

Supreme Trimmer STF101

Supreme Trimmer Solo Single Foil Shaver (Model STF101) User Manual

Your guide to optimal performance and care.

1. PRODUCT OVERVIEW

The Supreme Trimmer Solo Single Foil Shaver (Model STF101) is a compact and powerful grooming tool designed for close shaving of stubble, mustaches, sideburns, and hairlines. Its portable design and USB-C charging make it suitable for both professional and personal use, at home or while traveling.

Key Features:

- **Long Battery Life:** Up to 150 minutes of continuous cordless use.
- **USB-C Rechargeable:** Convenient and universal charging.
- **Battery Indicator:** LED display for charging status and battery level.
- **Travel Lock:** Prevents accidental activation during transport.
- **Single Foil Design:** Engineered for an exceptionally close and smooth shave.
- **Hypoallergenic Foils:** Designed to minimize skin irritation.
- **Powerful Motor:** Ensures consistent and efficient performance.

What's Included:

- SOLO Single Foil Shaver
- USB-C Charging Cable
- Cleaning Brush
- Foil Protective Cap
- Velvet Travel Bag

WHAT'S IN THE BOX:

Image: The Solo Foil Shaver and its included accessories: USB-C cable, cleaning brush, foil cap, and velvet bag.

2. SAFETY INFORMATION

WARNING: Always keep the shaver dry and avoid using it near water. Do not charge the shaver while in use. Be cautious when using the shaver to prevent cuts and skin irritation. Always clean and dry the shaver after each use to prevent bacterial growth.

- Do not immerse the shaver in water or use it in the shower.
- Keep out of reach of children.
- Do not disassemble the shaver beyond routine cleaning and foil/cutter replacement.
- If the shaver is damaged, do not use it. Contact customer support.

3. SETUP AND INITIAL USE

Charging the Shaver:

1. Connect the provided USB-C charging cable to the shaver's charging port.
2. Plug the other end of the USB-C cable into a compatible USB power adapter (not included) or a USB port.
3. The LED indicator will illuminate to show charging status. A full charge provides up to 150 minutes of runtime.
4. Disconnect the shaver once fully charged. Avoid overcharging to prolong battery life.

Image: The Solo Shaver being charged via its USB-C port.

First Use Preparation:

- Before the first use, fully charge the shaver.
- It is recommended to test the shaver on a small area of skin (e.g., leg or arm) to ensure no adverse reaction.
- Your skin may take 2-4 weeks to adapt to a new shaver.

4. OPERATING INSTRUCTIONS

Turning On/Off and Travel Lock:

- To turn on the shaver, slide the power switch located on the side of the unit.
- To turn off, slide the power switch back to the off position.
- The shaver features a travel lock function to prevent accidental activation. Refer to the LED indicator for travel lock status.

Shaving Technique:

1. Ensure your skin is clean and dry before shaving.
2. The Solo Shaver is designed for stubble and hair up to 3 days growth. If hair is longer, pre-trim it with a hair trimmer for best results.
3. Hold the shaver at a 90-degree angle to your skin.
4. Gently glide the shaver over the skin against the direction of hair growth.
5. Do **NOT** push the shaver down too hard. Excessive pressure can cause irritation, make the shaver warm, and prevent a smooth shave.
6. For optimal results, stretch the skin taut with your free hand.

Image: The shaver is effective on stubble but not recommended for hair longer than 3 days growth.

5. MAINTENANCE

Cleaning the Shaver:

Regular cleaning ensures optimal performance and hygiene.

1. Turn off the shaver and remove the foil head.
2. Use the provided cleaning brush to remove any hair or debris from the foil and cutters.
3. For a deeper clean, you may disinfect the foils and blades with an appropriate shaver disinfectant spray.
4. Wipe down any excess moisture, allow to air dry completely, and then reassemble the shaver.

KEEP IT CLEAN:

REMOVE ANY HAIR OR DEBRIS.

FOR A DEEPER CLEAN
DISINFECT FOILS AND BLADES

WIPE DOWN EXCESS MOISTURE, AIR
DRY, AND THEN REASSEMBLE THE
SHAVER

Image: Step-by-step guide for cleaning the shaver: remove hair, disinfect, dry, and reassemble.

Foil and Cutter Replacement:

To maintain peak shaving performance, the foils and cutters should be replaced periodically.

- It is recommended to change the foils and blades of an electric foil shaver every 12 to 18 months, depending on usage.
- If you notice a decline in performance, such as tugging, pulling, or an uneven shave, it might be time to replace them sooner.
- Replacement Foils and Cutters (SB11) are sold separately.

BLADES

PRECISION-ENGINEERED STAINLESS STEEL BLADES

Replacement Blade (SB11)

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Shaver does not turn on	Battery is depleted; Travel lock is engaged; Unit is damaged.	Charge the shaver fully; Disengage travel lock; If damaged, do not use and contact support.
Poor shaving performance (tugging, uneven shave)	Foil or cutters are dull/worn; Hair is too long; Improper shaving technique.	Replace foils and cutters (SB11); Pre-trim longer hair; Ensure gentle pressure and proper angle.

Problem	Possible Cause	Solution
Skin irritation after shaving	Excessive pressure; Skin not adapted to shaver; Dirty foils/cutters.	Use gentle pressure; Allow skin time to adapt (2-4 weeks); Clean shaver thoroughly after each use.
Shaver not charging	Cable or adapter faulty; Charging port obstructed; Internal battery issue.	Try a different USB-C cable and adapter; Check charging port for debris; Contact customer support if issue persists.
