SETUP AND ASSEMBLY

Your Tribesigns Nightstand is designed for straightforward assembly. All necessary parts are labeled, and hardware is included. It is recommended to have a Phillips head screwdriver and possibly a power drill (on a low torque setting) for faster and easier assembly, especially for securing screws.

Before You Begin:

- Unpack all components and verify against the parts list provided in your package.
- Lay out all parts on a clean, soft surface (e.g., a blanket or cardboard) to prevent scratches.
- Familiarize yourself with the hardware and tools required.

Assembly Steps:

1. **Attach the Metal Base:** Secure the gold metal base to the bottom panel of the nightstand using the provided screws. Ensure all connections are firm.
2. **Assemble the Main Frame:** Connect the side panels to the top and bottom panels. Use the designated dowels and cam locks/screws to create a sturdy frame.
3. **Install Drawer Slides:** Attach the drawer slides to the inner sides of the nightstand frame. Pay close attention to the orientation of the slides (left/right, front/back) as indicated in the detailed instructions.
4. **Assemble Drawers:** Construct each of the three drawers by connecting the front, back, and side panels. Insert the drawer bottom into the grooves. Attach the corresponding drawer slides to the sides of each drawer.
5. **Attach Handles:** Secure the gold handles to the front of each drawer.
6. **Insert Drawers:** Carefully slide each assembled drawer into its respective slot on the nightstand frame. Ensure smooth operation.
7. **Adjust Leveling Feet:** The nightstand is equipped with adjustable foot pads. Turn these pads at the bottom of the legs to level the unit on uneven floors and protect your flooring from scratches.

General Cleaning:

- Wipe surfaces regularly with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- For spills, wipe immediately with a dry cloth to prevent staining.

Structural Integrity:

- Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- The nightstand features adjustable foot pads. Ensure these are properly adjusted to keep the unit stable and prevent wobbling, which can stress joints.
- Avoid dragging the nightstand when moving it; always lift to prevent damage to the legs and your flooring.
