toocki 100W USB C to USB C Cable

toocki 100W USB C to USB C Cable User Manual

Model: 100W USB C to USB C Cable

1. INTRODUCTION

Thank you for choosing the toocki 100W USB C to USB C Cable. This high-performance cable is designed for fast charging and efficient data transfer, featuring a unique LED display for real-time power monitoring. Please read this manual carefully to ensure proper use and maximize the lifespan of your cable.

3. KEY FEATURES

Real-Time Power Display

The integrated smart power display allows you to monitor the charging status and signify high power processes in real-time. This feature helps prevent battery damage from unstable current and provides clear insight into your charging progress.

Smart LED Display

You can directly see the charging speed

Figure 2: Smart LED Display showing real-time charging wattage.

100W Fast Charging Speed

Supporting up to 100W (20V 5A) charging speed, this Type C cable ensures your devices power up quickly, significantly reducing charging times. Ideal for laptops, tablets, and smartphones requiring high power delivery.

PD 100W Speed Charging

Unbeatable Durability

Constructed with a special zinc alloy design and a rugged silicone exterior, this USB C cable is built for longevity. It has undergone extensive testing, withstanding over 50,000 bends without breaking, ensuring a longer lifespan compared to standard cables.

Easy to Clean

Easily remove surface stains by wiping water and keeping it new.

25,000

Bend Lifespan

Wide Compatibility

The toocki Type C charging cable is compatible with a broad range of USB-C enabled devices, including smartphones, tablets, and laptops. This versatility allows for seamless use across multiple devices without the need for different cables.

Soft-Touch & Strong

The cable features a liquid silicone finish that provides a remarkably soft, skin-friendly touch. Despite its soft feel, it is engineered to be one of the strongest cables available, remaining tangle-free even when stored in a bag or pocket, making it ideal for travel and daily use.

Soft with Skin Touch

Made of liquid silicone brings you a skin-friendly touch.

4. SPECIFICATIONS

Attribute	Detail
Model Number	100W USB C to USB C Cable
Brand	toocki
Connector Type	USB Type C to USB Type C
Cable Type	USB
Power Delivery	Up to 100W (20V 5A)
Data Transfer Speed	USB 2.0 (480Mbps)

Attribute	Detail
Special Features	LED Display, E-Marker Chip, Tangle-Free, Soft Silicone Finish
Dimensions	6.6FT (approximately 2 meters)

5. SETUP

Setting up your toocki USB C cable is straightforward:

1. **Identify Ports:** Locate the USB-C charging port on your device (e.g., laptop, tablet, smartphone) and on your power adapter or power bank.
2. **Connect to Power Source:** Insert one end of the toocki USB C cable into a compatible USB-C power adapter or power bank. Ensure the power source supports Power Delivery (PD) for optimal charging speeds.
3. **Connect to Device:** Insert the other end of the toocki USB C cable into the USB-C charging port of your device.
4. **Verify Connection:** The LED display on the cable's connector will illuminate, showing the real-time charging wattage. This confirms a successful connection and active charging.

6. OPERATING INSTRUCTIONS

6.1. Charging Your Device

Once connected as described in the Setup section, the cable will automatically begin charging your device. The integrated LED display will show the current wattage being delivered, allowing you to confirm fast charging is active.

- For 100W charging, ensure both your power adapter and device support 100W Power Delivery.
- The wattage displayed may vary based on your device's battery level and charging state.

6.2. Data Transfer

This cable supports USB 2.0 data transfer speeds (up to 480Mbps). To transfer data:

1. Connect one end of the cable to your computer's USB-C port.
2. Connect the other end to your compatible device (e.g., smartphone, tablet).
3. Your computer should recognize the connected device, allowing you to access and transfer files.

7. COMPATIBILITY

The toocki 100W USB C to USB C Cable is designed for broad compatibility with a variety of USB-C enabled devices, including but not limited to:

- **Smartphones:** Samsung Galaxy S24, S23, S22, S21, A55, A45, A35, A25, A15, A05, A54, A44, A34, A24, A14, Z Flip5, Fold5; iPhone 15, iPhone 15 Plus, iPhone 15 Pro, iPhone 15 Pro Max.
- **Tablets:** iPad Pro 11", 13"; iPad Air 11", 13".
- **Laptops:** MacBook Pro, and other laptops with USB-C charging ports.
- **Other Devices:** Smart Watches, Xbox controllers, and other USB-C powered accessories.

For optimal performance, ensure your device and power adapter support the Power Delivery (PD) protocol.

8. MAINTENANCE

To ensure the longevity and optimal performance of your toocki USB C cable, follow these maintenance guidelines:

- **Cleaning:** Easily remove surface stains by wiping the cable with a damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Utilize the included cable tie to keep it neatly coiled and prevent tangles.
- **Handling:** Avoid excessive bending, twisting, or pulling on the cable, especially near the connectors. Always grasp the connector itself when plugging or unplugging, rather than pulling on the cable.
- **Protection:** Do not expose the cable to water or other liquids. Keep it away from sharp objects that could damage the silicone exterior.

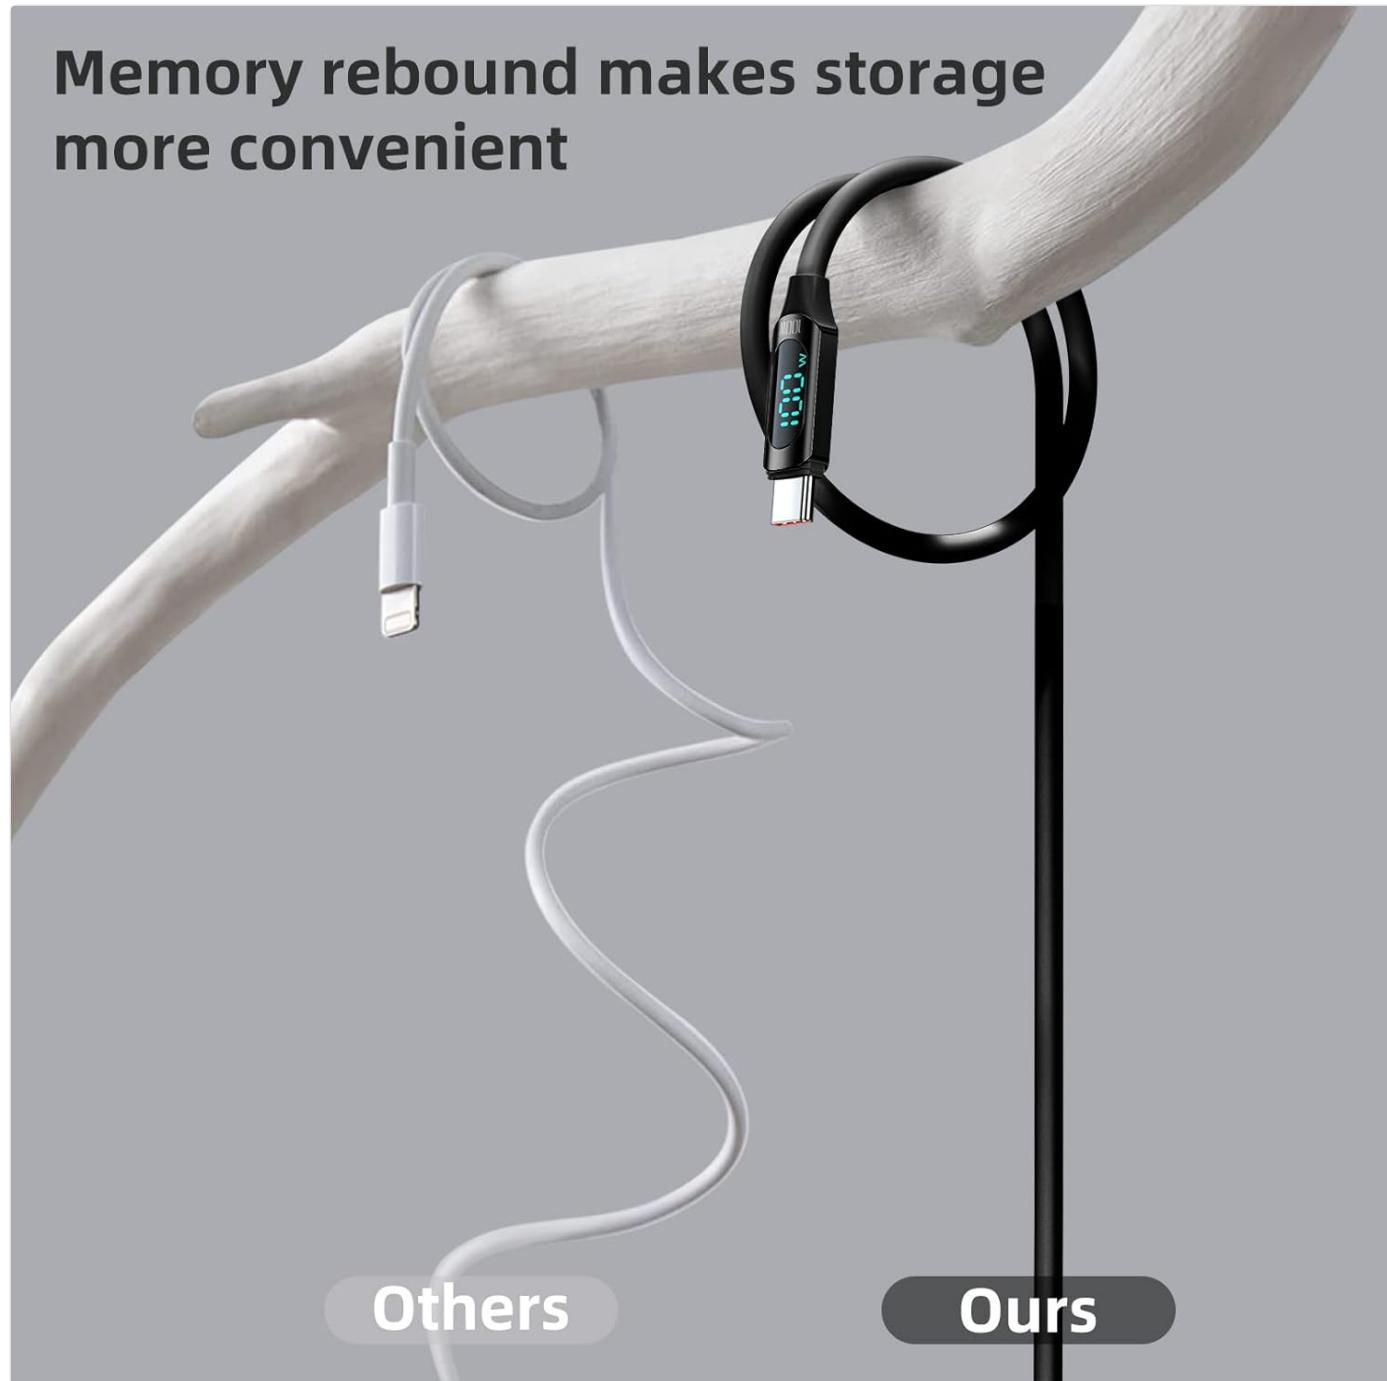

Figure 6: Proper storage helps maintain cable integrity.

9. TROUBLESHOOTING

If you encounter issues with your toocki USB C cable, please refer to the following common problems and solutions:

Problem: Cable is not charging or LED display is off.

- **Solution 1:** Ensure both ends of the cable are securely plugged into the device and the power adapter/source.
- **Solution 2:** Verify that the power adapter/source is functioning correctly and is plugged into a live power outlet.
- **Solution 3:** Test the cable with a different device or power adapter to isolate the issue.
- **Solution 4:** Check if your device's charging port is clean and free of debris.

Problem: Charging is slow or not reaching 100W.

- **Solution 1:** Confirm that both your power adapter and the device you are charging support 100W Power Delivery. If either does not, the charging speed will be limited to the lowest common denominator.
- **Solution 2:** Ensure you are using a power adapter that provides sufficient wattage for your device.
- **Solution 3:** The LED display shows real-time wattage. Note that charging speed can fluctuate based on the device's battery level (e.g., slower when nearly full).

Problem: Data transfer is not working.

- **Solution 1:** Ensure your device is set to "File Transfer" or "MTP" mode when connected to a computer, not just "Charging."
- **Solution 2:** Try connecting to a different USB-C port on your computer.
- **Solution 3:** Restart both your device and computer.

10. WARRANTY AND SUPPORT

toocki products are manufactured to the highest quality standards. For any product-related inquiries, technical support, or warranty claims, please refer to the contact information provided with your purchase or visit the official toocki website. Please retain your proof of purchase for warranty purposes.
