SAFETY INFORMATION

- Do not exceed the maximum weight capacity of 70 kg (154 lbs).
- Ensure no obstacles are in the path of the desk during height adjustments to prevent collisions.
- Keep children and pets away from the desk during operation.

- Do not sit or stand on the desk.
- Only use the desk for its intended purpose as a workstation.
- Disconnect power before cleaning or maintenance.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly.

- Desktop (4 parts)
- Desk Frame (Galvanized Steel Legs)
- Control Panel with USB Charging Port
- Power Adapter and Cable
- Headphone Hook
- Cable Management Tray
- Assembly Hardware (screws, tools)
- Instruction Manual

SETUP AND ASSEMBLY

Follow these steps to assemble your height-adjustable desk. It is recommended to have two people for certain assembly steps, especially when flipping the desk.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Desktop:** Connect the four desktop parts using the provided dowels and fasteners. Ensure they are securely aligned.
3. **Attach Desk Legs:** Secure the galvanized steel legs to the desktop frame using the provided screws. Ensure all connections are tight.
4. **Install Control Panel:** Mount the control panel to the underside of the desktop in the designated area. Connect the necessary cables to the motor and power supply.

5. **Attach Accessories:** Install the headphone hook and cable management tray as shown in the diagrams.
6. **Connect Power:** Plug the power adapter into the desk and then into a wall outlet.
7. **Initial Calibration:** Perform an initial calibration as per the control panel instructions (usually by pressing and holding the down button until the desk reaches its lowest point and slightly retracts).

Bewegungsmangel

USB-A
Schnellladegerät

Image: The intelligent control panel featuring three memory preset buttons (1, 2, 3), a digital height display, up/down adjustment arrows, and an integrated USB-A fast charging port.

- **Up/Down Arrows:** Press and hold the up or down arrow to adjust the desk height manually. Release to stop.

- **Memory Presets (1, 2, 3):**
 - a. Adjust the desk to your desired height.
 - b. Press the 'M' button (or similar 'Set' button, if present, otherwise assume direct press).
 - c. Press one of the number buttons (1, 2, or 3) within 3 seconds to save the current height to that preset.
 - d. To recall a saved height, simply press the corresponding number button (1, 2, or 3). The desk will automatically move to the saved position.
- **USB Charging Port:** Located on the control panel, this USB-A port provides fast charging for mobile phones and other electronic devices.
- **Sedentary Reminder:** The control panel may include a function to remind you to change positions after a set period. Refer to the specific control panel manual for activation and settings.

Height Adjustment

Höhenverstellbar

Ob Sie stehen, sitzen oder irgendwo dazwischen

15% höhere Elastizität als marktüblich

Image: A visual representation of the desk's height adjustment capabilities, demonstrating its range from a minimum of 72 cm to a maximum of 118 cm.

Entworfen für Komfort

Professionell, effizient, perfekt.

Image: A user standing at the TRIUMPHKEY desk, illustrating the ergonomic benefits of its height adjustment feature for standing work.

The desk can be adjusted electrically between 72 cm and 116 cm. Use the up/down arrows for manual adjustment or the memory presets for quick changes between sitting and standing positions.

Anti-Collision System

The desk is equipped with an anti-collision system. If the desk encounters an obstacle during height adjustment, it will automatically stop and reverse slightly to prevent damage or injury. Ensure the area around the desk is clear before and

during operation.

MAINTENANCE

- **Cleaning:** Wipe the desktop and frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals.
- **Cable Management:** Regularly check and organize cables using the integrated cable management system to prevent tangles and damage.
- **Inspections:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary.
- **Motor Care:** The motor is designed for long-term use. Avoid overloading the desk beyond its 70 kg capacity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Desk does not move.	Power cable disconnected; motor error; overload.	Check power connections. Unplug and replug the power cable. Reduce load on the desk. Perform a reset (refer to control panel manual).
Desk moves unevenly or makes unusual noise.	Loose connections; uneven load; motor issue.	Ensure all assembly screws are tight. Distribute weight evenly on the desktop. Contact customer support if the issue persists.
Anti-collision system triggers frequently.	Obstacles in the desk's path; sensitivity setting.	Clear the area around the desk. Check control panel manual for anti-collision sensitivity adjustment.
Memory presets not working.	Presets not saved correctly; power cycle.	Re-save the memory presets following the operating instructions. Disconnect and reconnect power to reset the system.
