Science4you Unicorn Terrarium Kit Instruction Manual

MODEL: 4052

Create Your Own Magical Ecosphere

1. Safety Information

This product is not recommended for use by children under 6 years old. Adult supervision is advised during assembly and planting.

2. What's in the Box

Your Science4you Unicorn Terrarium Kit includes the following components:

- Educational book online (accessible via QR code or website)
- Instructions leaflet
- Miniature unicorn
- Unicorn stickers
- Terrarium jar
- Gravel
- Pink sand
- Soil for plants
- Watercress seeds
- Tweezers
- Pasteur pipette
- Measuring cup

Image: All components included in the Science4you Unicorn Terrarium Kit, neatly packaged.

3. Setup Instructions

Follow these steps to assemble and plant your Unicorn Terrarium:

1. **Prepare the Terrarium Jar:** Ensure the terrarium jar is clean and dry. You may decorate the outside of the jar with the provided unicorn stickers before adding contents.

Image: The product box displaying the fully assembled and decorated Unicorn Terrarium.

2. **Add Gravel:** Place the gravel at the bottom of the terrarium jar. This layer aids in drainage.
3. **Add Soil:** Carefully add the provided soil for plants on top of the gravel layer. Spread it evenly.

Image: A child carefully adding seeds to the soil layer within the terrarium jar.

4. **Plant Watercress Seeds:** Sprinkle the watercress seeds evenly over the soil surface. Gently press them into the soil using your fingers or the tweezers.
5. **Water the Seeds:** Use the Pasteur pipette and measuring cup to add a small amount of water to moisten the soil. Ensure the soil is damp but not waterlogged.
6. **Decorate Your Ecosphere:** Arrange the pink sand, miniature unicorn, and any other decorative elements (like additional unicorn stickers) within your terrarium to create a magical scene. Use the tweezers for precise placement.

Decorate your scenario

Image: A child's hands carefully placing pink sand and a miniature unicorn figure inside the terrarium.

7. **Place in a Suitable Location:** Position your terrarium in a location that receives indirect sunlight. Avoid direct sunlight, which can overheat the terrarium.

4. Operating Instructions

To ensure your terrarium thrives and provides continuous enjoyment:

- **Watering:** Check the soil moisture daily. If the soil appears dry, use the Pasteur pipette to add a small amount of water. Overwatering can harm the plants.
- **Light:** Provide indirect sunlight for several hours a day. The watercress seeds should sprout within 3-5 days.
- **Observation:** Observe your terrarium regularly to watch the plants grow and to ensure the environment remains healthy.

Image: A collage illustrating the various stages of terrarium creation, including plant growth and decoration.

5. Maintenance

Maintaining your terrarium is simple:

- **Cleaning:** Gently wipe the inside of the terrarium jar with a clean, damp cloth if condensation or dirt accumulates.
- **Trimming:** If the watercress grows too tall, you may trim it carefully with scissors.
- **Replanting:** After some time, you may wish to replant new seeds or refresh the soil.

6. Specifications

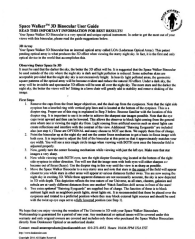

- **Product Dimensions:** 9.06 x 4.13 x 8.66 inches

- **Item Weight:** 1.17 pounds
- **Item Model Number:** 4052
- **Manufacturer Recommended Age:** 6 years and up
- **Manufacturer:** Science4you
- **Release Date:** July 6, 2023
