MEWOOFUN QM053

MEWOOFUN 4-Tier Door-Mounted Cat Climbing Shelf User Manual

Model: QM053

INTRODUCTION

Thank you for choosing the MEWOOFUN 4-Tier Door-Mounted Cat Climbing Shelf. This product is designed to provide a versatile and space-saving climbing and resting area for your indoor cats. Made from high-quality wood and metal, it offers a sturdy and durable structure for multiple cats. Please read this manual carefully before assembly and use to ensure proper installation and safe operation.

SAFETY INFORMATION

- Ensure the door gap is greater than 3 mm and the door thickness is between 40-45 mm for proper and secure installation.
- Each individual platform is designed to support a cat weighing up to 10 kg (22 lbs). The entire structure can safely support up to 4 cats simultaneously.
- Regularly inspect all components for signs of wear, damage, or loosening. Tighten screws and connections as needed.
- Keep small parts and packaging materials away from children and pets during assembly to prevent choking hazards.
- Do not allow children to climb on or play with the cat shelf.
- Place the cat shelf in a stable location, ensuring the door is securely closed when in use.
- Allow your cats a few days to acclimate to the new climbing shelf. You may use treats to encourage them to explore the different levels.

PACKAGE CONTENTS

Before beginning assembly, please verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact MEWOOFUN customer support.

- Main vertical support beam(s)
- 4 x Multi-level platforms
- Door hanging brackets

- Silicone anti-slip stickers
- Screw hole stickers
- Assembly hardware (screws, bolts, etc.)
- Assembly tools (if included, e.g., Allen wrench)
- Ball toy (optional accessory)

SETUP AND ASSEMBLY

Follow these steps to assemble your MEWOOFUN Door-Mounted Cat Climbing Shelf. An English instruction manual is included with the product for detailed visual guidance.

1. **Prepare the Door:** Ensure your door meets the required specifications: thickness of 40-45 mm (1.5"-1.7") and a minimum door gap of 3 mm (0.1").

4. **Install Door Hanging Brackets:** Attach the door hanging brackets to the top of the assembled frame.
5. **Mount to Door:** Carefully hang the assembled cat shelf over the top of your chosen door. Ensure it is level and stable.
6. **Apply Protection:** Apply the silicone anti-slip stickers and screw hole stickers to reduce friction and protect your door from scratches.
7. **Attach Ball Toy:** If included, attach the ball toy to the designated spot at the bottom of the shelf.

USAGE AND OPERATION

The MEWOOFUN cat climbing shelf provides a multi-level activity area for your cats to climb, view, rest, and scratch.

- **Encouraging Use:** Initially, place your cat's favorite treats or toys on the lower platforms to encourage exploration. Gradually move them to higher levels as your cat becomes comfortable.
- **Activity Zone:** Cats can use the various platforms for climbing, observing their surroundings, napping, and scratching.
- **Mobility:** The door-mounted design allows for easy relocation of the cat shelf from one room to another as needed.

MAINTENANCE

Proper maintenance will extend the lifespan of your cat climbing shelf.

- Cleaning:** For wood and metal parts, regularly clean them with a damp cloth. If necessary, use an appropriate cleaner. Be careful to avoid scratching surfaces during cleaning.
- Metal Parts:** Occasionally, metal parts may need to be polished to restore their original shine.
- Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten as needed.
- Carpeted Surfaces:** If any platforms have carpeted surfaces, vacuum them regularly to remove cat hair and debris. Spot clean with a pet-safe cleaner if necessary.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Shelf is wobbly or unstable.	Loose screws or improper installation on the door.	Ensure all screws are tightened. Verify door thickness and gap meet specifications. Re-adjust the shelf on the door for a secure fit. Apply silicone anti-slip stickers if not already done.
Cats are not using the shelf.	Cats need time to adjust or are not enticed.	Place treats, catnip, or favorite toys on the platforms. Encourage them gently. Give them a few days to get used to the new furniture.
Door is getting scratched or damaged.	Insufficient protection or improper installation.	Ensure silicone anti-slip stickers and screw hole stickers are correctly applied to all contact points with the door. Check for any sharp edges on the shelf that might be rubbing against the door.
