SETUP

1. Charging the Device

Before initial use, fully charge your Fire-Boltt Ninja Call Pro Max Smart Watch. Connect the provided charging cable to the watch's charging port and a compatible USB power source (a 3.7V to 5V adapter or a laptop USB port). The watch requires approximately 2 hours to reach a full 100% charge.

2. Pairing with Your Smartphone

1. Download the official Fire-Boltt application from your smartphone's app store (available for Android and iOS).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the Fire-Boltt app and follow the on-screen instructions to search for and connect to your Ninja Call Pro Max Smart Watch.
4. Confirm the pairing request on both your phone and the smartwatch.

OPERATING YOUR SMART WATCH

Display and Navigation

The watch features a 51.05mm (2.01 inch) HD display with 240*296 pixels resolution and 320 NITS Peak Brightness. Navigate through menus and features by swiping across the screen and tapping icons. The watch supports multiple watch

faces, which can be customized via the companion app.

Bluetooth Calling

With Bluetooth calling, you can make and receive calls directly from your wrist. Ensure your watch is connected to your smartphone via Bluetooth. The watch features an in-built microphone and speaker for clear audio during calls.

- **Making Calls:** Access the dial pad, recent calls, or contact list directly from the watch interface.
- **Receiving Calls:** Answer or reject incoming calls with a tap on the watch screen.

Health Monitoring

The watch includes a comprehensive health suite to help you monitor your well-being.

- **Heart Rate Tracking:** Monitors your heart rate throughout the day.
- **SpO2 Monitoring:** Measures your blood oxygen saturation levels.
- **Sleep Monitoring:** Tracks your sleep patterns, including restful and light sleep stages.
- **Steps & Calories Count:** Records your daily steps and estimated calorie burn.
- **Breath Training:** Guided breathing exercises for relaxation.
- **Female Health Care:** Provides cycle tracking and prediction features.

MAINTENANCE

Cleaning Your Smart Watch

Regularly clean your watch and strap to prevent skin irritation and maintain device performance. Use a soft, damp cloth to wipe the screen and body. For the strap, follow the manufacturer's recommendations for the specific material.

Water Resistance (IP67)

The Fire-Boltt Ninja Call Pro Max Smart Watch is IP67 water-resistant. This means it is protected against dust and can withstand immersion in water up to 1 meter for up to 30 minutes. It is suitable for daily use and activities like hand washing or light rain. Avoid prolonged immersion, hot water, or exposure to high-pressure water jets.

TROUBLESHOOTING

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Cannot pair with smartphone:**
 - a. Ensure Bluetooth is enabled on your phone and the watch.
 - b. Make sure the watch is within range of your phone.
 - c. Restart both your phone and the watch.
 - d. Try unpairing and re-pairing through the Fire-Boltt app.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors regularly.
- **Touch screen unresponsive:** Restart the watch. If the issue persists, ensure the screen is clean and dry.
- **Short battery life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring if not needed.

If you encounter persistent issues, refer to the official Fire-Boltt support resources or contact customer service.
