## LINNIW FSV001

# LINNIW FSV001 HEPA Filter Instruction Manual

For Cordless Stick Vacuum Cleaners

## 1. PRODUCT OVERVIEW

---

This manual provides instructions for the LINNIW FSV001 HEPA Filter, designed to maintain optimal performance and air quality when used with compatible cordless stick vacuum cleaners.

Image 1.1: Four LINNIW FSV001 HEPA filters and a cleaning brush, as included in the package.

## 2. COMPATIBILITY

The LINNIW FSV001 HEPA Filters are compatible with the following cordless stick vacuum cleaner models:

- Fabuletta FSV001
- Fabuletta FSV101
- VacLife VL732
- Girnoor G160
- Girnoor G165
- Afoddon A300
- Lubluelu 202
- Oraimo OSV-102
- Besswin W26

- Nequare S181

**Important Note:**

There are different versions of FSV101 and FSV001 vacuum cleaners. Please verify the height and design of your existing filter to ensure proper fit. If your current filter has tabs, ensure the replacement filter matches this design. If you encounter compatibility issues, please contact customer support.

**Please Check Your Fabuletta Filter Has Tabs or Not,  
As There are Different Versions of The Vaccum.  
If not, please purchase the other one(ASIN:B0CZ6RVTQQ)**

Image 2.2: Comparison of filter designs, emphasizing the presence or absence of a tab for proper fit.

### 3. INSTALLATION

1. Ensure the vacuum cleaner is turned off and unplugged (if applicable).
2. Locate the filter compartment on your vacuum cleaner. Refer to your vacuum cleaner's instruction manual for specific details.
3. Remove the old filter by twisting or pulling it out, depending on your vacuum model.
4. Insert the new LINNIW FSV001 HEPA Filter into the compartment, ensuring it is seated correctly and securely.
5. Close the filter compartment.

The filters are designed for easy replacement to ensure continuous optimal performance.

### 4. OPERATING PRINCIPLES

The FSV001 HEPA filter utilizes an advanced filtration system to capture airborne particles. Its pleated media design increases the surface area, allowing for efficient particle capture while maintaining good airflow.

- **High Efficiency:** Effectively captures 99.97% of airborne particles as small as 0.3 microns.
- **Particle Capture:** Designed to trap dust, hair, pet fur, lint, pollen, smoke particles, and volatile organic compounds (VOCs).

## Advanced Filtration System

captures over 99.97% of airborne contaminants as small as 0.3 microns in size.

Image 4.2: Diagram illustrating the high-efficiency filtration system, including the HEPA filter.

## 5. MAINTENANCE

### 5.1 Cleaning the Filter

To prolong the life of your filter and maintain optimal vacuum performance, regular cleaning is recommended. The LINNIW FSV001 HEPA filter is washable and reusable.

1. Remove the filter from the vacuum cleaner.
2. Gently tap the filter to dislodge loose dust and debris.
3. Use the included cleaning brush to remove stubborn particles from the pleats.
4. Rinse the filter under cool, running water until the water runs clear.
5. Allow the filter to air dry completely for at least 24 hours before reinstallation. **Do not use the filter if it is still damp, as this can damage the vacuum cleaner.**

# Keep Your Air Fresh & Clean

Get Filter

Keep Your Air Fresh & Clean  
Dust, hair, pet fur, lint.

The advertisement features a photograph of two dogs, a white one and a brown one, sitting on a bed. To the right of the dogs is a black and white vacuum filter unit. Above the filter unit are five circular icons: a green tree, a yellow cigarette, a yellow hand holding a leaf, a blue snowflake, and a green cat. A blue button with the text 'Get Filter' is positioned to the right of the filter unit. Below the filter unit is a blue banner with the text 'Keep Your Air Fresh & Clean' and 'Dust, hair, pet fur, lint.' and a white arrow pointing to the right.

Image 5.2: Hands washing the filter under running water.

## 5.2 Filter Replacement

It is recommended to change the filter every 3 months to ensure optimal filtration and vacuum performance. The package includes 4 filters for extended use.

## 6. TROUBLESHOOTING

- **Filter Does Not Fit:**

As noted in the compatibility section, some vacuum models (especially FSV101 and FSV001) have different filter versions. Please check if your original filter has tabs. If the purchased filter does not fit, contact customer support for assistance.

- **Reduced Suction Power:**

A clogged filter can significantly reduce your vacuum's suction power. Clean the filter as described in Section 5.1. If suction does not improve, replace the filter with a new one.

- **Unusual Odors:**

Odors can indicate a dirty filter. Clean or replace the filter. Ensure the filter is completely dry before reinstallation to prevent mold or mildew growth.

## 7. SPECIFICATIONS

Feature	Detail
Brand	LINNIW
Model	FSV001 HEPA Filter
Material Type	HEPA
Product Dimensions	Approximately 2.9 x 5.2 x 5.2 inches (7.4 x 13.2 x 13.2 cm)
