2. SAFETY INFORMATION

- **Assembly Note:** Please do not tighten screws until all the holes are aligned. Otherwise, some screw holes may be misaligned, potentially resulting in uneven furniture legs.
- Always ensure the furniture is assembled correctly and all fasteners are securely tightened to prevent tip-over risks and ensure stability.
- Do not exceed the maximum weight capacity: **400 lbs (181 kg) per seat** and **90 lbs (41 kg) for the built-in table**. Exceeding these limits can compromise stability and safety.
- Place the loveseat on a flat, stable surface to prevent wobbling or tipping.
- Keep children and pets away from the assembly area until the product is fully assembled and stable.

5. MAINTENANCE

Proper care will extend the life and appearance of your HAPPYGRILL Patio Loveseat.

- **Frame and Rattan:** Wipe the steel frame and PE rattan surfaces with a dry cloth to remove dust and debris. For more stubborn dirt, use a mild soap solution and a soft cloth, then rinse thoroughly and dry completely.
- **Cushions:** The cushion covers are made of non-woven fabric and feature zippers, allowing them to

be easily removed for cleaning. Hand wash or machine wash on a gentle cycle with cold water and mild detergent. Air dry only; do not tumble dry.

- **Acacia Wood Tabletop:** Wipe with a dry cloth. For spills, clean immediately with a damp cloth and mild soap, then dry thoroughly. Periodic application of wood oil can help maintain the wood's appearance and protect it from weathering.
- **Seasonal Storage:** During harsh weather conditions or off-season, it is recommended to cover the loveseat or store it indoors to protect it from extreme elements.

6. TROUBLESHOOTING

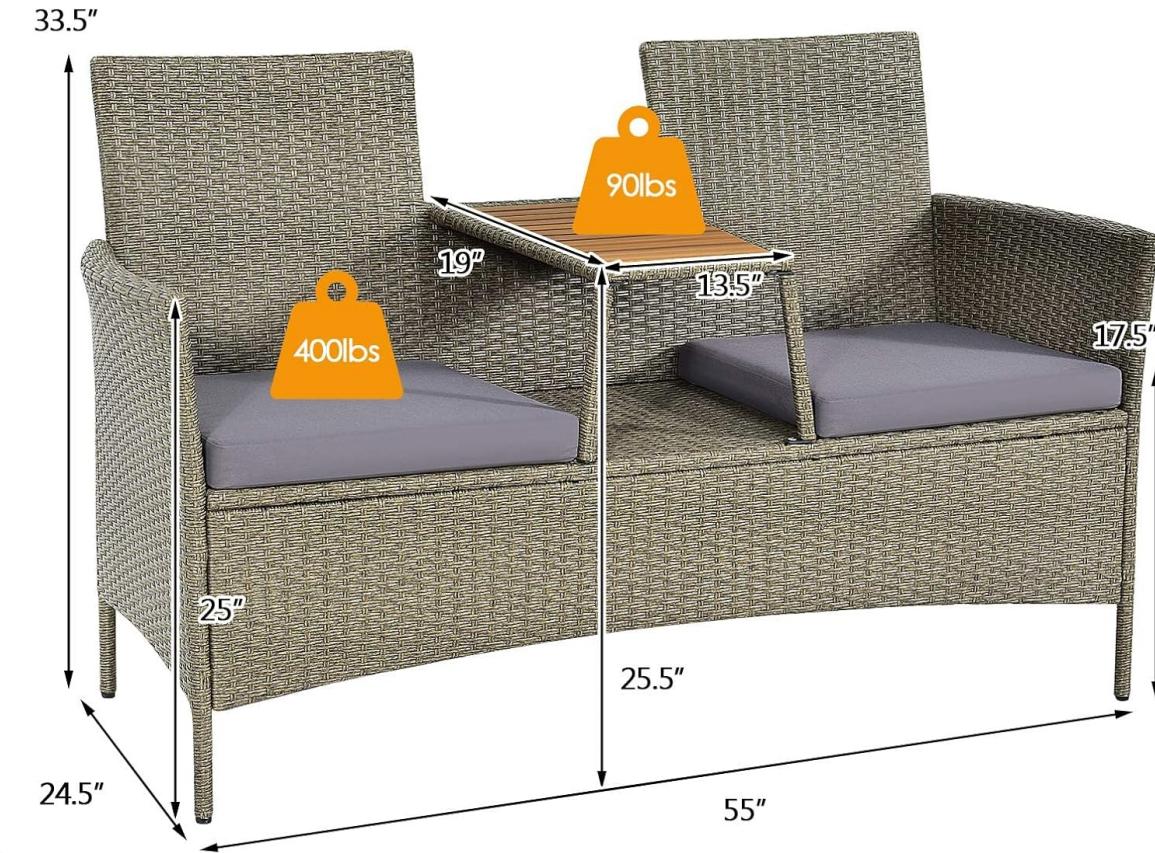

- **Wobbly Loveseat:** If the loveseat feels unstable after assembly, recheck all screws. Loosen them slightly, ensure all components are properly seated and aligned, then retighten all screws evenly. Ensure the loveseat is on a flat, level surface.
- **Cushions Flattening:** Over time, cushions may compress. Fluffing them regularly can help maintain their shape. If covers are dirty, refer to the Maintenance section for cleaning instructions.
- **Rattan Damage:** While weather-resistant, prolonged exposure to extreme conditions can affect

rattan. Inspect periodically for any signs of wear or damage.
