PRODUCT SPECIFICATIONS

Brand	BAMEOS
Model Name	wall shelf
Product Dimensions	9.25"D x 47.24"W x 1.5"H
Color/Finish Type	White
Number of Shelves	2
Weight Limit	20 Pounds (per shelf)
Assembly Required	Yes
Installation Type	Wall Mount
Included Components	Hardware
Item Weight	12.97 pounds

SETUP AND INSTALLATION

The BAMEOS Floating Shelf is designed for straightforward installation. Please follow these steps carefully to ensure proper and secure mounting.

Tools and Preparation:

- Level ruler or bubble level (essential for horizontal alignment)
- Drill
- Pencil for marking
- Included assembly tool and hardware

Important Safety Note: The included anchors are not to be used if screwing directly into a wall stud. Always ensure the holes are in a perfectly horizontal line before drilling to prevent uneven installation.

Installation Steps:

1. Step 1: Measurement

Position the invisible bracket against the wall at your desired height. Use a level ruler to ensure it is perfectly horizontal. Mark the drilling points with a pencil through the bracket's holes.

Image: Detailed view of the measurement and marking process for shelf installation.

2. Step 2: Perforation (Drilling)

Using a drill, carefully create holes at the marked points. Ensure the drill bit size matches the provided anchors (if not drilling into studs) or screws.

Image: Illustration of drilling the wall for bracket installation.

3. Step 3: Installation (Mounting the Bracket)

Insert the anchors (if applicable) into the drilled holes. Secure the invisible bracket to the wall using the provided screws. Ensure it is firmly attached and level.

Image: Demonstrating how to slide the shelf onto the mounted invisible bracket.

4. Step 4: Anti-slip Fixing (Securing the Shelf)

Once the shelf is slid onto the bracket, use the anti-slip fixing mechanism (typically a small screw from underneath or a locking pin) to secure the shelf firmly to the bracket, preventing it from sliding off.

Image: Final step of installation, securing the shelf with an anti-slip screw.

USAGE AND PLACEMENT

Your BAMEOS Floating Shelf is versatile and can be used in various settings to enhance storage and decor.

Recommended Usage:

- **Living Room:** Display decorative items, framed photos, or small plants.
- **Bedroom:** Organize beauty products, books, or personal mementos.
- **Kitchen:** Store spices, jars, or small kitchen utensils.
- **Bathroom:** Hold toiletries, towels, or decorative accents.
- **Office/Study:** Keep small office supplies, books, or display awards.

The shelf's dimensions (47.2" L x 9.3" W x 1.5" H) make it ideal for various items, including speakers, projectors, and game consoles, especially when placed under a TV.

Image: Floating shelves utilized in a kitchen corner for organizing and displaying kitchenware.

Weight Capacity:

For safe use and to prevent damage to the shelf or wall, ensure that the total weight placed on each shelf does not exceed **20 pounds (9.07 kg)**. Distribute weight evenly across the shelf surface.

CARE AND MAINTENANCE

To maintain the appearance and longevity of your BAMEOS Floating Shelf, follow these simple care instructions:

- **Cleaning:** Wipe the surface with a dry, soft cloth. Avoid abrasive cleaners or harsh chemicals, as these may damage the finish.
- **Spills:** In case of spills, wipe immediately with a dry cloth to prevent moisture absorption.
- **Inspection:** Periodically check the mounting hardware to ensure it remains secure. Tighten screws if necessary.

TROUBLESHOOTING

If you encounter any issues with your BAMEOS Floating Shelf, consider the following common solutions:

Shelf Appears Unstable or Loose:

- **Check Mounting:** Ensure all screws securing the bracket to the wall are fully tightened.
- **Verify Level:** Re-check if the bracket was installed perfectly level. An uneven installation can cause perceived instability.
- **Weight Distribution:** Ensure the weight on the shelf is evenly distributed and does not exceed the 20-pound limit. Overloading can cause stress on the mounting.
- **Wall Type:** Confirm that the installation method (anchors vs. studs) was appropriate for your wall type. Improper anchoring can lead to looseness.

Shelf is Not Level:

- **Re-measure:** Carefully re-measure and mark the drilling points using a level before re-drilling.
- **Adjust Bracket:** If possible, slightly adjust the bracket before fully tightening all screws to achieve a level position.

WARRANTY AND SUPPORT

BAMEOS is committed to providing high-quality products and customer satisfaction.

Lifetime Warranty:

We strive to offer 100% satisfaction for all our customers and provide quality assurance service for our products. This product comes with a lifetime warranty.

Customer Support:

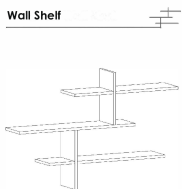

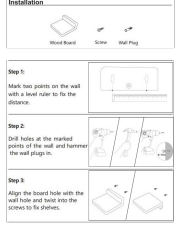

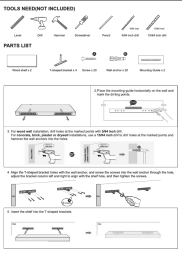

Our customer service team is available 24/7 to answer any questions or concerns you may have before and after your purchase. If you are dissatisfied with your floating shelves for any reason, please do not hesitate to contact us online. For support, please visit the official BAMEOS store or contact customer service through your purchase platform.
