2. PACKAGE CONTENTS

- HOCO BS41 Plus Outdoor Wireless Speaker
- 2 x Wireless Microphones
- Charging Cable
- User Manual

3. PRODUCT OVERVIEW

Familiarize yourself with the various components and controls of your HOCO BS41 Plus speaker.

An angled view of the HOCO BS41 Plus speaker, highlighting its side panel with ports and controls, one microphone securely placed in its dock, and the second microphone detached.

Controls and Ports (General)

- **Power Button:** Turns the speaker on/off.
- **Mode Button (M):** Switches between input modes (Bluetooth, TF Card, USB, AUX).
- **Volume Knobs:** Adjusts main speaker volume and potentially microphone volume/echo.
- **Microphone Inputs/Docks:** For wireless microphones.
- **USB Port:** For USB drive playback.
- **TF Card Slot:** For TF card playback.

- **AUX Input:** For connecting external audio devices via 3.5mm cable.
- **Charging Port:** For charging the speaker.
- **LED Indicator:** Shows charging status and mode.

4. SETUP GUIDE

4.1. Charging the Speaker

Before first use, fully charge the speaker. Connect the charging cable to the speaker's charging port and a suitable power adapter (not included). The charging indicator will illuminate. A full charge takes approximately 5 hours.

4.2. Powering On/Off

Press and hold the power button located on the control panel to turn the speaker on or off.

4.3. Bluetooth Pairing

Follow these steps to connect your device via Bluetooth:

1. Turn on the speaker. It will automatically enter Bluetooth pairing mode, indicated by a flashing LED.
2. Enable Bluetooth on your device (smartphone, tablet, etc.).
3. Search for "HOCO BS41" in the list of available Bluetooth devices.
4. Select "HOCO BS41" to connect. A confirmation sound will indicate successful pairing.
5. The speaker will automatically reconnect to the last paired device when powered on, if available.

5. OPERATING INSTRUCTIONS

5.1. Mode Selection

Press the 'M' (Mode) button repeatedly to cycle through the available input modes: Bluetooth, TF Card, USB, and AUX input.

5.2. Bluetooth Playback

Once successfully paired, play audio from your connected device. Use the speaker's main volume knob or your device's volume controls to adjust the sound level.

5.3. TF Card / USB Playback

Insert a TF card or USB drive containing MP3 or other compatible audio files into the respective slot. The speaker will automatically switch to the corresponding mode and begin playback. Use the speaker's controls for track navigation (if available) and volume adjustment.

5.4. AUX Input

Connect an external audio device (e.g., MP3 player, laptop) to the speaker's AUX input using a 3.5mm audio cable. The speaker will automatically switch to AUX mode. Control playback and volume from the connected device and the speaker's main volume knob.

5.5. Karaoke Function (Double Microphone)

The HOCO BS41 Plus supports two wireless microphones for an interactive karaoke experience.

1. Ensure both wireless microphones are charged and powered on. They will automatically connect to the speaker.
2. Adjust microphone volume and echo effects using the dedicated controls on the speaker's control panel.
3. For accompaniment, the speaker may feature a "one-key elimination" function to reduce or remove

vocals from original songs, allowing you to sing along. Refer to the specific button labels on your speaker.

Light up Your Party!

A man with a beard and mustache, wearing a white t-shirt, is singing passionately into a black handheld microphone. In the foreground, a black hoco. BS41 portable speaker is shown. The speaker has a silver mesh grille, two circular control knobs on the left and right sides, and a small 'hoco.' logo in the center. A clear, faceted disco ball sits on top of the speaker, projecting a vibrant rainbow of light upwards. The background is dark and out of focus, suggesting an indoor party setting with colorful ambient lighting.

A person is shown enthusiastically singing into one of the wireless microphones, with the HOCO BS41 Plus speaker in the foreground emitting vibrant, colorful light effects from its central disco ball.

5.6. Volume Control

Use the main volume knob on the speaker to adjust the overall sound output. Separate controls may be available for microphone volume and echo effects.

5.7. Lighting Effects

The speaker features a built-in disco light that can synchronize with the music, creating a dynamic visual experience. Specific controls for lighting effects may be present on the speaker's panel.

6. MAINTENANCE

6.1. Cleaning

Wipe the speaker with a soft, dry cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the surface and internal components.

6.2. Storage

Store the speaker in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity.

When storing for extended periods, ensure the battery is partially charged (around 50%) to maintain battery health.

6.3. Battery Care

To prolong battery life, fully charge the speaker before first use and recharge it regularly, even if not in use for extended periods. Avoid fully depleting the battery frequently. Do not expose the battery to excessive heat or puncture it.

7. TROUBLESHOOTING

7.1. No Power

- Ensure the speaker is fully charged.
- Check the charging cable and adapter for proper connection and functionality.
- Press and hold the power button for a few seconds to ensure it's not just a short press.

7.2. No Sound

- Check the volume levels on both the speaker and your connected device.
- Ensure the correct input mode (Bluetooth, TF Card, USB, AUX) is selected.
- If using Bluetooth, ensure the device is properly paired.
- If using AUX, ensure the cable is fully inserted and functional.

7.3. Bluetooth Disconnection or Pairing Issues

- Ensure the speaker and your device are within the effective Bluetooth range (typically up to 10 meters) and there are no major obstructions.
- Turn off Bluetooth on your device, then turn it back on and try re-pairing.
- Forget "HOCO BS41" from your device's Bluetooth list and attempt to pair again.
- Restart both the speaker and your connected device.

7.4. Microphone Not Working

- Ensure the microphones are charged and powered on.
- Check microphone volume and echo settings on the speaker's control panel.
- Ensure the microphones are within range of the speaker.

8. SPECIFICATIONS

An internal diagram or cutaway view of the HOCO BS41 Plus speaker, emphasizing the size and type of its audio drivers: a 5.25-inch full-range speaker and a 1.5-inch high-pitched speaker, designed for powerful and clear sound transmission.
