## Giociv L02

# Giociv Interactive Cat Toy Ball L02 User Manual

Model: L02

## INTRODUCTION

Thank you for choosing the Giociv Interactive Cat Toy Ball L02. This innovative toy is designed to provide engaging playtime for your indoor cats, stimulating their natural hunting instincts with motion activation, chirping sounds, and various rolling modes. Please read this manual carefully to ensure proper use and maintenance of your new cat toy.

## PRODUCT FEATURES

- **Strong Driver:** Designed to roll effectively across various surfaces including ceramic tile, wooden floors, low-pile rugs, and even high-pile carpets. Note that rolling speed may vary by surface type.
- **Rechargeable Battery:** Equipped with a Lithium Polymer battery, rechargeable via a 5V/1A USB-C adapter (cable included, adapter not included).
- **Motion Activation:** Pets can activate the toy with a paw touch, making it ideal for interactive play even when you are away.
- **Three Working Modes:**
  - **Fast Mode (Blue Light):** Rolls quickly, suitable for high-pile rugs.
  - **Slow Mode (Purple Light):** Moves at a moderate pace, ideal for smooth floors.
  - **Interactive Mode (Yellow Light):** Activates only when nudged by your cat.
- **Chirping Sound:** Features realistic bird sounds to attract cats. The sound can be toggled on/off.
- **Automatic Sleep & Wake-up:** The ball enters sleep mode after 5 minutes of inactivity and wakes up once every 2 hours, or instantly with a touch.
- **Replaceable Rope Tail:** Comes with a rope tail accessory to enhance play and mimic prey.

## SETUP

### 1. Charging the Toy

Before first use, fully charge the cat toy ball. Use only a **5V/1A adapter** for charging. The charging port is a USB-C type. A red light will flash regularly during low battery, and remain solid red when fully charged. Charging typically takes approximately 2 hours.

Image: The Giciv cat toy ball showing its USB-C charging port and indicating that only a 5V/1A adapter should be used.

### 2. Attaching the Rope Tail

The toy comes with a replaceable rope tail. To attach it, gently twist the clear plastic connector of the rope tail into the designated slot on the toy ball until secure.

Image: A hand demonstrating how to easily attach the red rope tail to the Giociv cat toy ball by twisting the connector.

## OPERATING INSTRUCTIONS

### 1. Power On/Off and Mode Switching

The toy features a single power button for control:

- **Power On:** Long press the button for 2 seconds. The toy will start in Fast Mode (Blue Light).
- **Switch Modes:** Short press the button to cycle through modes: Fast Mode (Blue Light) → Slow Mode (Purple Light) → Interactive Mode (Yellow Light).
- **Power Off:** After cycling through all modes, a fourth short press will turn the toy off.

# 3 Working Mode

Long press 2s to power on

First press – Fast Mode  
toy rolls rapidly

Second press – Slow Mode  
toy moves slowly

Third press –Interactive Mode  
toy moves when nudged by cats

Fourth press – Power off

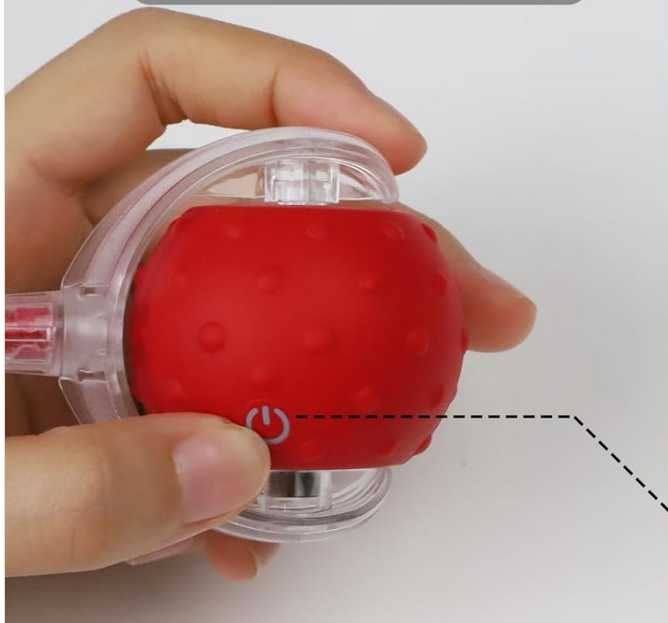

Image: Visual guide to the three working modes: Fast (Blue light) for high-energy cats, Slow (Purple light) for general play, and Interactive (Yellow light) for touch-activated engagement.

## 2. Chirping Sound Control

To toggle the realistic bird chirping sound on or off, quickly press the power button twice.

# Chirping Cat Toy

Realistic bird sound stimulation  
kitty join in hunting game

Quickly press twice to turn off/on the bird songs

Image: A cat observing the Giociv toy ball, illustrating its chirping sound feature which can be turned off by double-pressing the button.

### 3. Automatic Sleep and Wake-up

The toy is designed to conserve battery and keep your cat engaged:

- After 5 minutes of continuous play, the toy will enter standby (sleep) mode if no interaction is detected.
- It will automatically wake up once every 2 hours to check for interest.
- A paw touch will instantly reactivate the toy from sleep mode.

## MAINTENANCE

### Cleaning Fur from Gears

Over time, fur and debris may accumulate around the toy's internal gears, affecting its movement. To clean:

1. Gently pull out one of the clear plastic 'ears' that hold the red ball in place.
2. Carefully take out the red ball from its clear casing.
3. Remove any fur or debris stuck around the internal shaft and gears.
4. Re-install the red ball and secure the plastic 'ears' back into place.

# Using Guide

## PRODUCT DESCRIPTION

## HOW TO CLEAN HAIR ?

1 Pull to detach the principle part from the outer ring

2 Clean the hair on the shaft

Image: A step-by-step visual guide on how to open the toy, remove the inner ball, clean accumulated fur from the gears, and reassemble it.

## TROUBLESHOOTING

- **Ball Not Moving or Getting Stuck:** Check for accumulated fur around the gears and clean as per the Maintenance section. Ensure the toy is used on appropriate surfaces; rolling speed is slower on thick carpets.
- **Toy Not Activating:** Ensure the battery is charged. If in Interactive Mode (Yellow Light), the toy only moves when nudged.
- **Charging Issues:** Verify you are using a 5V/1A adapter. If the issue persists, contact customer support.
- **Chirping Sound Not Working:** Double-press the power button to toggle the sound on/off.
