RBROHANT RB0736D

RBROHANT RB0736D Brushed Gold Wall Mount Bathroom Faucet with Pop-Up Drain

Instruction Manual

PRODUCT OVERVIEW

The RBROHANT RB0736D is a brushed gold wall-mounted bathroom faucet designed for modern bathrooms. This set includes a dual-handle faucet, a brass rough-in valve, and a pop-up drain suitable for sinks without an overflow hole. Constructed from solid brass, it ensures durability and a consistent finish. The design aims to free up countertop space and facilitate cleaning.

SETUP AND INSTALLATION

This faucet features a standard 1/2" NPT thread size for the rough-in valve, making installation straightforward. An installation manual is included, and a video guide is available for reference. Ensure to protect the finish during installation to prevent scratches.

Included Components

Image: All components of the RBROHANT wall mount faucet and pop-up drain set, including the spout, handles, rough-in valve, and pop-up drain.

Rough-in Valve and Connections

The brass rough-in valve is designed for secure wall mounting. Ensure all connections are properly sealed using Teflon

tape on threads to prevent leaks.

OPERATING INSTRUCTIONS

The faucet features dual lever handles for controlling hot and cold water flow. The pop-up drain is designed for easy

operation to open and close the drain for water retention or release.

Faucet Operation

Turn the left handle for hot water and the right handle for cold water. Adjust both handles to achieve the desired water temperature and flow rate.

Pop-Up Drain Operation

The pop-up drain is activated by pressing down on the drain stopper. Press once to close the drain and retain water, and press again to open it and allow water to drain. This drain is specifically designed for sinks without an overflow hole.

MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your faucet. Avoid abrasive cleaners or harsh chemicals that can damage the brushed gold finish.

Cleaning the Faucet

Clean the faucet with a soft, damp cloth and mild soap. Rinse thoroughly and dry with a soft towel to prevent water spots.

Aerator Maintenance

The high-end aerator provides a soft water flow and helps save water. If water flow becomes restricted, the aerator may need cleaning. It can be easily removed with a coin for flushing out debris.

Image: A close-up of the faucet aerator, illustrating its design and the ease of removal for maintenance.

TROUBLESHOOTING

If you encounter any issues with your RBROHANT faucet, please refer to the common problems and solutions below. If the problem persists, contact customer support.

- **Low Water Flow:** Check if the aerator is clogged. Remove and clean it as described in the Maintenance section. Ensure water supply valves are fully open.
- **Leaking Faucet:** Verify that all connections are tightened properly. If leaks occur at the handles, the internal cartridges may need inspection or replacement.
- **Drain Not Sealing:** Ensure the pop-up drain is correctly installed and free of debris that might prevent a proper seal.
- **No Hot/Cold Water:** Check the hot and cold water supply lines and valves to ensure they are open and that there

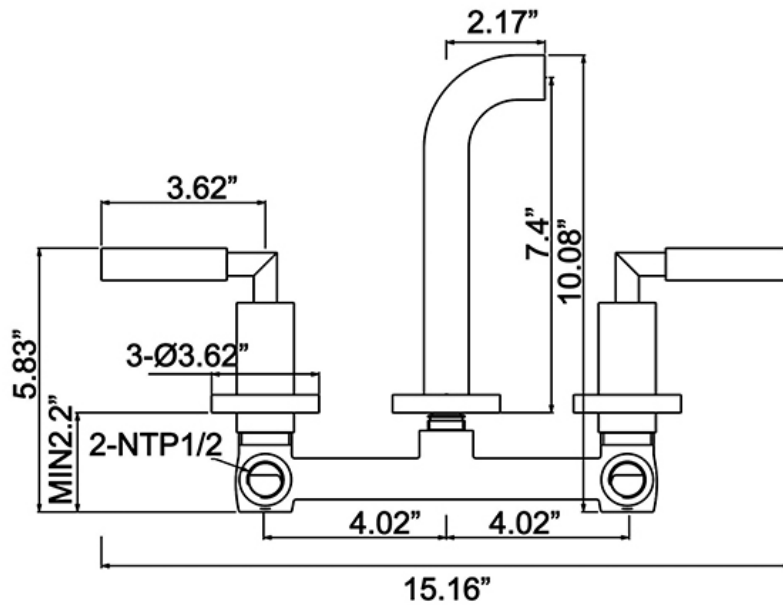

are no blockages.

SPECIFICATIONS

Feature	Detail
Brand	RBROHANT
Model Number	RB0736D (RWBF60007-*)
Mounting Type	Wall Mount
Finish Type	Brushed Gold
Material	Solid Brass (faucet), Zinc (handle), Brass & 304SUS Stainless Steel (drain)
Number of Handles	2
Included Components	Faucet, Rough-in Valve, Pop-up Drain
