1. Ensure the lock is set to the factory default combination (0-0-0).
2. Locate the small reset button (often recessed and requires a pen tip or similar pointed object to press).
3. Press and hold the reset button until you hear a click or feel it depress.
4. While holding the reset button, set your desired 3-digit combination by rotating the dials.
5. Release the reset button. Your new combination is now set. Remember your combination as there is no master key.
6. To lock the zippers, insert the zipper pulls into the lock slots and scramble the dials.
