Yaheetech Full Size Metal Platform Bed Instruction Manual

Model: 001-613996 | Brand: Yaheetech

INTRODUCTION

This instruction manual provides detailed guidance for the assembly, operation, and maintenance of your Yaheetech Full Size Metal Platform Bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

WARNING:

- Exercise caution around sharp edges during assembly and handling.
- Do not exceed the maximum weight capacity of 800 lb (approximately 360 kg). Overloading may cause damage to the bed frame and potential injury.
- Ensure all bolts and connections are securely tightened before use. Periodically check and re-tighten as necessary.
- Keep small parts away from children during assembly to prevent choking hazards.
- Assemble the bed frame on a soft, clean surface to prevent scratching the product or your floor.

PARTS LIST AND HARDWARE

Before assembly, verify that all components listed below are present. If any parts are missing or damaged, please contact Yaheetech customer support.

Component	Quantity
Headboard	1
Footboard	1
Side Rails	2
Support Slats	(Quantity varies by design, typically 10-12)

Component	Quantity
Center Support Legs	(Quantity varies by design, typically 3-5)
Hardware Pack (Bolts, Washers, Allen Wrench)	1 set

Refer to the included installation manual for a precise list of parts and hardware specific to your package.

SETUP AND ASSEMBLY

Assembly is designed to be straightforward and can typically be completed within an hour. It is recommended to have two people for easier assembly.

- 1. Unpack and Identify Parts:** Carefully unpack all components and lay them out on a soft, clean surface. Match each part to the corresponding label in the included installation manual.

2. **Attach Side Rails to Headboard and Footboard:** Connect the side rails to the headboard and footboard using the provided bolts and the Allen wrench. Ensure all connections are firm but do not fully tighten until all major components are in place.

Image: A close-up view illustrating how L-shaped plates are used to fasten the bed frame components, ensuring a stable and secure structure.

3. **Install Support Slats:** Place the metal support slats across the frame. For slats that require insertion into notches, align the metal pipe with the notch and press firmly to secure. Ensure all slats are evenly spaced and properly seated.

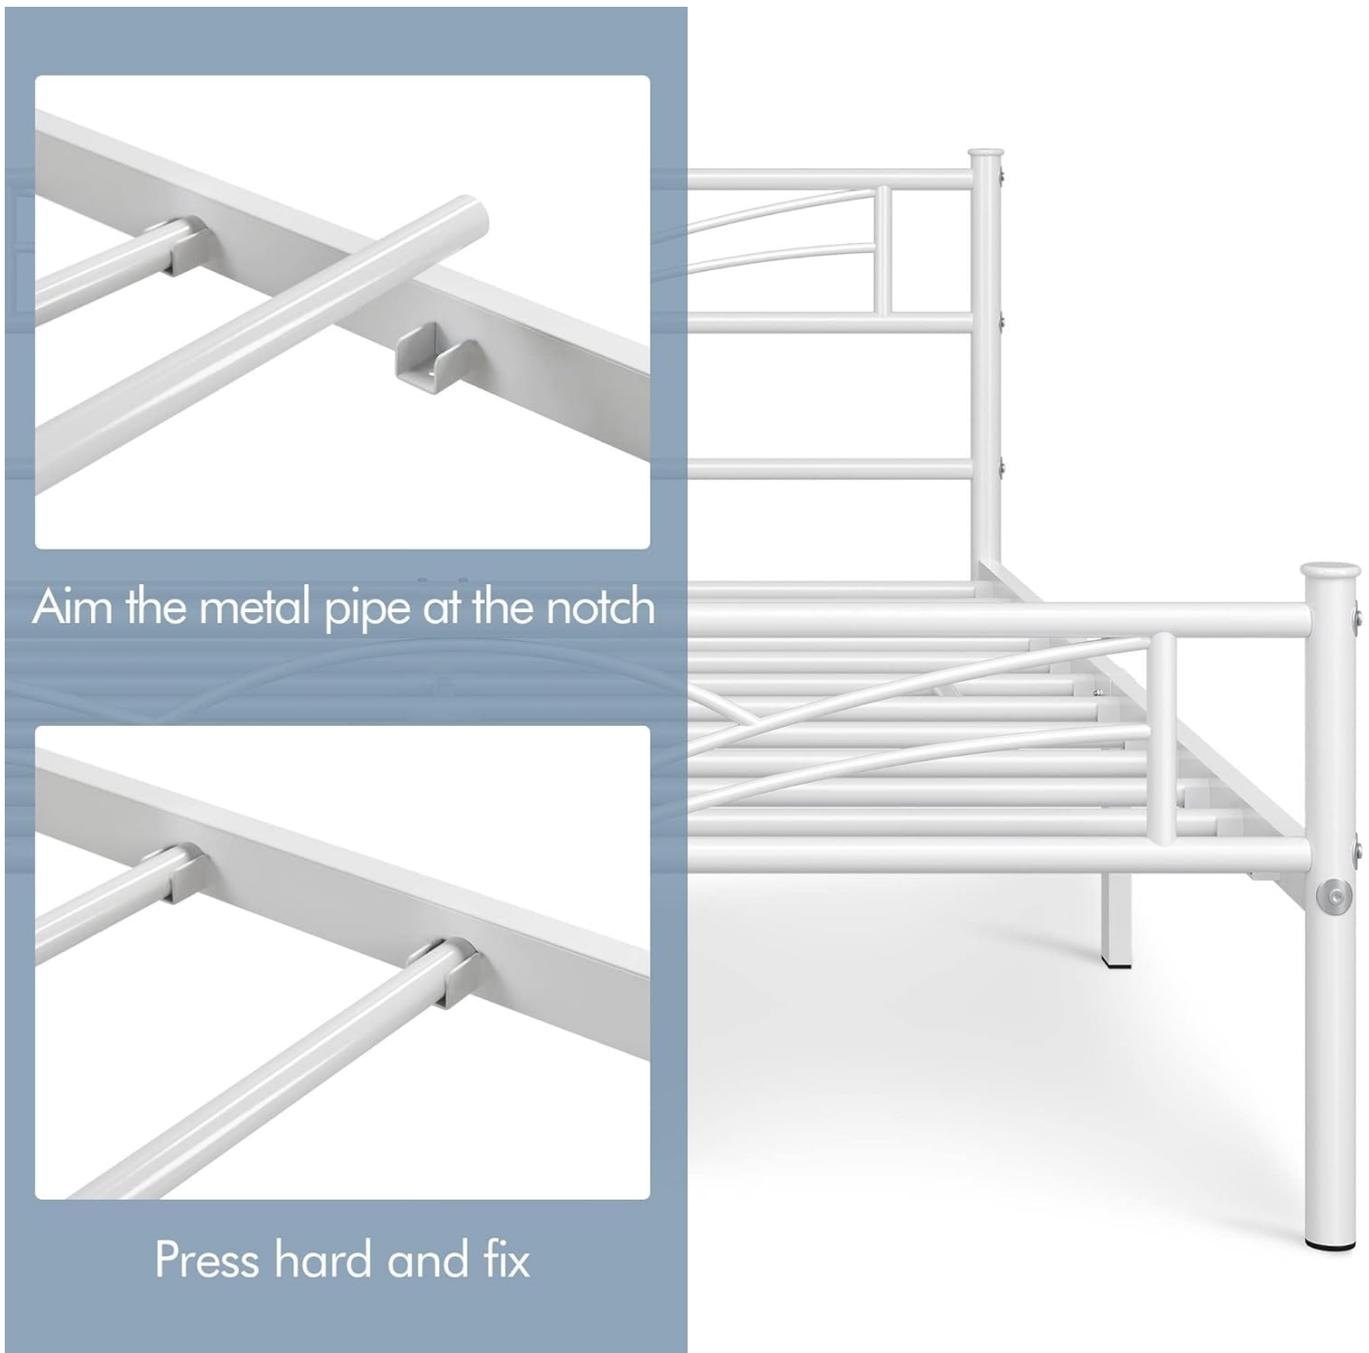

Image: Two steps demonstrating slat installation: 1) Aligning the slat with the slot, and 2) Pressing to secure the slat into place.

4. **Attach Center Support Legs:** If your model includes center support legs, attach them to the designated points on the frame. These provide additional stability and weight distribution.
5. **Final Tightening:** Once all components are assembled, go back and fully tighten all bolts. This ensures the bed frame is sturdy and stable.

This video highlights the timeless vintage charm, criss-cross design headboard, no box spring requirement, comfortable off-ground height, sturdy foundation, and classy yet modern aesthetic.

OPERATING INSTRUCTIONS (USAGE)

Your Yaheetech Metal Platform Bed is designed for optimal comfort and support without the need for a box spring. Simply place your mattress directly onto the sturdy metal slats.

- **Mattress Placement:** Position your full-size mattress (compatible with 75" L x 54" W) centrally on the bed frame. The side rails are designed to be higher than the inserted slats to prevent significant mattress sliding.

Built-in slats prevent the mattress from sliding

✓ No Significant Sliding

✗ Easy Sliding

MAINTENANCE

- **Cleaning:** Wipe clean with a dry cloth. Avoid using harsh chemicals or abrasive cleaners, which may damage the powder-coated finish.
- **Regular Checks:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten as needed to maintain the bed frame's stability and prevent squeaking.
- **Floor Protection:** The bed frame is equipped with protective foot pads to prevent scratches on your floors. Ensure these pads are intact and in place.

A cloud-inspired headboard creates a striking statement.

Superior metal tubes ensure extended years of use.

A ample under-bed room maximizes your storage space.

Bottom rubber caps keep your floor away from damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose bolts or incorrect assembly.	Ensure all bolts are fully tightened. Review assembly steps to confirm correct installation of all parts, especially L-shaped plates and support legs.
Squeaking noises.	Loose connections or friction between metal parts.	Tighten all bolts. If squeaking persists, disassemble and reassemble, ensuring all parts are correctly aligned. Applying a small amount of lubricant (e.g., silicone spray) to connection points can help.

Problem	Possible Cause	Solution
Mattress slides on the frame.	Mattress not properly seated or excessive movement.	Ensure the mattress is centered on the frame. The design includes features to minimize sliding, but extreme movement may still cause slight shifts. Consider using a non-slip mattress pad if sliding is significant.
Missing parts upon arrival.	Packaging error or transit damage.	Contact Yaheetech customer support immediately with your order details and a list of missing parts.

SPECIFICATIONS

Attribute	Detail
Model Number	001-613996
Standard Size	Full
Product Dimensions (L x W x H)	78" x 54.5" x 35"
Material	Iron
Weight Capacity	800 lb (approx. 360 kg)
Applicable Mattress Size	75" L x 54" W
Ground Clearance	12.6 Inches
Color	White
Finish Type	Powder Coated
Assembly Required	Yes

Full Size

Max. Weight
Capacity
360 kg
