

## Maxima 09240030

# Maxima Horeca Dishwasher 40x40cm User Manual

Model: 09240030

## INTRODUCTION

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your Maxima Horeca 40x40cm Dishwasher. Please read these instructions carefully before using the appliance and keep them for future reference.

This front-loading dishwasher is designed for commercial use, ideal for cleaning glassware, plates, cutlery, cups, saucers, pots, and kitchen utensils in professional kitchens. It features integrated drain, rinse, and soap pumps for optimal performance.

## SAFETY INSTRUCTIONS

- Ensure the appliance is properly grounded before use.
- Do not operate the dishwasher with a damaged power cord or plug.
- Keep children and unauthorized personnel away from the appliance during operation.
- Use only detergents and rinse aids specifically designed for commercial dishwashers.
- Never open the door during a wash cycle, as hot water and steam can cause burns.
- Disconnect the power supply before performing any cleaning or maintenance.
- Do not spray water directly onto the control panel or electrical components.

## PRODUCT OVERVIEW

The Maxima Horeca Dishwasher is constructed from durable stainless steel and features special ABS wash arms. It is designed for quiet operation, producing less than 65 dB.

**Figure 1:** Front view of the Maxima Horeca Dishwasher with the door closed, showcasing its compact and professional design.

**Figure 2:** Front view of the dishwasher with the door open, revealing the spacious interior for loading dishes.

### Key Features:

- Quick 2-minute wash cycle.
- Low water consumption: only 2.5 liters per cycle.
- Integrated rinse pump, soap pump, and drain pump.
- Quiet operation, less than 65 dB.
- Rinse temperature of 65 °C for rapid drying.
- IPX4 protected control panel.
- Equipped with a non-return valve.

### SETUP AND INSTALLATION

Before installation, ensure the dishwasher is placed on a stable, level surface. Allow adequate space for ventilation and access to connections.

### Package Contents:

- Maxima Horeca Dishwasher unit

- 2 x Glass baskets (40 x 40 cm)
- 1 x Plate insert
- 1 x Cutlery basket
- 1 x Supply hose
- 1 x Drain hose

### Connections:

1. **Water Supply:** Connect the provided supply hose to a cold water tap with appropriate pressure. Ensure all connections are secure to prevent leaks.
2. **Drainage:** Connect the drain hose to a suitable drain point. The dishwasher is equipped with a drain pump. Ensure the drain hose is properly routed and secured, preventing kinks or blockages. The non-return valve ensures water flows in one direction only.
3. **Electrical Connection:** Connect the dishwasher to a 230 V/50 Hz/1 phase power outlet. The appliance requires 2850 watts. Ensure the electrical supply meets these requirements and is properly grounded.

**Figure 3:** Rear view of the dishwasher, illustrating the connections for the water supply and drain hoses.

---

The control panel is designed for ease of use and is IPX4 protected against water splashes.

**Figure 4:** Detailed view of the control panel, featuring the power button, program selection, and start button.

1. **Loading Dishes:** Place dishes, glasses, and cutlery into the appropriate baskets. Ensure items are not overlapping to allow water to reach all surfaces. The maximum height for glasses/plates is 280 mm.
2. **Add Detergent and Rinse Aid:** The dishwasher is equipped with integrated soap and rinse aid pumps. Ensure the detergent and rinse aid reservoirs are filled with suitable commercial dishwasher liquid.
3. **Power On:** Press the On/Off button on the control panel.
4. **Select Program:** This model typically features a standard 120-second wash program.
5. **Start Cycle:** Press the Start button to begin the wash cycle. The dishwasher will automatically fill with water, heat it to 60 °C for washing, and then rinse at 65 °C for quick drying.
6. **Cycle Completion:** Once the 120-second cycle is complete, the dishwasher will stop. Carefully open the door and remove the clean, dry dishes.

## MAINTENANCE AND CLEANING

---

Regular cleaning and maintenance are crucial for the longevity and optimal performance of your dishwasher. Always disconnect the power supply before cleaning.

**Figure 5:** Interior of the dishwasher with the door open, highlighting the wash arms and the removable filter at the bottom.

- **Exterior Cleaning:** Wipe the exterior stainless steel surfaces with a damp cloth and mild detergent. Avoid abrasive cleaners.
- **Interior Cleaning:** The interior walls and ABS wash arms can be cleaned with a cloth and sufficient water.
- **Filter Cleaning:** Regularly remove and clean the filter located at the bottom of the wash chamber. This prevents food particles from recirculating and ensures efficient drainage.
- **Wash Arms:** Check the wash arms for any clogged nozzles. If necessary, remove the arms and rinse them under running water to clear any blockages.

**Figure 6:** Close-up view of the lower wash arm, showing the spray nozzles that distribute water during the wash cycle.

**Figure 7:** Detailed view of the dishwasher's interior base, featuring the removable filter and the heating element.

## TROUBLESHOOTING

This section provides solutions to common issues you might encounter. For problems not listed here, contact customer support.

Problem	Possible Cause	Solution
Dishwasher does not start	No power supply; Door not closed properly	Check power connection; Ensure door is securely latched
Poor cleaning results	Clogged spray arms; Incorrect loading; Insufficient detergent	Clean spray arm nozzles; Reload dishes correctly; Check detergent levels
Water not draining	Clogged drain filter; Kinked drain hose	Clean drain filter; Straighten drain hose
Excessive noise	Dishes interfering with spray arms; Loose components	Rearrange dishes; Inspect for loose parts

## SPECIFICATIONS
