# Tide HE Laundry Detergent Original Scent 146 Oz Pump Bottle User Manual

Model: 60554/07618 | Brand: Tide

## INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Tide HE Laundry Detergent, Original Scent, 146 Oz Pump Bottle. This high-powered, grease-cutting formula is designed to remove tough institutional stains and makes pre-treating laundry easy. It is phosphate-free and safe for septic systems.

## SETUP AND DISPENSING

The Tide HE Laundry Detergent comes in a convenient pump bottle designed for easy dispensing. Follow these steps for optimal use:

1. **Prepare the Bottle:** Ensure the bottle is placed on a stable, flat surface, preferably with the spout facing outwards over a laundry tub or a measuring cup.

## OPERATING INSTRUCTIONS

---

Tide HE Laundry Detergent is formulated for High-Efficiency (HE) washing machines. Always follow your washing machine's manufacturer instructions for adding detergent.

### Dosage Guidelines:

The measuring cup provided with the bottle has fill lines to guide your dosage. Refer to the image below for visual guidance.

- **Medium Loads:** Fill to Bar 1 (approximately 80% of the 1/4 cup mark).
- **Large Loads:** Fill to Bar 3 (approximately 80% of the 1/2 cup mark).
- **Full Loads:** Fill to Bar 5 (approximately 80% of the 3/4 cup mark).

For heavily soiled loads, use more detergent as needed, up to the 'MAX' line on the measuring cup. For cold water washing, ensure the detergent is suitable for cold water use (indicated by a snowflake symbol on the label).

### Pre-treating Stains:

For tough stains, apply a small amount of Tide HE Laundry Detergent directly to the stain. Rub gently and let it sit for 5-10 minutes before washing as usual. Do not allow the detergent to dry on the fabric.

## MAINTENANCE

---

To maintain the quality and functionality of your Tide HE Laundry Detergent bottle:

- Store the bottle in a cool, dry place away from direct sunlight.
- Keep the cap tightly closed when not in use to prevent spills and maintain product freshness.
- Clean the measuring cup after each use to prevent residue buildup.
- Do not reuse the empty container for other liquids or beverages.

## TROUBLESHOOTING

---

If you encounter any issues with your Tide HE Laundry Detergent:

- **Slow Dispensing:** Ensure the cap is twisted to the 'VENT' position. If your bottle has an adjustable dial, try adjusting it to increase the flow.
- **Residue on Clothes:** Ensure you are using the correct dosage for your load size and machine type (HE). Overdosing can lead to residue. If using cold water, ensure the detergent is fully dissolved.
- **Stains Not Removed:** For stubborn stains, pre-treat the garment by applying a small amount of detergent directly to the stain before washing. Ensure the water temperature is appropriate for the fabric and stain type.

## SPECIFICATIONS

---

Feature	Detail
Product Dimensions	19.02 x 12.72 x 11.89 inches
Item Model Number	60554/07618
Brand Name	Tide

Feature	Detail
Item Form	Liquid
Number of Items	1
UPC	030772076187
Unit Count	146.0 Fluid Ounces
Item Weight	154 Ounces (9.63 Pounds)
Material Type Free	Phosphate Free
Scent	Original
Formulation Type	Concentrated
Specific Uses For Product	Chemical Free, Septic Safe, Whitening
