2.2. Connecting Your Device

The DMP-A6 offers a variety of input and output options to integrate with your existing audio system.

- **Power Connection:** Connect the supplied power cable to the AC input on the rear panel and then to a suitable power outlet.
- **Network Connection:** For optimal streaming performance, connect an Ethernet cable to the Gigabit LAN port. Wi-Fi connectivity is also available for wireless setup.
- **Audio Output:**
 - **Analog Outputs:** Use XLR (balanced) or RCA (unbalanced) outputs to connect to an amplifier, pre-amplifier, or active speakers.
 - **Digital Outputs:** Utilize Optical, Coaxial, or USB Audio outputs to connect to an external DAC or AV receiver.
 - **HDMI Output:** The HDMI port is for audio output only; it does not provide video output.
- **Audio Input:** The DMP-A6 can function as a DAC. Connect external digital sources via Coaxial, Optical, or USB Type-C inputs.

3. Operating Instructions

3.1. Power On/Off

To power on the DMP-A6, press the 'Push' button on the front panel. The device will boot up and display the EVERSOLO logo on the touchscreen. To power off, press and hold the 'Push' button until a power-off prompt appears on the screen, then confirm.

3.2. Touchscreen Interface

The 6-inch HD touchscreen provides intuitive control over all device functions. Navigate through menus, select music, adjust settings, and view playback information directly on the screen.

Video 3.1: A brief demonstration of the EVERSOLLO Control app, illustrating its user interface and how it can be used to manage music playback and device settings remotely.

3.4. Local Music Playback

The DMP-A6 features an Eversolo Music Library for managing and playing local audio files. It supports a wide range of high-resolution formats, including DSD512, PCM768kHz/32Bit, MQA, FLAC, WAV, and APE.

- **Internal Storage:** An internal slot is available for installing an NVMe SSD (up to 4TB, not included) to store your music library directly on the device.
- **External Storage:** Connect USB drives or network-attached storage (NAS) devices to access your music files.
- **CD Ripping:** When paired with a compatible external USB CD-ROM drive (e.g., Eversolo CDR-A6), the DMP-A6 can rip audio CDs to internal storage in FLAC or WAV formats.

4. Maintenance

4.1. Firmware Updates

EVERSOLO regularly releases firmware updates to improve performance, add new features, and address any issues. It is recommended to keep your device's firmware up to date.

- Check for updates via the 'Settings' menu on the device's touchscreen or through the mobile application.
- Ensure a stable internet connection during the update process.
- Do not power off the device during a firmware update.

4.2. Cleaning

To maintain the appearance and functionality of your DMP-A6:

- Use a soft, dry, lint-free cloth to clean the exterior surfaces.
- For the touchscreen, use a screen-specific cleaning solution and a microfiber cloth.
- Avoid using abrasive cleaners, solvents, or aerosol sprays, as these can damage the finish or internal components.
- Ensure the device is powered off and disconnected from the power source before cleaning.

5. Troubleshooting

This section provides solutions to common issues you might encounter with your DMP-A6.

Problem	Possible Cause	Solution
No power	Power cable not connected; Power outlet issue	Ensure power cable is securely connected. Test the power outlet with another device.
No sound output	Incorrect audio output selected; Volume too low; Cable connection issue	Verify the correct output (XLR, RCA, Optical, Coaxial, USB) is selected in settings. Increase volume. Check all audio cable connections.
Cannot connect to network	Incorrect Wi-Fi password; Router issue; Ethernet cable disconnected	Re-enter Wi-Fi password. Restart your router. Ensure Ethernet cable is properly connected if using wired.
App control issues	Device not on same network; App version outdated	Ensure your mobile device and DMP-A6 are on the same Wi-Fi network. Update the EVERSOLLO Control app to the latest version.
Software glitches/freezes	Temporary software error	Restart the device. If the issue persists, perform a factory reset (refer to settings menu for option).
