

SETUP AND ASSEMBLY

Assembly typically requires two or more people. Follow these steps carefully:

1. **Unpack and Sort Components:** Lay out all poles, connectors, canopy, and side panels. Identify each part according to the diagrams (not provided in this text, but implied in a real manual).
2. **Assemble the Roof Frame:** Connect the shorter poles using the appropriate connectors to form the rectangular roof structure. Ensure all connections are firm.
3. **Attach the Canopy:** Drape the canopy tarp over the assembled roof frame. Secure it to the frame using any

integrated fasteners (e.g., Velcro straps).

4. **Assemble the Leg Poles:** Attach the longer leg poles to the roof frame connectors.
5. **Raise the Gazebo:** With assistance, carefully lift the gazebo frame into an upright position.
6. **Secure the Base:** Insert the ground pegs through the footplates of the leg poles and into the ground. For added stability, attach the guy ropes to the designated points on the frame and secure them to the ground with additional pegs, pulling them taut.
7. **Attach Side Panels:** If desired, attach the five removable side panels using the Velcro fasteners. The panels feature large windows.

This image shows the assembled frame of the gazebo before the side panels are attached, highlighting its robust steel structure.

This image displays the tectake gazebo fully assembled with all five side panels, featuring large windows, providing a complete view of the product.

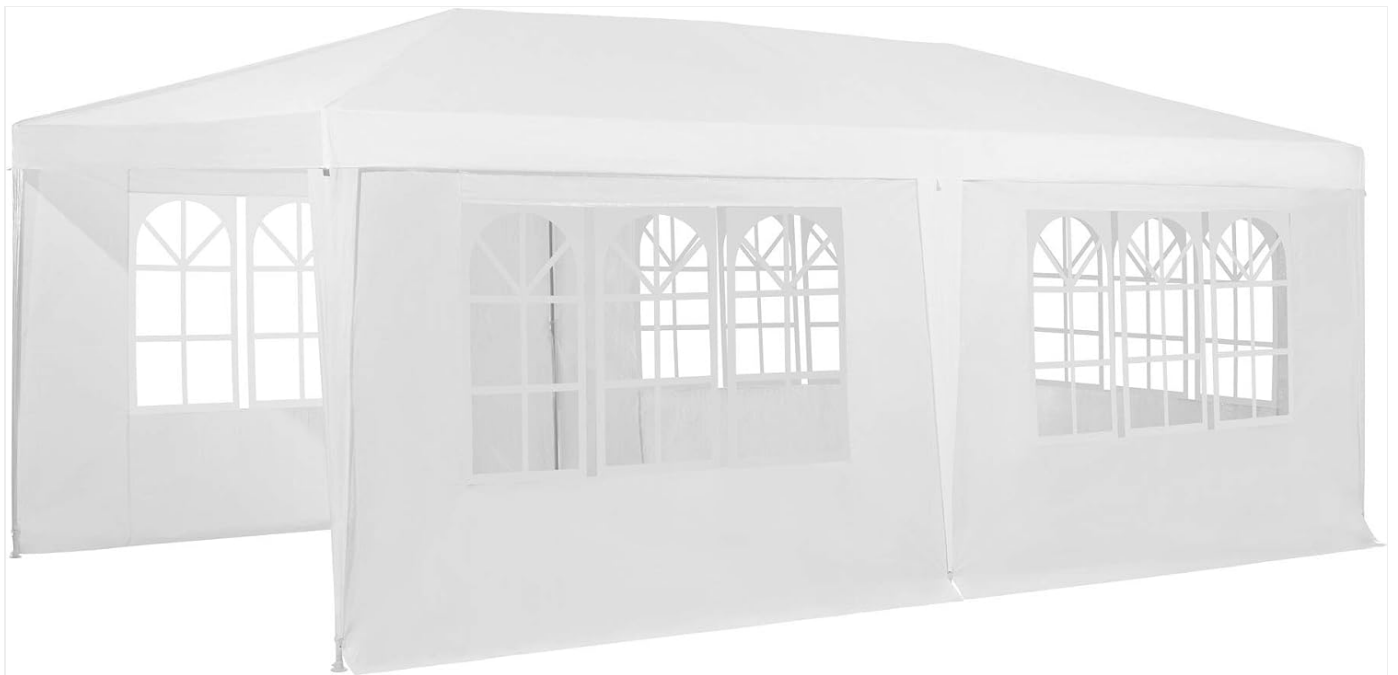

This close-up image illustrates key assembly details: the interlocking system for frame poles, the Velcro fasteners used to attach the canopy and side panels, and a ground peg securing a leg for stability.

OPERATING INSTRUCTIONS

The tectake® Garden Gazebo is designed for versatile outdoor use.

- **Flexible Configuration:** The five side panels can be easily attached or removed using Velcro fasteners to adapt to different weather conditions or event needs.
- **Sun and Light Rain Protection:** The UV-resistant and waterproof canopy provides shade and protection from light precipitation. It is not designed for heavy rain or storms.
- **Ventilation:** Removing side panels can improve airflow and ventilation on warm days.

This image illustrates the gazebo with some side panels removed, showcasing its flexible design for various outdoor settings and ventilation.

MAINTENANCE AND CARE

- **Cleaning:** Clean the canopy and side panels with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners. Allow all parts to dry completely before storage.
- **Frame Care:** The powder-coated steel frame is designed for durability. If scratches occur, touch up with rust-inhibiting paint to prevent corrosion.
- **Storage:** When not in use or during adverse weather, disassemble the gazebo and store all components in a dry, protected area to prolong its lifespan.
- **Inspection:** Periodically inspect all poles, connectors, and fabric for signs of wear, damage, or corrosion. Replace any compromised parts to ensure safety and stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Gazebo is unstable or wobbly.	Not properly anchored; loose connections; uneven ground.	Ensure all ground pegs and guy ropes are securely fastened. Check all pole connections for tightness. Relocate to a flatter surface if necessary.
Water pooling on canopy.	Canopy not taut enough; heavy rain.	Adjust canopy tension to ensure water runs off. Disassemble in heavy rain.
Side panels do not fit correctly.	Incorrect panel orientation; frame not fully extended.	Verify panel orientation. Ensure the frame is fully assembled and extended to its correct dimensions.

SPECIFICATIONS

- Model:** Vivara (404816)
- Brand:** TecTake
- Dimensions (L x W x H):** 600 x 300 x 250 cm (approx. 19.7 x 9.8 x 8.2 ft)
- Weight:** 12 Kilograms (approx. 26.5 lbs)
- Frame Material:** Powder-coated Steel
- Canopy/Panel Material:** Polyethylene, Polypropylene (Waterproof, UV-resistant)
- Color:** White
- Side Panels:** 5 removable panels with windows
- Included Accessories:** 6 Guy Ropes, 12 Ground Pegs
