iRobot Roomba Combo j5 Robot Vacuum & Mop User Manual

Brand: iRobot | Model: j517020

INTRODUCTION

The iRobot Roomba Combo j5 Robot Vacuum & Mop is designed for both wet and dry floor cleaning. It converts from a powerful vacuum to a mop solution with a simple bin switch. This intelligent device learns your home and routines, offering custom cleaning control and PrecisionVision navigation to avoid obstacles like pet waste, cords, socks, and shoes for worry-free cleaning.

WHAT'S IN THE BOX

- 1 Roomba j5 Robot Vacuum
- 1 Roomba Combo Bin
- 1 Mopping Pad
- 1 Home Base Charging Station
- 1 Drip Tray
- 1 Filter
- Side Brush

SETUP

Follow these steps to set up your Roomba Combo j5 for the first time:

1. **Charge the Robot:** Place the Roomba Combo j5 on its Home Base Charging Station. Ensure it is properly docked and charging. The indicator light will show charging status.

2. **Download the iRobot Home App:** Download the iRobot Home App from your device's app store (available on iOS and Android).
3. **Connect to Wi-Fi:** Open the app and follow the on-screen instructions to connect your Roomba Combo j5 to your home Wi-Fi network. This allows for smart mapping, scheduling, and remote control.
4. **Initial Mapping Run:** Once connected, initiate an initial mapping run through the app. The robot will explore your home to create a detailed map, which is essential for efficient cleaning and custom zone creation.

OPERATING INSTRUCTIONS

The Roomba Combo j5 offers versatile cleaning modes:

Vacuuming

The robot utilizes a powerful 4-Stage Cleaning System to pull in dirt, debris, and pet hair. Proprietary Dirt Detect Technology allows it to focus on dirtier areas for a more thorough clean when the Vacuum Bin is installed.

Image: A detailed view of the underside of the Roomba Combo j5, highlighting its 4-stage cleaning system, including the edge-sweeping brush, dual multi-surface rubber brushes, and power-lifting suction. This system is designed for comprehensive dirt and debris pickup.

**Focuses on the dirtier areas with
Dirt Detect™ Technology**

Image: The Roomba Combo j5 robot vacuum on a hardwood floor, with visual indicators showing its Dirt Detect Technology identifying and focusing on a concentrated area of dirt. This feature ensures more thorough cleaning where it's needed most.

Mopping

To activate mopping, simply switch to the Roomba Combo Bin and ensure the specialized microfiber pad is attached. Fill the bin with water or a compatible cleaning solution. The robot will then vacuum and mop simultaneously, leaving hard floors shiny and dust-free.

Vacuum only or vacuum and mop with the swap of a bin.

Smart Navigation & Obstacle Avoidance

With PrecisionVision Navigation and a built-in camera, your robot identifies and avoids obstacles of all sizes, including pet waste, charging cords, socks, and shoes. The P.O.O.P. (Pet Owner Official Promise) guarantees avoidance of pet waste, or iRobot will replace your robot for free (additional terms apply).

Detects and avoids objects

Custom Cleaning Control

Use the iRobot Home App to create No Mop Zones, ensuring the robot avoids mopping carpets when the mop bin is in use. Advanced navigation allows the Roomba to clean in neat, efficient rows for a wall-to-wall clean without missing a spot.

Mops where you want,
skips where you don't

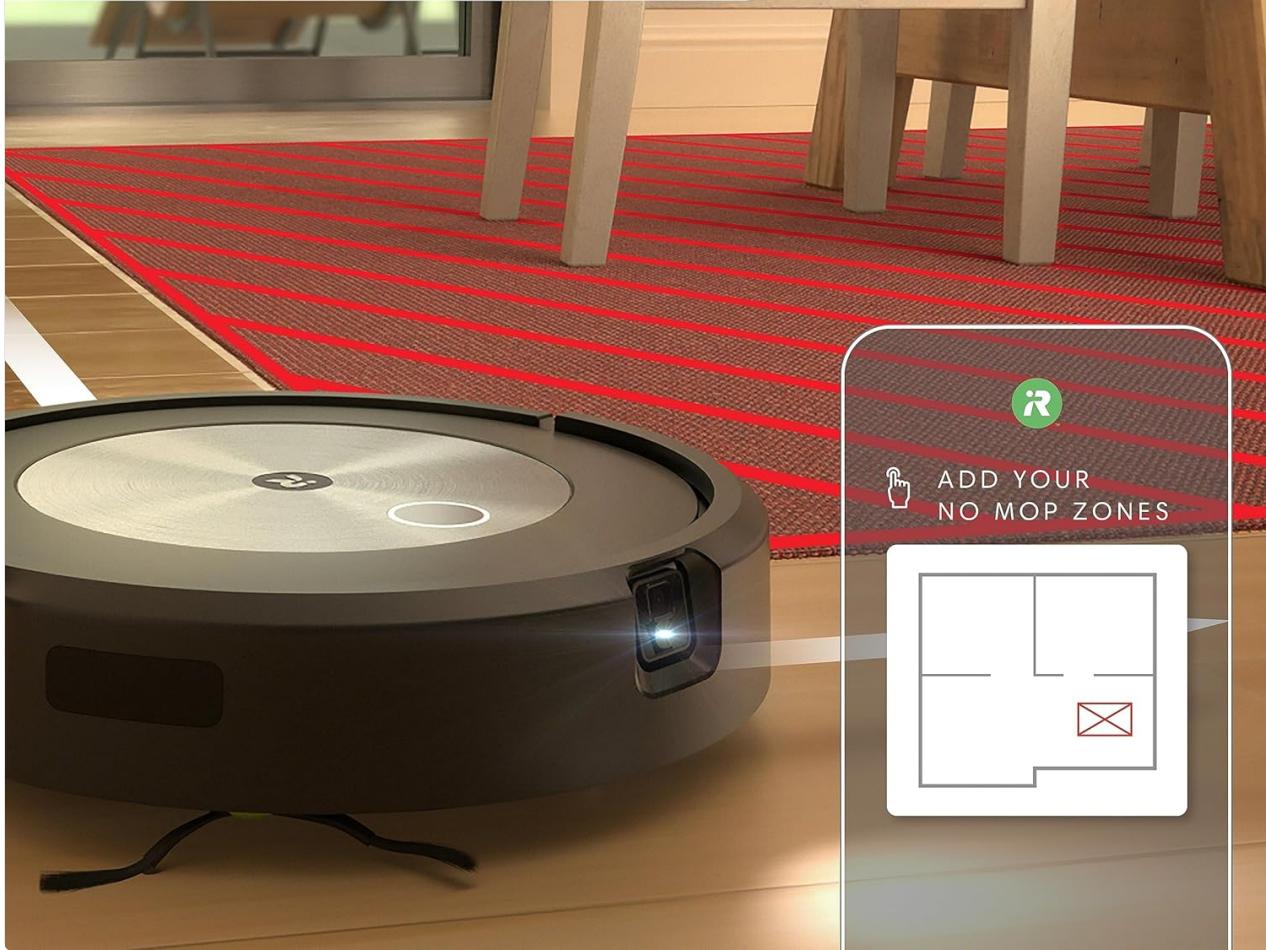

Image: The Roomba Combo j5 robot vacuum approaching a rug, with an overlay showing a "No Mop Zone" on a digital map, indicating its ability to avoid mopping designated areas like carpets.

**Cleans in neat rows,
navigates around furniture**

MAINTENANCE

Regular maintenance ensures optimal performance of your Roomba Combo j5.

Emptying the Dust Bin

The dust bin is easily accessible and can be emptied by pressing a button on the side of the robot. The Clean Base Automatic Dirt Disposal (sold separately) allows for up to 60 days of worry-free vacuuming by automatically emptying the bin.

Video: I'm Obsessed! This video demonstrates the ease of emptying the dust bin on the Roomba Combo j5, showing how the bin detaches and can be cleaned. It also briefly highlights the self-emptying feature of the Clean Base.

Cleaning Brushes and Filter

The dual multi-surface rubber brushes are designed to minimize hair tangles, making them easy to clean. The filter can also be easily removed and tapped clean. The dust bin itself can be washed with warm water and soap (do not get the filter wet).

Video: Is this J5 plus Worth Any Good? Watch Before Buying! This video compares the J5's brush design to older models, emphasizing the J5's rubber brushes that prevent hair tangling, making maintenance easier. It also shows the removable dustbin and filter.

TROUBLESHOOTING

- Robot Not Starting/Connecting:** Ensure the robot is fully charged and properly docked. Check your Wi-Fi connection and ensure the iRobot Home App is updated. Refer to the app for specific error messages.
- Bin Full Error:** If the robot stops and indicates a full bin despite it being empty, check the bin's sensor for dust or debris and clean it.
- Hair Tangling:** While the rubber brushes are designed to prevent tangles, occasional hair buildup may occur. Regularly remove and clean the brushes as described in the Maintenance section.
- Navigation Issues:** Ensure the robot's camera and sensors are clean. Clear excessive clutter or small objects from the cleaning path. If issues persist, try re-mapping your home through the app.

SPECIFICATIONS

Feature	Detail
Brand	iRobot
Model Name	Roomba Combo j5
Model Number	j517020
Product Dimensions	3.4" L x 13.3" W x 13.3" H
Item Weight	7 pounds
Color	Graphite
Battery Life	180 minutes
Power Source	Battery Powered
Compatible Devices	Amazon Echo, Google Home
Special Features	Smart Mapping, Clean by room, Obstacle Avoidance, Vacuum & mop
